Chennault Giving Wings To The Tiger:

Chennault Martha Byrd, 1987 A well documented portrait of a brave and controversial airman who commanded a Chinese air force during World War II Jacket **Chennault** Martha Byrd, Claire Chennault Earle Rice, 2013 Profiles Claire Lee Chennault who after retiring from the United States Army Air Corps volunteered as an advisor to Chiang Kai Shek and led both Chinese and American air troops against Japan during World War II **Claire Lee Chennault: Theorist And Campaign Planner** Major John M. Kelley, 2015-11-06 This monograph examines Claire Lee Chennault as a military theorist and campaign planner It inquires whether Chennault s evolution of a theory of war assisted his planning the China Burma India Campaign during World War II The monograph is divided into four sections The first section focuses the historical background of Chennault and the war in Southeast Asia emphasizing the war in China as this is where Chennault preponderantly fought from In addition it identifies the aims of the major belligerents of the Sino Japanese War and why the Chinese actions were important to the Allied cause The second section explores Chennault s theory of war This section explores how he developed his theory of war and the theory itself The third section analyzes how Chennault s theory met the Chinese and American ends desired end state means application of the available resources and ways resource employment to achieve the ends The fourth section concludes that Chennault s theory of war assisted him in planning the China Burma India campaign during the Second World War Two functions precipitated from Chennault s theory of war First his theory clarified the past and the present notably the Great War and the airpower s technological evolution Second it assisted Chennault to foresee the future The future was realized because Chennault transcended the theorist role to that of an operational commander His theory fostered an operational concept the war of mobility which developed into a fighting doctrine With these resources and the invaluable contributions of the Chinese peasants Chennault devised a method of employment that maximized the contributions from all the means Chennault rationally created a campaign plan designed according to his theory The American Military Mission to China, 1941-1942 William G. Grieve, 2014-01-17 This is an overview of America s first effort in military aid to a foreign sovereign nation at a time when Europe was engaged in open warfare Asia was facing a series of military confrontations and most of the world thought global conflagration was inevitable The work offers insight into the impact of war in Burma a backwater of World War II and examines events that result when great powers go to great lengths to further their own goals The work also examines disagreements among China the United Kingdom the United States and Japan and shows the evolution of aid provision to another country and changing expectations as new information arises **World War II in the Pacific** Stanley Sandler, 2003-12-16 Stanley Sandler one of America s most respected and best known military historians has brought together over 300 entries by some 200 specialists in the field to create the first encyclopedia specifically devoted to the Pacific Theatre of World War II Extending far beyond battles and hardware the coverage ranges from high policy making grand strategy and the significant persons and battles of the conflict to the

organization of the Allied and Japanese divisions aircraft armor artillery psychological warfare warships and the home fronts covering the interactions of each topic along the way 23rd Fighter Group Carl Molesworth,2013-01-20 A fascinating and action packed look at the highest scoring unit within the CBI theatre telling the story of the colourful characters who fought a difficult guerrilla war against the Japanese Famous for the fearsome sharkmouths that adorned their planes the 23rd FG fought a guerrilla war against the Japanese steadily moving pilots and aircraft from one remote air base in China to another to keep the enemy off balance Because China could only be supplied by air from India there were constant shortages of aircraft fuel and ammunition with which to contend The 23rd FG met these challenges head on and by the end of the war its pilots had compiled a score of 594 aerial victories and nearly 400 ground kills The human cost was high however 126 pilots lost their lives in China while serving in the 23rd Drugs, Oil, and War Peter Dale Scott,2004-01-01 Peter Dale Scott s brilliantly researched tour de force illuminates the underlying forces that drive U S global policy from Vietnam to Colombia and now to Afghanistan and Iraq He brings to light the intertwined patterns of drugs oil politics and intelligence networks that have been so central to the larger workings of U S intervention and escalation in Third World countries through alliances with drug trafficking proxies This strategy was originally developed in the late 1940s to contain communist China it has since been used to secure control over foreign petroleum resources The result has been a staggering increase in the global drug traffic and the mafias associated with it_a problem that will worsen until there is a change in policy Scott argues that covert operations almost always outlast the specific purpose for which they were designed Instead they grow and become part of a hostile constellation of forces The author terms this phenomenon parapolitics_the exercise of power by covert means_which tends to metastasize into deep politics_the interplay of unacknowledged forces that spin out of the control of the original policy initiators We must recognize that U S influence is grounded not just in military and economic superiority Scott contends but also in so called soft power We need a soft politics of persuasion and nonviolence especially as America is embroiled in yet another disastrous intervention this time in Iraq World War II Spencer C.
