

Comprehension Placement Tests

The placement procedure for the **Corrective Reading** Comprehension program is designed so that students take two tests. The first (Test 1) is a screening test that requires written responses and is administered to an entire class or group.

Students who make more than 7 errors on the screening test take a second test (Test 2) that places them in Comprehension A, Comprehension A Fast Cycle, or Comprehension B1. This test is individually administered.

Students who make 7 or fewer errors on the screening test take a second test (Test 3) that places them in Comprehension B1, Comprehension B1 Fast Cycle, or Comprehension C. This test requires written responses and is presented to an entire class or group.

The battery of placement tests is also designed to identify students who perform either too low or too high for the Comprehension programs.

Test 1

The screening test (Test 1) is made up of 16 multiple-choice items. Students are to complete it in no more than 10 minutes.

Preparation

Reproduce one copy of the test for each student. A reproducible copy appears on pages 66–67 of this guide.

Administration

- Make sure all students have a pencil.
- Pass out the test forms, face down.
- Tell students: Turn your paper over and write your name at the top. You will circle the correct answer for each item. Begin now.
- Do not provide help either for decoding the items or identifying the answers.
- At the end of the 10-minute period, collect the test forms.

Scoring

The Answer Key below shows the correct answers. Count one error for each item that is incorrect. Note that for items 2 and 4, students are to circle four answers. If they don't circle all four correct answers, the item is scored as one error.

Enter the total number of errors in the score blank at the beginning of the test form. Then determine which placement test to administer to each student. Students who make more than 7 errors take Test 2. Students who make 7 or fewer errors take Test 3.

devoted to cautions about implementing DI This section reinforces the notion that the physical possession of the DI curricula does not by itself lead to student success Those who adopt DI need to ensure that it is implemented with fidelity for the benefit of their students who are reliant on them to provide them with the means to achieve their academic potential so they may lead healthy productive lives Instructional Practices for Students with Behavioral Disorders J.
