Downing, Annie Rialland, 2016-11-07 This volume brings together two under investigated areas of intonation typology While tone languages make up to 70 percent of the world s languages only few have been explored for intonation And even though one third of the world s languages are spoken in Africa and most sub Saharan languages are tone languages recent collections on tone and intonation typology have almost entirely ignored African languages This book aims to fill this gap **Zambia's Youths and the 2021 General Election** Emmanuel Matambo, 2025-02-15 In Zambia s Youths and the 2021 General Election Rescuing Democracy through Activism and Social Media Emmanuel Matambo examines democracy in

Zambia and shows how Zambia's youth voters became the central focus during the 2021 election Matambo analyzes the importance of social media leading up to the election as well as the role of music youth protests and the youths influence on registered voters that allowed for the end of the Patriotic Front's PF decade in power Through interviews and qualitative data he highlights the outspokenness and activism of the youth and how they went above and beyond to ensure that the United Party for National Development UPND won the election Further this book argues that the large number of votes for the UPND during the election was not due to enthusiastic support from the voters but rather was a rejection of the PF and was support for the party that had the most chance of ousting the PF Matambo provides a detailed discussion of Zambia's 2021 election and reflects on the power of the youth vote
