Chinas War With Vietnam 1979 Issues Decisions And Implications:

China's War with Vietnam, 1979 King C. Chen, 1987 Why did the People's Republic of China and Vietnam two comrades and brothers engage in such a tragic war Chinese Strategic Culture and Foreign Policy Decision-Making Huiyun Feng, 2007-06-11 Examining the major academic and policy debates over China's rise and related policy issues this book looks into the motivations and intentions of a rising China Most of the scholarly works on China's rise approach the question at a structural level by looking at the international system and the systemic impact on China's foreign policy Traditional Realist theorists define China as a revisionist power eager to address wrongs done to them in history whilst some cultural and historical analyses attest that China's strategic culture has been offensive despite its weak material capability Huiyun Feng's path breaking contribution to the debate tests these rival hypotheses by examining systematically the beliefs of contemporary Chinese leaders and their strategic interactions with other states since 1949 when the communist regime came to power The focus is on tracing the historical roots of Chinese strategic culture and its links to the decision making of six key Chinese leaders via their belief systems Chinese Strategic Culture will be of interest to students of Chinese politics foreign policy strategic theory and international relations in general **China's Use of Military Force in Foreign Affairs** Markus B. Liegl, 2017-03-16 This book explains why China has resorted to the use of large scale military force in foreign affairs How will China use its growing military might in coming crisis and existing conflicts This book contributes to the current debate on the future of the Asia Pacific region by examining why China has resorted to using military force in the past Utilizing fresh theoretical insights on the causes of interstate war and employing a sophisticated methodological framework the book provides detailed analyses of China's intervention in the Korean War the Sino Indian War China's border clashes with the Soviet Union and the Sino Vietnamese War It argues that China did not employ military force in these wars for the sake of national security or because of material issues under contestation as frequently claimed Rather the book's findings strongly suggest that considerations about China's international status and relative standing are the principal reasons for China's decision to engage in military force in these instances When reflecting the study's central insight back onto China's contemporary territorial conflicts and problematic bilateral relationships it is argued that the People's Republic is still a status seeking and thus highly status sensitive actor As a result China's status ambitions should be very carefully observed and well taken into account when interacting with the PRC This book will be of much interest to students of Chinese foreign policy Asian politics military and strategic studies and IR in general Chinese Military Strategy in the Third Indochina War Edward C. O'Dowd, 2007-04-16 This well researched volume examines the Sino Vietnamese hostilities of the late 1970s and 1980s attempting to understand them as strategic operational and tactical events The Sino Vietnamese War was the third Indochina war and contemporary Southeast Asia cannot be properly understood unless we acknowledge that the Vietnamese fought three not two wars to establish their current role in the region The war was not about the Sino

Vietnamese border as frequently claimed but about China's support for its Cambodian ally the Khmer Rouge and the book addresses US and ASEAN involvement in the effort to support the regime. Although the Chinese completed their troop withdrawal in March 1979 they retained their strategic goal of driving Vietnam out of Cambodia at least until 1988 but it was evident by 1984-85 that the PLA held back by the drag of its Maoist organization doctrine equipment and personnel was not an effective instrument of coercion. Chinese Military Strategy in the Third Indochina War will be of great interest to all students of the Third Indochina War Asian political history Chinese security and strategic studies in general.

The China Problem in Postwar Japan Robert Hoppens, 2015-01-29 The 1970s were a period of dramatic change in relations between Japan and the People's Republic of China PRC. The two countries established diplomatic relations for the first time forged close economic ties and reached political agreements that still guide and constrain relations today. This book delivers a history of this foundational period in Sino-Japanese relations. It presents an up-to-date diplomatic history of the relationship but also goes beyond this to argue that Japan's relations with China must be understood in the context of a larger China problem that was inseparable from a domestic contest to define Japanese national identity. The China Problem in Postwar Japan challenges some common assertions or assumptions about the role of Japanese national identity in postwar Sino-Japanese relations showing how the history of Japanese relations with China in the 1970s is shaped by the strength of Japanese national identity not its weakness.

The Philosophy of Chinese Military Culture W. Mott, J. Kim, 2006-04-02 Drawing on ancient texts and modern interpretations this work explores the foundations for war in China's strategic culture. Shih Li and Tao The work uses Shih theory to explain the anomalies that continue to perplex Euro-American observers in modern China's uses of force.

Post-Conflict Development in East Asia Brendan M. Howe, 2016-04-08 East Asia is a region deeply affected by conflict Colonial ideological and national wars have left their scars and legacies on regional international and national governance Yet East Asian post conflict development experiences have been viewed as remarkably successful The three largest economies of East Asia Japan China and South Korea have all experienced dramatic growth but immediately prior to their periods of expansion all experienced the devastating impacts of international conflicts and or civil upheaval These post conflict development success stories do not however tell the whole tale Other states in East Asia and in particular certain regions within some of these states while apparently emerging from similar conflictual backgrounds have experienced far less positive transitions This volume critically assesses measurements of success in East Asian post conflict development from a human centered perspective This involves a major re evaluation of accepted accounts of domestic governance and international relations in East Asia from both a comparative and inter disciplinary viewpoint Case study rich this volume provides policy prescriptions for East Asian donors and actors in an effort to provide Asian solutions for Asian problems
