Civic Parties in Divided Societies Cera Murtagh, 2025-10-02 In Northern Ireland and Bosnia Herzegovina a new form of politics is emerging thirty years after conflict Despite ongoing polarization civic political parties those that reject ethnonationalism and organize around alternative identities and issues have formed endured and claimed political space Notably these parties have emerged within the context of consociational power sharing a political system explicitly designed to accommodate ethnonational groups The rise of civic politics challenges the dominant narrative of deeply divided societies Cera Murtagh explores how countries transition from armed conflict to issue based democracies highlighting both the institutional barriers that civic parties face and the opportunities they can seize Drawing on extensive fieldwork including more than one hundred semi structured elite interviews at critical political moments Civic Parties in Divided Societies is the culmination of over a decade s research on Northern Ireland Bosnia Herzegovina and beyond How do societies move on from conflict not just to the cessation of violence but towards a fuller civic democracy And how do they do so when institutions have been put in place to manage the conflict by recognizing ethnonational identity Civic Parties in Divided Societies looks at how global political trends might shape the future of civic politics in societies rife with cleavages

Ethnic Domination in Deeply Divided Places Guido Panzano, 2022-02-15 This volume examines the concept of ethnic domination and its manifestations in Israel within the Green Line and Estonia Ethnic domination is a method of managing ethnic differences in multiethnic contexts through asymmetrical power relations in accordance with an ethnonationalist ideology whereby a group is subordinated to another holding the power albeit not intent to directly eliminate the subaltern The volume compares the predicament of Israeli Palestinian citizens and Estonian Russian speakers in different dimensions state citizenship government parliament parties Also the analysis explains the divergent trajectories of the cases the tightening of the condition of Israeli Palestinian citizens and the democratization of ethnic politics in Estonia

Mobilization and Conflict in Multiethnic States Manuel Vogt, 2019-08-30 Why are some multiethnic countries more prone to civil violence than others This book examines the occurrence and forms of conflict in multiethnic states It presents a theory that explains not only why ethnic groups rebel but also how they rebel It shows that in extremely unequal societies conflict typically occurs in non violent forms because marginalized groups lack both the resources and the opportunities for

violent revolt In contrast in more equal but segmented multiethnic societies violent conflict is more likely The book traces the origins of these different types of multiethnic states to distinct experiences of colonial rule Settler colonialism produced persistent stratification and far reaching cultural and economic integration of the conquered groups as for example in Guatemala the United States or Bolivia By contrast in decolonized states such as Iraq Pakistan or Sri Lanka in which independence led to indigenous self rule the colonizers divide and rule policies resulted in deeply segmented post colonial societies Combining statistical analyses with case studies based on original field research in four different countries in Sub Saharan Africa and Latin America Vogt analyzes why and how colonial legacies have led to peaceful or violent ethnic movements

Multilingual Democracy Nenad Stojanović, 2021-06-29 Most experts on divided societies and institutional design broadly agree that it is more difficult to establish and maintain a stable functioning democracy in a country with multiple languages and linguistically fragmented public spheres than in more homogeneous countries Multilingual countries such as Canada and Belgium have been experiencing considerable difficulties in past decades see the almost successful 1995 referendum on sovereignty in Quebec or the institutional deadlock and the rise of Flemish nationalism in Belgium since the 1970s The prospects for the EU to become a viable democracy are even more haunted by multilingualism considering that it has 24 official languages and no lingua franca Switzerland however is also a multilingual country without a lingua franca fragmented into 22 mono lingual and three multilingual cantons as well as into four distinct public spheres German French Italian Romansh And yet it is widely seen as one of the most stable and successful democracies Conventional wisdom in political science literature suggests that consociational political institutions account for the success of Swiss multilingual democracy This book offers a different institutional explanation The author argues that in mainstream literature important Swiss institutions in particular direct democracy Parliament and the federal executive have largely been misinterpreted they have been labelled as consociational whereas they are rather a product of centripetalism an approach to institutional design in which political incentives are directed toward intergroup compromise because of the need to appeal to voters across group lines in order to form majorities This approach to achieving long term democratic stability stands in sharp contrast to consociationalism

Power-Sharing Allison McCulloch, John McGarry, 2017-04-21 Power sharing is an important political strategy for managing protracted conflicts and it can also facilitate the democratic accommodation of difference Despite these benefits it has been much criticised with claims that it is unable to produce peace and stability is ineffective and inefficient and obstructs other peacebuilding values including gender equality This edited collection aims to enhance our understanding of the utility of power sharing in deeply divided places by subjecting power sharing theory and practice to empirical and normative analysis and critique Its overarching questions are Do power sharing arrangements enhance stability peace and cooperation in divided societies Do they do so in ways that promote effective governance Do they do so in ways that promote justice fairness and democracy Utilising a broad range of global empirical case studies it provides a space

for dialogue between leading and emerging scholars on the normative questions surrounding power sharing Distinctively it asks proponents of power sharing to think critically about its weaknesses This text will be of interest to students scholars and practitioners of power sharing ethnic politics democracy and democratization peacebuilding comparative constitutional design and more broadly Comparative Politics International Relations and Constitutional and Comparative Law

Institutional Reforms and Peacebuilding Nadine Ansorg,Sabine Kurtenbach,2016-09-13 This book deals with the question how institutional reform can contribute to peacebuilding in post war and divided societies In the context of armed conflict and widespread violence two important questions shape political agendas inside and outside the affected societies How can we stop the violence And how can we prevent its recurrence Comprehensive negotiated war terminations and peace accords recommend a set of mechanisms to bring an end to war and establish peace including institutional reforms that promote democratization and state building Although the role of institutions is widely recognized their specific effects are highly contested in research as well as in practice This book highlights the necessity to include path dependency pre conflict institutions and societal divisions to understand the patterns of institutional change in post war societies and the ongoing risk of civil war recurrence It focuses on the general question of how institutional reform contributes to the establishment of peace in post war societies This book comprises three separate but interrelated parts on the relation between institutions and societal divisions on institutional reform and on security sector reform The chapters contribute to the understanding of the relationship between societal cleavages pre conflict institutions path dependency and institutional reform This book will be of much interest to students of peacebuilding conflict resolution development studies security studies and IR

Distributive Politics in Malaysia Hidekuni Washida,2018-10-11 The election on 9 May 2018 ended six decades of rule by the ruling coalition in Malaysia Barisan Nasional or BN formerly the Alliance Despite this result the BN s longevity and resilience to competition is remarkable This book explores the mechanisms behind the emergence endurance fight for survival and decline of the party s dominance Using a systematic analysis of key resources budgets posts and seats Washida challenges the conventional argument that a punitive threat to exclude opposition supporters from distributive benefits sustained the loyalty of the masses as well as the elites He also calls into question whether the mere existence of party organization in and of itself enables leaders to credibly commit to power sharing Instead he posits a theory of mobilization agency in which a party leader needs to design an effective incentive mechanism In addition he explains how the BN had manufactured legislative dominance by tactical gerrymandering and malapportionment The insights drawn from the Malaysian case can help deepen our understanding of the rise and fall of authoritarian parties and distributive politics in general Chapters 1 and 7 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
