Revisiting Gender Inequality Qi Wang, Min Dongchao, 2016-04-08 One of the widely acknowledged consequences of the economic reforms in China over the past four decades has been widened social gender gap and hence increased gender inequalities In recent years there is a rising concern of inequality in China and a mounting intellectual reflection and critique of the growth focused development path China has followed so far This collection can be seen as a part of this critique but the focus is on gender and various forms of inequality pertaining to gender and gender relations The book shows how various gender inequality issues are approached and analysed in the location of China by Chinese gender social science scholars and how studies of gender inequality constitutes an astute critique of the neo liberal capitalist development in China The book brings forth a distinctive gender perspective to the Chinese intellectual and political analysis of social inequality and a Chinese perspective to the bulks of international scholarship on gender inequality in China

The Bloomsbury Handbook of Modern Chinese Literature in Translation Cosima Bruno, Lucas Klein, Chris Song, 2023-10-19 Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective this handbook provides students researchers and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works Translation matters It always has of course but more so when we want to reap the

benefits of intercultural communication In many universities Chinese literature in English translation is taught as if it had been written in English As a result students submit what they read to their own cultural expectations they do not read in translation and do not attend to the protocols of knowing engagements and contestations that bind literature and society to each other The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack Organised in a tripartite structure around considerations of textual social and large scale spatial and historical circumstances its thirty plus essays each deal with a theme of translation studies as emerged from the translation of one or more Chinese literary works In doing so it offers new tools for reading and appreciating modern and contemporary Chinese literature in the global context of its translation offering in depth studies about eminent Chinese authors and their literary masterpieces in translation The first of its kind this book is essential reading for anyone studying or researching Chinese literature in translation

The Great Han Kevin Carrico,2017-08-29 The Great Han is an ethnographic study of the Han Clothing Movement a neotraditionalist and racial nationalist movement that has emerged in China since 2001 Participants come together both online and in person in cities across China to revitalize their utopian vision of the authentic Great Han and corresponding real China through pseudotraditional ethnic dress reinvented Confucian ritual and anti foreign sentiment Analyzing the movement s ideas and practices this book argues that the vision of a pure perfectly ordered ethnically homogeneous and secure society is in fact a fantasy constructed in response to the challenging realities of the present Yet this national imaginary is reproduced precisely through its own perpetual elusiveness The Great Han is a pioneering analysis of Han identity nationalism and social movements in a rapidly changing China

Verse Going Viral Heather Inwood,2014-05-01 Verse Going Viral examines what happens when poetry a central pillar of traditional Chinese culture encounters an era of digital media and unabashed consumerism in the early twenty first century Heather Inwood sets out to unravel a paradox surrounding modern Chinese poetry while poetry as a representation of high culture is widely assumed to be marginalized to the point of death poetry activity flourishes across the country benefiting from China s continued self identity as a nation of poetry shiguo and from the interactive opportunities created by the internet and other

forms of participatory media Through a cultural studies approach that treats poetry as a social rather than a purely textual form Inwood considers how meaning is created and contested both within China's media savvy poetry scenes and by members of the public who treat poetry with a combination of reverence and ridicule As the first book to deal explicitly with the discourses and functioning of scenes within the Chinese cultural context *Verse Going Viral* will be of value to students and scholars of Chinese literature cultural studies and media as well as to general readers interested in China's dynamic cultural scenes
