Combating Human Trafficking A Multidisciplinary Approach:

Combating Human Trafficking Michael J. Palmiotto, 2014-12-01 A centuries old crime human trafficking occurs not only in undeveloped countries but also in some surprising locations Right here in the United States individuals are recruited transported and held by unlawful means either through deception or under threat of violence Approaching the topic from a law enforcement perspective Combating Human The Politics of Combating Human Trafficking in the United States Nancy E. Marion, Kimberly J. Hufgard, 2025-03-04 This book examines political responses to the problem of human trafficking including proposals actions legislative and executive and statements made by politicians government agencies and civil society organizations to solve or mitigate the crime of human trafficking The objective is not just to recognize the nature and impact of human trafficking but to understand the approaches used or recommended to solve the problem and the motivations behind such strategies The issue of human trafficking has become particularly important given the charged environment regarding border politics The book details the various policy options that have been proposed supported opposed or passed by US politicians over the past five to ten years This includes decisions made by presidents legislators national and state agencies and interest groups Court decisions on human trafficking policies and media coverage of events are also explored This political analysis is designed to help readers understand what motivated the proposals designed to address human trafficking and the impact those policies had or are having This book is ideal as a primary text for college courses in human trafficking and modern slavery or a supplemental text for a range of scholarly courses of study including human rights criminal justice law and political science It is recommended for anyone with an interest in human trafficking and what might be done to stop it **Bridging the Gaps in Our Efforts to Combat Human Trafficking** John Winterdyk, Sheldon Zhang, 2025-06-27 This book brings together a rich international and cross sectional collection of articles that examine the current knowledge on gaps in the research realm or intervention development as they relate to our effort to combat human trafficking modern day slavery The anthology includes chapters from established scholars practitioners and persons with lived experience Modern day slavery or human trafficking has attracted much attention from around the world in the past few decades and engendered significant growth in counter trafficking interventions as well as empirical research on related prevalence estimation and program evaluation However significant gaps remain in our knowledge on how to address the crime Understanding these gaps is essential in informing research policy and general response protocols This anthology represents a rich international collection of contributions both academic and non academic that offer a comprehensive overview of the most up to date gaps in our response protocols The articles also offer recommendations that if acknowledged could help to impact the prevalence of human trafficking at a local and international level This book was originally published as a special issue of the Journal of Human Trafficking **Combating Human Trafficking** Usha Rana, Rupender Singh, 2025-07-15 Despite great strides in recent years human trafficking remains a horrific reality for

countless millions of people around the world This new book provides an exhaustive examination of the complex issue of human trafficking while offering a comprehensive blueprint for its eradication This book delves deep into the intricacies of human trafficking dissecting the factors that sustain its existence It assesses existing anti trafficking initiatives and in response introduces a novel approach rooted in a sociotechnical framework This framework models a multidisciplinary strategy that combines both social and technological interventions Recognizing human trafficking s multifaceted origins that encompass social economic and political dimensions this framework underscores the necessity for a holistic approach that addresses the root causes of trafficking and its associated forms of exploitation The book explores topics such as the applicability of government policies and technologies in human trafficking social media and human trafficking human rights and cyberspace and more Written by esteemed experts in the field of human trafficking who possess extensive experience in both research and the practical implementation of anti trafficking measures the book furnishes a comprehensive and pragmatic guide to combating human trafficking

Caribbean Anti-Trafficking Law and Practice Jason

Haynes,2019-07-11 This monograph investigates the International European and Commonwealth Caribbean approaches to human trafficking from an Analytical Eclectic perspective It presents a compelling empirically based argument that although there is currently a panoply of measures aimed at preventing human trafficking prosecuting offenders and protecting trafficked victims in both Europe and the Commonwealth Caribbean these measures have in practice been fraught with a number of challenges whether of a normative institutional or individual nature The continued existence of these challenges strongly suggests that there exists a disconnect between anti trafficking law and practice which is not peculiar to small island developing States since they also extend to developed States including the United Kingdom Although these challenges are not insurmountable this monograph advances the argument that sustained social economic political and legal commitments are both necessary and desirable and that without such commitments only pyrrhic victories would be won in the fight to eradicate the scourge of the twenty first century Given the importance of the issue of human trafficking and its inescapable impact on victims families communities nations regions and the international community as a whole this monograph will serve as an important resource for policy makers scholars students and practitioners actively working in this increasingly dynamic area of law

Legacies of Slavery and Contemporary Resistance David W. Bulla,Karen E. Bravo,Judith N. Onwubiko,Kremena Dimitrova,2023-06-02 Slavery and the past are interconnected there is a tension between a former time of human subjugation and the time after when that captivity can still be remembered In a sense this volume probes this seeming contradiction the glory of freedom s release and the tension with a past when freedom was denied It also argues that the existence of slavery in modern forms today offers continuing evidence of man s inhumanity to man and the resulting absence of freedom for millions of people

Human Trafficking Bandana Purkayastha,Farhan Navid Yousaf,2018-12-14 The last few decades have seen a huge increase in attention paid to the trafficking of human beings often referred to as modern day slavery International and national policies and protocols have been developed and billions of dollars spent to combat the issue and protect trafficking victims Yet it continues to flourish and human beings in both the Global North and the Global South continue to be degraded to the level of commodities and smuggled across borders for profit Drawing upon feminist and human rights approaches to trafficking this book links the worlds of policy protocols and social structures to the lived experience and conditions of trafficked people Recognizing that trafficking for sex labor and body parts often overlaps in a broader context shaped by poverty violence and shrinking access to rights the authors offer a more thoroughgoing account of

this social problem Only with such an integrated approach can we understand the exploitative conditions that make people vulnerable to trafficking and the progress as well as gaps in initiatives seeking to address it
