Della Bride American Mail Order Brides:

Sexual Citizens Brenda Cossman, 2007 This book explores the relationship between sex and belonging in law and popular culture arguing that contemporary citizenship is sexed privatized and self disciplined Former sexual outlaws have challenged their exclusion and are being incorporated into citizenship But as citizenship becomes more sexed it also becomes privatized and self disciplined The author explores these contesting representations of sex and belonging in films television and legal decisions She examines a broad range of subjects from gay men and lesbians pornographers and hip hop artists to women selling vibrators adulterers and single mothers on welfare She observes cultural representations ranging from Queer Eye for the Straight Guy to Dr Phil Sex in the City to Desperate Housewives She reviews appellate court cases on sodomy and same sex marriage national welfare reform and obscenity regulation Finally the author argues that these representations shape the terms of belonging and governance producing good and bad sexual citizens based on the degree to which they abide by the codes of privatized and self disciplined sex

Cross-Border Marriages Nicole Constable, 2010-08-03 Illuminating how international marriages are negotiated arranged and experienced Cross Border Marriages is the first book to chart marital migrations involving women and men of diverse national ethnic and class backgrounds The migrations studied here cross geographical borders of provinces rural urban borders within nation states and international boundaries including those of China Japan South Korea India Vietnam the Philippines the United States and Canada Looking at assumptions about the connection between international marriages and poverty opportunism and women s mobility the book draws attention to ideas about global patterns of inequality that are thought to pressure poor women to emigrate to richer countries while simultaneously suggesting the limitations of such views Breaking from studies that regard the international bride as a victim of circumstance and the mechanisms of international marriage as traffic in commodified women these essays challenge any simple idea of global hypergamy and present a nuanced understanding where a variety of factors not the least of which is desire come into play Indeed most contemporary marriage scapes involve women who relocate in order to marry rarely is it the men But Nicole Constable and the volume contributors demonstrate that contrary to popular belief these brides are not necessarily poor nor do they categorically marry men who are above them on the socioeconomic ladder Although often women may appear to be moving up from a less developed country to a more developed one they do not necessarily move higher on the chain of economic resources Complicating these and other assumptions about international marriages the essays in this volume draw from interviews and rich ethnographic materials to examine women s and men s agency their motivations for marriage and the importance of familial pressures and obligations cultural imaginings fantasies and desires in addition to personal and economic factors Border crossing marriages are significant for what they reveal about the intersection of local and global processes in the everyday lives of women and men whose marital opportunities variably yield both rich possibilities and bitter disappointments

Migration and Marriage Barbara Waldis, Reginald Byron, 2006 In a

world in which migration and the mixing of peoples are increasing while at the same time multicultural ideology has given rise to the reassertion of putative primordial differences between peoples interesting questions are raised about the relationships between political rhetoric and social action groupness and individuality and the public and the private The rate of intermarriage is considered by sociologists the most important statistical test of the strength or weakness of structural divisions within societies What do social anthropologists have to say about heterogamy and homogamy in situations of movement and flux and what does this tell us about processes of boundary definition

Whiteness on the Border Lee Bebout, 2016-12-13 The many lenses of racism through which the white imagination sees Mexicans and Chicanos Historically ideas of whiteness and Americanness have been built on the backs of racialized communities The legacy of anti Mexican stereotypes stretches back to the early nineteenth century when Anglo American settlers first came into regular contact with Mexico and Mexicans The images of the Mexican Other as lawless exotic or non industrious continue to circulate today within US popular and political culture Through keen analysis of music film literature and US politics *Whiteness on the Border* demonstrates how contemporary representations of Mexicans and Chicano as are pushed further to foster the idea of whiteness as Americanness Illustrating how the ideologies stories and images of racial hierarchy align with and support those of fervent US nationalism Lee Bebout maps the relationship between whiteness and American exceptionalism He examines how renderings of the Mexican Other have expressed white fear and formed a besieged solidarity in anti immigrant rhetoric and policies Moreover *Whiteness on the Border* elucidates how seemingly positive representations of Mexico and Chicano as are actually used to reinforce investments in white American goodness and obscure systems of racial inequality *Whiteness on the Border* pushes readers to consider how the racial logic of the past continues to thrive in the present
