percent of today's email traffic is spam. In 2004 alone, five trillion spam messages clogged Internet users' inboxes, costing society an estimated 10 billion in filtering software and lost productivity. This expose explores the shadowy world of the people responsible for today's junk email epidemic. Investigative journalist Brian McWilliams delivers a fascinating account of the cat and mouse game played by spam entrepreneurs in search of easy fortunes and anti-spam activists. McWilliams chronicles the activities of several spam kings, including Davis Wolfgang Hawke, a notorious Jewish-born neo-Nazi leader. The book traces this 20-year-old neophyte's rise in the trade, where he became a major player in the lucrative penis pill market, a business that would eventually make him a millionaire and the target of lawsuits from AOL and others. Spam Kings also tells the story of anti-spam cyber vigilantes like Susan Gunn, a computer novice in California whose outrage led her to join a group of anti-spam activists. Her volunteer sleuthing put her on a collision course with Hawke and other spammers who sought revenge on their pursuers. The book sheds light on the technical sleight of hand and sleazy business practices that spammers use: forged headers, open relays, harvesting tools, and bulletproof hosting, and warns of the ever-inventive spammers' development of new types of spam.
