De Nederlandse Mariniers:

Handbook of Marine Mammals Sam H. Ridgway, Richard John Harrison, 1998-09-23 Twenty three separate papers each describing a single species *The Dutch Navy of the Seventeenth and Eighteenth Centuries* Jaap R. Bruijn, 2017-10-18 This book is a reprint of Jaap R Bruijn s 1993 book *The Dutch Navy* which offers an English language overview of the history of the Dutch Navy in the seventeenth and eighteenth centuries It is divided into three chronological periods the old new and second rate navy Rather than presenting a history of naval conflict this volume approaches Dutch naval history from the following four angles operations administration officer duties and sailor duties It consists of a series foreword a new introduction detailing recent developments in naval historiography the original introduction providing a history of Dutch maritime history from the middle ages to the beginning of the seventeenth century a conclusion and a bibliography and index It explores the astounding amount of naval power belonging to such a sparsely populated nation plus the rapid rates of success and decline It confirms that the Dutch navy with its logic innovation and missteps alike provides an excellent case study of both the development of European bureaucracy and armed forces in the Early Modern period *De garoeda en de ooievaar* Herman Burgers, 2010-01-01 Deze nieuwe beschrijving van het wordingsproces van de Indonesische staat gaat ervan uit dat die staat zijn ontstaan niet alleen dankt aan de nationale vrijheidsbeweging maar ook aan de Nederlandse heerschappij waar die beweging zich tegen keerde Daarom gaat het boek uitdrukkelijk in op voornaamste ontwikkelingen van het door Nederland in de kolonie Nederlands Indi gevoerde beleid Hier sluiten hoofdstukken op aan over de Indonesische nationale beweging en over de Japanse bezetting van de kolonie in 1942 1945 Die bezetting maakte de weg vrij voor de proclamatie van de Indonesische onafhankelijkheid en de stichting van de Republiek Indonesi in augustus 1945 Het daarop ontbrande conflict tussen deze Republiek en Nederland kwam in 1949 tot een onvolledige oplossing waarna het geschil over West Irian nog tot een dertien jaar durende nasleep leidde Meer dan de helft van het boek is gewijd aan een kroniek van dit conflict en zijn nasleep Daarbij gaat ook ruime aandacht uit naar denkbeelden en sentimenten die het beleid hebben be nvloed *The Marine Algal Vegetation of St. Martin, St. Eustatius and Saba (Netherlands Antilles)* M. Vroman, 2013-12-11 *Marine Insurance in the Netherlands 1600-1870* Sabine Go, 2009 Marine insurance has been of great importance to the expansion of long distance trade and economic growth in the early modern period in particular for seafaring nations such as the Dutch Republic The Amsterdam market became Europe s leading insurance market and within the Republic other insurance systems also emerged Little is known about the differing institutional frameworks governing these industries and the interaction between the institutions and the actors in the industry This study examines the development of marine insurance in the Netherlands in Amsterdam Rotterdam and the province of Groningen from c 1600 to 1870 from an institutional point of view It examines how the behavior of authorities insurers underwriters and brokers was affected by the formal and informal constraints of the industry and how in turn their conduct has influenced the institutional

framework and induced institutional change Three insurance systems in the Netherlands each with its own distinctive characteristics and the interaction between institutions and actors is examined By examining developments over a period of two and half centuries the path of long term institutional change becomes discernable De Nederlandse Maritieme Cluster: Monitor 2010 Harry Webers, Eli Pernot, Soraya Van Donink, Christian Peeters, 2010-11-14 **De laatste resten tropisch Nederland** Willem Frederik Hermans, 2012-04-17 Een dagboekje en twee met eigen foto's geïllustreerde bijdragen die Hermans naar aanleiding van zijn reis naar Suriname en de Nederlandse Antillen begin 1969 voor het maandblad Avenue schreef vormden de basis voor dit boek Shipbuilding & Marine Engineering International, 1902 **Postcolonial Memory in the Netherlands** Gerlof Engelenhoven, 2025-10-01 This book is about postcolonial memory in the Netherlands This term refers to conflicts in contemporary society about how the colonial past should be remembered The question is often who has the right or ability to tell their stories and who do not In other words who has a voice and who is silenced As such these conflicts represent a wider tendency in cultural theory and activism to use voice as a metaphor for empowerment and silence as voice's negative counterpart signifying powerlessness And yet there are voices that do not liberate us from but rather subject us to power Meanwhile silence can be powerful it can protect disrupt and reconfigure Throughout this book it will become clear how voice and silence function not as each other's opposites but as each other's continuation and that postcolonial memory is articulated through the interplay of meaningful voices and meaningful silences **Marine and Brackish Bryozoans from the Southern Bight of the North Sea** Hans De Blauwe, 2025-09-11 In 2009 Hans published a Dutch identification guide for marine and brackish water Bryozoans moss animals of the Southern Bight of the North Sea illustrated with drawings scanning electron and light microscope images It is a reliable reference for professional bryozoologists and keen amateur naturalists studying northern European bryozoans This virtually complete inventory of a group of animals that have been the object of very few studies so far but that encompasses a surprisingly large variety of species The sandy substrate that is predominant in this area is usually poor in moss animal species The fact that such a large number of species are described in this work is the result of an in depth study of recent observations tidemark material specimens collected on the hard substrate of breakwaters and port structures shells and stones near sandbanks and the review of historical collections As many as 179 species were discussed in the Dutch book the present English update treats 201 species describing 9 species as new to science The area bounded to the south by Cap Gris Nez Northern France covers the Belgian and Dutch coast and is now extended to the German North Sea coast This update includes more native and non indigenous species new distribution data new taxonomic insights additional references and additional or better illustrations What is especially remarkable is that each species has been illustrated using both stereomicroscope showing natural coloration and colony shape and scanning electron microscope showing small details of zooidal morphology Thanks to the different identification keys in the book and a 20-30x magnifying glass it is possible to recognize most of the moss animals in

the study area We hope that this work will contribute to a better understanding of this colony forming undervalued group of animals
