Gardeners' Chronicle and Agricultural Gazette, 1869 *Religious Reading in the Lutheran North* Charlotte Appel, Morten Fink-Jensen, 2011-01-18 Religious Reading in the Lutheran North opens up the doors to a part of early modern European history that has often been overlooked In the Nordic countries an abundance of religious literature in the vernacular was produced in the centuries following the Reformation and reading was almost exclusively taught to children in a Lutheran Protestant setting Literacy rates were high and by the mid eighteenth century around ninety per cent of both men and women could read The eight contributions to the present book investigate different aspects of religious reading in Denmark Norway Sweden and Greenland looking at the publication and dissemination strategies of authors and clergymen as well as reading habits and interpretations among Scandinavian readers Ethical Materialities in Art and Moving Images Silke Panse, 2024-12-26 Starting from the premise that after modernism and postmodernism in the Anthropocene an artwork cannot rest upon its separation from the planet this volume develops new ethical practice and thought with respect to art philosophy and moving images Practitioners and theorists examine how the relations between the ethical and the material figure in a context in which a dearth of ethical practice and thought has caused the materialities of the Anthropocene and the climate catastrophe Ethics are generally regarded as constituted through immaterial relations guided by moral imperatives By contrast this volume argues that the singular ethicalities that are manifested in a work cannot be captured by abstract ethics The explorations of the ethical here are not prescriptive but creative Through artistic and philosophical thought and practice the contributions move beyond the division between an active practice of ethics and a contemplative theory of

aesthetics They ask what ethicalities and materialities are at play in the relations between the artist the art their worlds and the planet after new materialism and posthumanism Rather than transcending the ethical through the material or the material through the ethical the contributions articulate the singular relations between them and consider the inter and intra active ethical and material relations of art and images in biodiverse environments They suggest that to bring out the ethical dimensions of the material and the material dimension of the ethical without identifying one with the other is a responsibility of art and images

Animal Biotechnology Ashish S. Verma, Anchal Singh, 2013-11-04 Animal Biotechnology introduces applications of animal biotechnology and implications for human health and welfare It begins with an introduction to animal cell cultures and genome sequencing analysis and provides readers with a review of available cell and molecular tools Topics here include the use of transgenic animal models tissue engineering nanobiotechnology and proteomics The book then delivers in depth examples of applications in human health and prospects for the future including cytogenetics and molecular genetics xenografts and treatment of HIV and cancers All this is complemented by a discussion of the ethical and safety considerations in the field Animal biotechnology is a broad field encompassing the polarities of fundamental and applied research including molecular modeling gene manipulation development of diagnostics and vaccines and manipulation of tissue Given the tools that are currently available and the translational potential for these studies animal biotechnology has become one of the most essential subjects for those studying life sciences Highlights the latest biomedical applications of genetically modified and cloned animals with a focus on cancer and infectious diseases Provides firsthand accounts of the use of biotechnology tools including molecular markers stem cells and tissue engineering
