Mitchell's Point George E. Monroe, Ph.D.,2002-02-01 The purpose of this book is to share a revelation The information on which this revelation is based came from the Universal Mind God It came in whispers It came through dreams It came when experiencing the heightened awareness of meditation or hypnotic trance or mental imagery It was often received in the form of startling intuition The vehicle for presenting this revelation is the story of one person s developmental journey from simple consciousness to cosmic awareness The main character Gregg arrives at a potent juncture in his life where all the negatives and positives seem to feed into a central purpose The more he learns the more he is able to see Events in his life that are no coincidence become ever more frequent and lead him to significant discoveries These discoveries accumulate and one day they result in a powerful flash of insight that he instantly knows is something vitally important for peace in the world and the ultimate survival of human life

Women in Pragmatism: Past, Present and Future Núria Sara Miras Boronat, Michela Bella,2022-07-07 This book offers a selection of the papers of the Women in Pragmatism International Conference held at the University of Barcelona in January 2020 The conference gathered women and non binary scholars from twelve different countries This was the first pragmatist conference organized entirely by women and non binary persons It has initiated a stable network of mentoring and support analogous to other women philosophers organizations The book provides paths to reconstruct the roots of pragmatism integrating the works of women pragmatists of the past and linking them to the current developments of feminist and pragmatist topics Scholars of different countries status and backgrounds serve as a powerful example of the trend toward interdisciplinary cooperation and versatility we might expect for the future of pragmatism The book is of interest for scholars interested in both pragmatism and feminism from various perspectives ranging from psychology to semiotics logic and sociology wishing to expand their horizons and understand their relevant interactions

Democracy and Education John Dewey,2005-01-01 It is not true there is no common interest in such an organization between governed and governors The authorities in command must make some appeal to the native activities of the subjects must call some of their powers into play Talleyrand said that a government could do everything with bayonets except sit on them This cynical declaration is at least a recognition that the bond of union is not merely one of coercive force

Riding with the Phoenix George E. Monroe, Ph.D.,2014-08-22 This book contains several different levels of meaning each with its own episodes of adventure intrigue and message The levels of discourse also can be seen as various stages in the sojourn of the main character Gregg from simple consciousness to cosmic awareness Several vehicles help Gregg reach his epiphanies including dreams meditation coincidences and two near death experiences A visit to Greece that included stops at the Delphic Oracles historic site and Agamemnon s tomb greatly expanded his perceptive abilities While standing inside the beehive shaped tomb he felt he had been slammed through a time warp to a new level of awareness which he would later

describe as holographic awareness The group dynamics revelation that he divined or rediscovered through intuition dreams and meditation is certainly important enough in itself as it sheds light on many of the social ills of our day But the real power and value of this book is that it demonstrates how one person can and does reach higher levels of awareness and being Riding with the Phoenix provides fresh insights on and linkages to new research and understanding about human awareness It serves as a metaphor for the increasing consciousness of the entire human species so necessary in these times of the augmenting and unresolved transboundary and transcultural dilemmas that we face
