Democratizing Pension Funds Democratizing Pension Funds:

Democratizing Pension Funds Ronald B. Davis, 2009-01-01 This book will spark a debate concerning the need for democracy and accountability in the governance of trillions of dollars of plan members pension plan assets and the legitimacy of the present mostly unaccountable corporate governance decisions made by these plans The author analyzes the reasons for this passivity pointing to conflicts of interest with respect to corporate governance activity in pension plans and also to limitations in corporate securities and pension law He argues that plan members should be given a voice in pension plan governance and the plans made accountable and he outlines the legal reforms necessary Democratizing the Corporation

Isabelle Ferreras, Tom Malleson, Joel Rogers, 2024-03-19 Although contemporary Western societies refer to themselves as democratic the bulk of the population spend much of their lives in workplaces that have more in common with tyranny Gigantic corporations such as Amazon Meta Exxon and Walmart are among the richest and most powerful institutions in the world yet accountable to no one but their shareholders The undemocratic nature of conventional firms generates profound problems across society hurting more than just the workplace and contributing to environmental destruction and spiraling inequality Against this backdrop Isabelle Ferreras proposes a radical but realistic plan to democratize the private firm She suggests that all large firms should be bicamerally governed with a chamber of worker representatives sharing equal governance power with the standard board representing owners In response to this proposal twelve leading experts on corporate behavior from multiple disciplines consider its attractiveness viability and achievability as a real utopian proposal to strengthen democracy in our time Democratizing Finance

Fred Block, Robert Hockett, 2022-02-08 What if our financial system were organized to the benefit of the many rather than simply empowering the few Robert Hockett and Fred Block argue that an entirely different financial system is both desirable and possible They outline concrete steps that could get us there Financial systems move the worlds savings from investment to investment chasing the highest rates of return They run on profit But what if investment went to the enterprises or institutions that provided things that the majority of people would prioritize Democratizing Finance includes six responses that seek to amend elaborate and challenge the arguments developed by Hockett and Block Some of the core arguments put forward by other contributors include calls for the rapid elimination of private financial entities the dilemmas of the politics associated with financial reforms and the fate of parallel proposals advanced in the US in the 1930s Democracy and Democratization

John D Nagle, Alison Mahr, 1999-05-28 This wide ranging overview of the processes of democratization in post Communist Europe places the transitions in East Central Europe within a broad European and global context The authors begin with a introduction to the concept and theories of democracy and then examine the emerging politics of the new democracies to set the post Communist transitions in longer term comparative perspective with earlier and existing processes of democratization in Southern Europe Latin America and East and Southeast Asia Finally the politics of EU accession are introduced to place the transitions within the wider context

of European integration Concluding with a summary of recent critiques of modern democ

Funding Democratization
 Peter J. Burnell, Allan Ware, 2006-12-15 Democracy is a fine political system but an expensive economic venture Political parties and election campaigns cost money Where does the money come from and at what sacrifice Issues connected with political finance are significant but often neglected aspects of the process of democratization Funding Democratization examines how money and politics interact in emerging democracies The contributors investigate the funding of political parties in early North America financial uncertainties of party formation in European countries funding of democratization in new democracies and the influence of funding on contenders for power They also address the nature of political competition in countries that are seeking to embrace often for the first time the rules of democracy They question in what ways politicians can help make democracy affordable The volume compares important democratizing countries such as Russia Brazil South Africa Spain and the regions of East Asia and East Central Europe It also investigates the lessons that emerging democracies can learn from the history of political finance in today's more established democracies Funding Democratization will be of interest to political scientists and specialists in international social and political development Peter Burnell studied economics and politics at the University of Bristol before going on to complete his graduate studies with a dissertation on The Political and Social Thought of Thomas Paine 1737 1809 both at the University of Warwick He is the founding joint editor of the journal Democratization and the accompanying book series Democratization Studies Alan Ware is a professor of politics and a tutorial fellow in politics at Worcester College Oxford University His research interests include U S politics and comparative government

Social Policy Dismantling and De-democratization in Brazil Sonia Fleury, 2023-08-21 This book examines the emergence of authoritarian populist regimes analyzing Brazil as a case study The authors explain how the tactics employed by the Bolsonaro administration to dismantle bureaucracy and public policies especially labour and social policies find expression in the fiscal austerity measures recently inscribed in the Federal Constitution a counter democratic device employed by technical and financial elites to systemically derail the social protection system Through this in depth case study the book presents new theoretical arguments and concepts that can be useful to understand the dynamics of such new regimes and discussing similar cases in other contexts Democratic governments in Brazil driven by social movements and political actors have strengthened social protection through a distinctive institutional architecture that combines the strengthening of public bureaucracies the creation of intergovernmental networks and the democratic instances of social participation and agreement The contributions throughout this volume analyze these transformations in different sectors of public policy such as labour employment pensions food and nutrition security health and social assistance Each contribution discusses the recent trajectory through a political analysis of the main actors and institutions reform processes and policy changes and the results achieved Finally the existing weaknesses in each of these social protection sectors are identified in the context of the literature on policy dismantling revealing the strategies used to take advantage of these political and

institutional weaknesses This book will appeal to students scholars and researchers of political science and public policy interested in a better understanding of de democratization by social policy dismantling **Whither China's Democracy? Democratization in China Since the Tiananmen Incident** Joseph Y. S. CHENG,2011-01-01 This weighty monograph offers a thoughtful assessment of one of globally raising China s most profound political issues democratization since the 1989 Tiananmen Incident Not exactly a looking back retrospective nor a typical commemorative work this book harbors a more forward prospecting approach with 13 substantive chapters yielding informed analysis and insightful interpretations of various key issues The core subjects range from legal foundation of Chinese democracy middle class politics Internet based democratization debates and pro democratic mobilizations civic society activism to the external and international media s inputs democracy and China s ethnic minorities and PRC Vatican interface Published by City University of Hong Kong Press

Crowdfunding and the Democratization of Finance Mark Davis,Bruce Davis,2021-11 Do you know where your money is More importantly do you know what your money is doing Most of us feel confident that we know what money is But few of us feel confident in taking responsibility for what our money does We hand over the power of money to banks and mainstream finance with real often damaging consequences for people and planet A unique collaboration between an academic and a practitioner this book tells the story of money from ancient Athens to the Bitcoin revolution to explain how crowdfunding is the way for people to reclaim the power of their money in pursuit of a fairer and greener society **Citizenship and**

Democratization: Perspectives from Different Gender-Theoretical Approaches Eva Maria Hinterhuber,Jana Günther,2024-01-30 The year 1918 was significant in many ways seeing the end of World War 1 At the same time the impact and transformational effects of this event enabled civil society activists and politically institutionalised actors in European countries to pick up the threads of democratic social movements and parliamentary aspirations and make use of political opportunity structures to obtain citizen rights for larger parts of the population One result of this process albeit with a difference between European states was that more groups in society gained suffrage Amongst those were large sections of the working class and women While the vote was won for some new social groups in European societies others were still excluded After one centennium of struggle for political participation we would like to discuss specific problems of politics of belonging The question concerning the full recognition of citizen rights was and continually is connected to ideas of a specific membership of a nation state a fact that denotes the particular problem of membership and non membership and of inside and outside This Research Topic will take account of this special field of tension of democratisation e g inclusion through exclusion from a perspective of social history political science gender studies and intersectionality approaches This analytical foil shall be used to examine the relationship between state or government action and civil society as well as the reproduction of social and political inequality despite increasing democratisation movements **New Challenges to Democratization** Peter Burnell,Richard Youngs,2009-12-04 This important text explores the widespread contention that new challenges and

obstacles have arisen to democratization assessing the claim that support for democratization around the world is facing a serious challenge Bringing together leading international scholars of democratization including Thomas Carothers Michael McFaul Laurence Whitehead Bassma Kodmani Nancy Bermeo Marina Ottaway Shaun Breslin and Renske Doorenspleet this book examines the issues relating to developments within non democratic states and issues related to the democratic world and its efforts to support the spread of democracy Featuring in depth studies on the limits of US democracy promotion the Middle East Russia China and new democracies the book sheds light on such questions as Is the wave of democratization now in retreat or should we be careful not to exaggerate the importance of recent setbacks Do serious sustainable alternatives to democracy now exist Is international democracy promotion finished New Challenges to Democratization brings together a variety of academics and writers from major think tanks in the United States and Europe and makes the book ideally suited to a wide international readership This book will be of particular interest to students and scholars of democratization comparative politics and international politics
