Color Harmonies Paint Watercolors Filled With Light:

Color Harmonies Rose Edin, Dee Jepsen, 2010-06-02 Simple secrets for colors that sing Don't settle for colors that just sit there Inspired by the work of the great Impressionists Color Harmonies shows you how to use analogous colors colors next to each other on the color wheel and their complements to achieve lively glowing effects By keeping palette mixing to a minimum placing pure color notes side by side and applying other simple but powerful color tricks you'll create sparkling passages of color that attract your viewer's eye engage the imagination and make your paintings shine 5 demonstrations illustrate the step by step creation of stunning light filled paintings Includes expert instruction on drawing and composition techniques for adding texture and interest making the most of light and shadow and more Richly illustrated with gorgeous landscape flower and figure paintings Brimming with 30 years worth of instruction by a veteran workshop teacher Color Harmonies offers a strong foundation for artists just starting out in watercolor as well as groundbreaking advice for advanced artists in search of more effective and personal approaches to color and light

Computational Approaches in the Transfer of Aesthetic Values from Paintings to Photographs Xiaoyan Zhang, Martin Constable, Kap Luk Chan, Jinze Yu, Wang Junyan, 2017-07-18 This book examines paintings using a computational and quantitative approach Specifically it compares paintings to photographs addressing the strengths and limitations of both Particular aesthetic practices are examined such as the vista foreground to background organisation and the depth planes These are analysed using a range of computational approaches and clear observations are made New generations of image capture devices such as Google goggles and the light field camera promise a future in which the formal attributes of a photograph are made available for editing to a degree that has hitherto been the exclusive territory of painting In this sense paintings and photographs are converging and it therefore seems an opportune time to study the comparisons between them In this context the book includes cutting edge work examining how some of the aesthetic attributes of a painting can be transferred to a photograph using the latest computational approaches
