Concept Sourcebook Edward T. White, 1975 **Official Gazette** Philippines, 2007 *Structure As Architecture* Andrew Charleson, 2014-07-11 *Structure as Architecture* presents a comprehensive analysis of the indispensable role of structure in architecture. An exploration as well as a celebration of structure, the book draws on a series of design studies and case study examples to illustrate how structure can be employed to realize a wide range of concepts in contemporary architecture. By examining design principles that relate to both architecture and structural engineering, Andrew Charleson provides new insights into the relationship between both the technical and aesthetic aspects of architecture. Now in its second edition, the text has been extensively revised and updated throughout. Features include: A brand new chapter on hidden structure adding to the material on exposed structures. Two new chapters on using structure to realise common architectural concepts through a combination of precedents and creative design. Over 50 new case studies from across the globe. Easy to understand diagrams and a highly visual design to aid understanding and accessibility. More than two hundred case studies of contemporary buildings from countries such as the UK, the US, France, Germany, Spain, Hong Kong, Australia and Japan illustrate how a thorough integration of structure adds layers of richness and enhances the realisation of architectural design concepts. Inclusion, Disability and Culture Santoshi Halder, Lori Czop Assaf, 2017-05-08 This book provides a global and social examination of how disabilities are played out and experienced around the world. It presents auto ethnographic perspectives on disability across cultures, societies and countries by documenting individuals' personal narratives, thought processes and reflections. Chapter authors share cross-cultural perspectives within and across various countries such as India, Australia, United States, Sri Lanka, United Kingdom, Croatia, Brazil, South Africa and Qatar. Adopting a self-reflective stance following qualitative research methodology, the chapter authors discuss the current challenges in the field. Next, they deconstruct disability identities, explore the complexities of communication with differently abled persons, examine inclusive policies, practices and interventions, and present insights from caregivers. The book concludes with critical reflections and a look to the future of global diversity and inclusion. **Meditations for the Days of Awe** Dov Peretz Elkins, 2018-06-28 Dov Peretz Elkins, rabbi emeritus of The Jewish Center of Princeton, NJ, is well known as a prominent rabbi and innovative Jewish educator.
