Jaap Grave, Rick Honings, Bettina Noak

De Mens Is De Mens Een Zorg Opstellen 1971 1981:

De mens Is de mens een Zorg Abram de Swaan, 2009-11-16 Beschouwingen van een politicoloog tevens socioloog en psychoanalytisch psychotherapeut over de samenhang tussen maatschappelijke ontwikkelingen en veranderingen in individuele ervaringswerelden *Alle Scholen* Herman Hertzberger, Abram de Swaan, 2009 Schools crops up often in Hertzberger's prodigious oeuvre They are his favourite buildings he says Hertzberger designs schools that are to function like cities Schools and cities he contends can be read in many ways and are challenging inspirational and inviting School is where you can withdraw and adopt a position with respect to others where you learn to take a place in society Besides a presentation of Hertzberger's thirty plus built schools and a number of unbuilt ones the sociologist Abram de Swaan addresses Hertzberger's work in an essay Aided by examples he examines how school architecture and the way school buildings are organized impacts the social development of children De Swaan pays tribute to Hertzberger as a pre eminently sociological architect The Psychological and Medical Effects of Concentration Camps and Related Persecutions on Survivors Leo Eitinger, 2011-11-01 Research into various aspects of the Holocaust has escalated in recent years just as the ranks of survivor subjects are rapidly diminishing All documents contributing in any way to the knowledge of psychological and medical consequences have been included in this bibliography Materials are drawn from psychological psychiatric and social work literature and from personal accounts In addition to printed books and articles references are made to manuscripts which are housed at one of the three centres where major libraries of this kind exist The bibliography contains titles in English French Polish Dutch and German as well as a number of other languages The major topics are 1 Direct observations of and direct reactions to the concentration camp during imprisonment and immediately after liberation 2 Compensation and rehabilitation 3 Physical and psychological results 4 Children as survivors 5 The second generation

Religion as a Profession Hans Schilderman, 2005-09-01 This volume offers a conceptual and empirical study of the religious profession It takes as its point of departure professionalisation theory that is discussed and applied to a profession in mainstream religion in this case Dutch Catholic ministry The book entails a well documented empirical study of attitudes of clergy and lay personnel in the Dutch Roman Catholic Church regarding the pastoral profession Their attitudes towards church authority apostolicity sacramental efficacy accession to the office and spiritual role are described extensively The research clarifies the extent to which these religious attitudes act as a positive or negative motif to engage in policies that are aimed at a professional development of the occupation The book offers an excellent insight into basic characteristics of a religious profession *Changes at the Other End of the Chain* C. A. A. Butijn, 2002 **Medical and Psychological Effects of Concentration Camps on Holocaust Survivors** Robert Krell, 2019-01-22 This unique research bibliography is offered in honor of Leo Eitinger of Oslo Norway Dr Eitinger fled to Norway in 1939 at the start of the World War II He was caught and deported to Auschwitz where among others he operated on Elie Wiesel who has written the foreword to this volume After the

war Eitinger became a pioneering researcher on a subject from which many shied away His contributions to understanding of the experience of massive psychological trauma have inspired others to do similar work His many books and papers are listed in this special volume of the acclaimed bibliographic series edited by Israel W Charny of The Institute on the Holocaust and Genocide in Jerusalem In order to acquaint users of this bibliography with the topic two introductory articles are offered The first is titled *Survivors and Their Families* and deals with the impact of the Holocaust on individuals The second *Psychiatry and the Holocaust* examines the general impact of the Holocaust on the field of psychiatry Robert Krell writes that in general the psychiatric literature has reflected critically on the survivor due to preconceived notions held by many mental health professionals For many years the exploration of victims psychopathology obscured the remarkable adaptation made by some survivors The problems experienced by survivors and possible approaches to treatment were entirely absent from mainstream psychiatric textbooks such as the *Comprehensive Textbook of Psychiatry* throughout the 1960s and 1970s Fifty years of observations about survivors of the concentration camps and other survivors of the Holocaust in hiding as partisans in slave labor camps has provided a new body of medical and psychiatric literature This comprehensive bibliography contains a plethora of references to significant pieces of literature regarding the Holocaust and its effects on survivors It will be of inestimable value to physicians psychiatrists psychologists and social workers along with historians sociologists and Holocaust studies specialists

Servants of the Kingdom David Bos, 2010 Minister of the Word shepherd and teacher the titles of Dutch pastors exude authority and prestige In the course of the nineteenth century however their social position was slowly undermined by the separation of church and state the emancipation of Catholics and dissenters and the rise of all sorts of secular shepherds and teachers This work of historical sociology analyzes the development of the profession of pastor in the Netherlands Reformed Church focusing on pastors changing relationships with the state the universities other professions and their own congregants It paints a surprising lively and often humorous picture of nineteenth century ecclesiastical and religious life and of the many areas of Dutch society and culture where pastors made their mark in particular the literary world

Illness and Literature in the Low Countries Jaap Grave, Rick Honings, Bettina Noak, 2015-12-09 From as early as classical antiquity there has been an interplay between literature and medicine The first book of Homer's *Iliad* recounts the plague that swept the camp of the Achaeans While this instance concerns a full length book it is the aphorism that is of greater importance as a literary technique for the dissemination of medical knowledge from the *Corpus Hippocraticum* of antiquity until the *Aphorismi de cognoscendis et curandis morbis* 1715 by Herman Boerhaave In addition the subject of illness and its impact on mankind was explored by great numbers of poetic scholars and scholarly poets This collection offers fourteen articles which all highlight the relation between disease and literature It entails a first ever overview of Dutch language research in this field whereby the literary and cultural functions of medical knowledge and the poetics of medical and literary writing are in the focus

Moral Sentiments in Modern Society Gabriël Brink, 2025-10-01 Since the time of Adam Smith scholars have tried to understand the role moral sentiments play in modern life an issue that became especially urgent during and after the 2008 global financial crisis Previous explanations have ranged from the idea that modern society is built on moral values to the notion that modernisation results in moral decay The essays in this interdisciplinary volume use the example of Dutch society and a wealth of empirical data to propose a novel theory about the ambivalent relation between contemporary life and human nature In the process the contributors argue for the need to reject simplistic explanations and reinvent civil society
