The Feeding of Nations Mark Gibson, 2016-04-19 In the last decade the world has grown richer and produced more food than ever before Yet in that same period hunger has increased and 925 million remain underfed and malnourished Exploring this troubling paradox **The Feeding of Nations Re Defining Food Security for the 21st Century** offers a glimpse into how the simple aspiration of global food security can be achieved

Geo-intelligence for Sustainable Development T. P. Singh, Dharmaveer Singh, R. B. Singh, 2021-09-14 Globally concerns for the environment and human well being have increased as results of threats imposed by climate change and disasters environmental degradation pollution of natural resources water scarcity and proliferation of slums Finding appropriate solutions to these threats and challenges is not simple as these are generally complex and require state of the art technology to collect measure handle and analyse large volumes of varying data sets However the recent advances in sensor technology coupled with the rapid development of computational power have greatly enhanced our abilities to capture store and analyse the surrounding physical environment This book explores diverse dimensions of geo intelligence GI technology in developing a computing framework for location based data integrating earth observation and predictive modelling to address these issues at all levels and scales The book provides insight into the applications of GI technology in several fields of spatial and social sciences and attempts to bridge the gap between them

One Health Concepts and the Aquatic Ecosystem Laura D. Urdes, Chris Walster, Julius Tepper, 2025-10-01 Oceans and other wetlands cover approximately 70% of the Earth's surface and represent some of the most vital and dynamic ecosystems on the planet These aquatic environments provide essential functions that support both planetary and human well being from regulating climate through carbon sequestration and influencing weather patterns to sustaining biodiversity and supplying food and livelihoods to billions of people They act as buffers against extreme weather events nurseries for marine life and crucial components of global nutrient and water cycles This textbook explores the interconnectedness between aquatic ecosystems and human health through the lens of the One Health approach It also aligns with a number of the United Nations Sustainable Development Goals and has been written as an accessible resource for students researchers and practitioners working within the One Health framework

Feeding Britain Tim Lang, 2020-03-26 How does Britain get its food Why is our current system at breaking point How can we fix it before it is too late British food has changed remarkably in the last half century As we have become wealthier and more discerning our food has Europeanized pizza is children's favourite food and internationalized we eat the world's cuisines yet our food culture remains fragmented a mix of mass ultra processed substances alongside food as varied and good as anywhere else on the planet This book takes stock of the UK food system where it comes from what we eat its impact fragilities and strengths It is a book on the politics of food It argues that the Brexit vote will force us to review our food system Such an opportunity is sorely needed After a brief frenzy of concern following the financial shock of 2008 the UK government has slumped once more into a vague hope that the food

system will keep going on as before Food they said just required a burst of agri technology and more exports to pay for our massive imports Feeding Britain argues that this and other approaches are short sighted against the public interest and possibly even strategic folly Setting a new course for UK food is no easy task but it is a process this book urges that needs to begin now Tim Lang has performed a public service Simon Jenkins Sunday Times
