De Meester Van De Lartes:

Painting & the Market in Early Modern Antwerp Elizabeth A. Honig, 1998-01-01 This study of the ways in which Flemish painting between 1550 and 1650 reflected the burgeoning capitalism of Antwerp focuses not only on the market scene paintings but also on the interaction between painters and markets as it was influenced by merchants governments and consumers

The Unfree Market and the Law Koen Byttebier, 2018-09-24 This book examines how legal systems and mechanisms give shape to the capitalist economic system In this regard it focuses on the most important of these systems such as monetary and financial law company law fiscality contract and labour law Further the book provides a thorough analysis of the underlying ethical values of said legal systems and mechanisms It also gives an overview of several potentially devastating related effects such as poverty the increasing polarisation between rich and poor climate change and mounting debts at both the public and private level The book concludes by presenting proposals for change Given its critical analysis of legal systems and mechanisms in connection with the value choices dictated by economic ideologies the book will be of particular interest to legal and economic academics researchers and students but also to policymakers and more generally to anyone with a genuine concern for how the socio economic order will evolve

Dynasty and Piety Luc Duerloo, 2016-04-29 The youngest son of Emperor Maximilian II and nephew of Philip II of Spain Archduke Albert 1559 1621 was originally destined for the church However dynastic imperatives decided otherwise and in 1598 upon his marriage to Philip's daughter the Infanta Isabella Clara Eugenia he found himself ruler of the Habsburg Netherlands one of the most dynamic yet politically unstable territories in early modern Europe Through an investigation of Albert's reign this book offers a new and fuller understanding of international events of the time and the Habsburg role in them Drawing on a wide range of archival and visual material the resulting study of Habsburg political culture demonstrates the large degree of autonomy enjoyed by the archducal regime which allowed Albert and his entourage to exert a decisive influence on several crucial events preparing the ground for the Anglo Spanish peace of 1604 by the immediate recognition of King James clearing the way for the Twelve Years Truce by conditionally accepting the independence of the United Provinces reasserting Habsburg influence in the Rhineland by the armed intervention of 1614 and devising the terms of the Oath Treaty of 1617 In doing so the book shows how they sought to

initiate a realistic policy of consolidation benefiting the Spanish Monarchy and the House of Habsburg Whilst previous work on the subject has tended to concentrate on either the relationship between Spain and the Netherlands or between Spain and the Empire this book offers a far deeper and much more nuanced insight in how the House of Habsburg functioned as a dynasty during these critical years of increasing religious tensions Based on extensive research in the archives left by the archducal regime and its diplomatic partners or rivals it bridges the gap between the reigns of Philip II and Philip IV and puts research into the period onto a fascinating new basis *The Semantic Web. Belgium and the Holy See from Gregory XVI to Pius IX (1831-1859) Vincent Viaene, 2001 The Roman orientation was the keystone of the religious revolution of the Catholic revival New or renewed congregations priests close to the people militant laymen gave a decidedly social activist turn to the faith At this crossroad of religion modernity the papacy could all the more make its weight felt as the Belgian Constitution granted the clergy a unique liberty in relations with Rome Over time the Vatican would exert a powerful impact on the shape of modern politics in Belgium The special relationship between Belgium Rome was no one way traffic From a somewhat curious ecclesiastical court hopelessly entangled in the old spider web of the Papal States the papacy became the institution we know today the leader of a modern Catholic opinion Belgium played a role of major importance in this transformation The central theme of the book can therefore be defined as a process of mutual integration if not acculturation across the Alps *Tennessee Williams and Europe* John S. sources in his theatre the late Williams and the promise European theatre afforded him with his experimental plays and the posthumous Williams and his influence on late twentieth and early twenty first century European theatre and cinema To some extent both a product of and a muse for Europe over the last half century Williams is well positioned to become America s most famous playwright on the international stage This book hopes to mark the beginnings of Williams rich critical tradition within that global context **The Athenaeum** ,1891 **Catalogue of the Dutch and Flemish Drawings in the Rijksmuseum: Netherlandish drawings circa 1600** Rijksmuseum (Netherlands),1987
