Development Sociology Actor Perspectives:

Development Sociology Norman Long, 2003-09-02 In this exciting and challenging work Norman Long brings together years of work and thought in development studies to provide a key text for guiding future development research and practice Using case studies and empirical material from Africa and Latin America Development Sociology focuses on the theoretical and methodological foundations of an actor oriented and social constructionist form of analysis This style of analysis is opposed to the traditional structuralist institutional analysis which is often applied in development studies With an accessible mix of general debate critical literature reviews and original case study materials this work covers a variety of key development issues Among many important topics discussed the author looks at commoditisation small scale enterprise and social capital knowledge interfaces networks and power globalisation and localisation as well as policy formulation and planned intervention processes This book should be read for its desire to pursue a form of analysis that helps us to understand better and more realistically the kinds of development interventions and social transformations that have characterised the second half of the twentieth century and will no doubt continue to characterise future development studies

Power, Participation, and Policy Katsuhiko Masaki, 2007-01-01 Power Participation and Policy proposes an alternative approach to making sense of popular participation in the policy process in light of the subtle workings of power in society This study based on field research carried out in Nepal illustrates that the policy process is implicated in a web of cultural politics experienced by different stakeholders namely their daily struggles to suture rifts in their identities in the face of competing demands arising from their daily social interaction The constant renegotiations of the overall policy direction among decision makers combined with the contested nature of the policy implementation on the ground provide a fertile ground for ordinary people to exert leverage over the unfolding of policymaking Masaki therefore draws the conclusion that a potential for the emancipation of ordinary people is immanent in the day to day flow of policymaking

Integrated Water Resources Management, Institutions and Livelihoods under Stress Collin C. Mabiza, 2018-03-09 The majority of people in Limpopo river basin depend on rainfed agriculture Unfortunately the Limpopo is water scarce and parts of the basin such as Zimbabwe s Mzingwane catchment are under stress in terms of agro ecological and socio politicoeconomic conditions

Integrated Water Resources Management IWRM has been adopted in the river basin in **Best practices and technologies for small scale agricultural water management in Ethiopia. Proceedings of a MoARD / MoWR / USAID / IWMI Symposium and Exhibition held at Ghion Hotel, Addis Ababa, Ethiopia, 7-9 March, 2006.** Awulachew, Seleshi

Bekele, Menker, M., Abesha, D., Atnafe, T., Wondimkun, Y., Policy Irrigation practices Drip irrigation Irrigation systems Water harvesting Irrigation management

The Fight Over Food Wynne Wright, Gerad Middendorf, 2010-11 One problem with the food system is that price is the bottom line rather than having the bottom line be land stewardship an appreciation for the environmental and social value of small scale family farms or for organically grown produce Interview with farmer in Skagit

County Washington For much of the later twentieth century food has been abundant and convenient for most residents of advanced industrial societies The luxury of taking the safety and dependability of food for granted pushed it to the back burner in the consciousness of many Increasingly however this once taken for granted food system is coming under question on issues such as the humane treatment of animals genetically engineered foods and social and environmental justice Many consumers are no longer content with buying into the mainstream commodity driven food market on which they once depended Resistance has emerged in diverse forms from protests at the opening of McDonald s restaurants worldwide to ever greater interest in alternatives such as CSAs community supported agriculture fair trade and organic foods The food system is increasingly becoming an arena of struggle that reflects larger changes in societal values and norms as expectations are moving beyond the desire for affordable convenient foods to a need for healthy and environmentally sound alternatives In this book leading scholars and scholar activists provide case studies that illuminate the complexities and contradictions that surround the emergence of a new day in agriculture The essays found in *The Fight Over Food* analyze and evaluate both the theoretical and historical contexts of the agrifood system and the ways in which trends of individual action and collective activity have led to an accumulation of resistance that greatly affects the mainstream market of food production The overarching theme that integrates the case studies is the idea of human agency and the ways in which people purposefully and creatively generate new forms of action or resistance to facilitate social changes within the structure of predominant cultural norms Together these studies examine whether these combined efforts will have the strength to create significant and enduring transformations in the food system

Agency and Changing World Views in Africa Dieter Neubert,Christine Scherer,2014 Current debates on the transnational impact of world views interpretive frameworks often refer to the concepts of globalization or travelling models with an emphasis on domination or on a process of translation This volume highlights situations where different world views are confronted with each other within Africa and the question of how the actors mediate between the two The conceptual chapters foster a critical view on the normative implications of agency itself as well as how they reflect on the claim of interpretive hegemony of human rights concepts of law democracy or neoliberalism In addition the book examines the confrontation of world views in particular cases Essays examine distinct empirical grounds such as law e g Islamic law children s rights law and development political ideology and analyze the role of transcendental powers Series Contributions to Research on Africa Beitrage zur Afrikaforschung Vol 40 Subject African Studies Politics Human Rights Law Rural Governance Lynda Cheshire,Vaughan Higgins,Geoffrey Lawrence,2006-12-05 This book critically explores the social causes and consequences of emerging governance arrangements In particular the book moves beyond questions of empowerment in governance debates to consider how new kinds of power relations arise between the various actors involved *Water and Aid in Mozambique* Emily Van Houweling,2022-08-25 Centres community voices to analyse the contested and unintentional social impacts of water projects in rural Mozambique **Soy,**

Globalization, and Environmental Politics in South America Gustavo de L. T. Oliveira, Susanna B. Hecht, 2017-10-24 Soy in South America constitutes one of the most spectacular booms of agro industrial commodity production in the world It is the pinnacle of modernist agro industrial practices serving as a key nexus in food feed fuel production that underpins the agribusiness conservationist discourse of land sparing through intensification Yet soy production is implicated in multiple problems beyond deforestation ranging from pesticide drift and contamination to social exclusion and conflicts in frontier zones to concentration of wealth and income among the largest landowners and corporations This book explores in depth the complex dynamics of soy production from its diverse social settings to its transnational connections examining the politics of commodity and knowledge production the role of the state and the reach of corporate power in everyday life across soy landscapes in South America Ultimately the collection encourages us to search and struggle for agroecological alternatives through which we may overcome the pitfalls of this massive transnational capitalist agro industry This book was originally published as a special issue of The Journal of Peasant Studies *The Discourse of Hospital Communication* R. Iedema, 2007-02-06 Bringing together recent international research in the field of hospital communication and interaction the contributors to this book contextualize clinical professional work by focussing on the rising intensity of information and communication practices in organizations generally and in health care in particular

Ignite the flame of optimism with Crafted by is motivational masterpiece, Find Positivity in **Development Sociology Actor Perspectives** . In a downloadable PDF format (*), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
