De Filosofische Grondslagen Van Het Marxisme Marx Houding Tegenover Hegel Oa:

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does

Marxism and Philosophy Karl Korsch, 1970

The Communist Ideal in Hegel and Marx David MacGregor, 2015-04-24 One reader has called this study first published in 1984 easily the best book on the relation of Hegel to Marx With spirited argument MacGregor demonstrates that Hegelian logic suited Marx's purpose so well because it already contained the unique elements that later appeared in Marx's social theory including the notions of surplus value and the transition to communism The most exciting thing about the book is the clear demonstration that the mature Marx gets ever closer to Hegel and is increasingly indebted to him In short the author gives us a new Hegel and a new Marx In a manner both original and penetrating MacGregor shows that dialectical logic is pre eminently social logic a reconstruction in thought of social relationships and social structure Central to the work is the examination of the Philosophy of Right in which Hegel delineated a theory of modern capitalist society MacGregor provides a compelling analysis of Hegel's importance for Lenin and a strong caveat that contemporary Marxism ignores Hegel to its own peril MacGregor establishes that Hegel's absolute idealism is founded on a theory of the dialectics of labour similar to Marx's historical materialism Another significant discovery elucidates Hegel's concept of poverty as the missing link which joins

Marx's formulation to classical liberal theory **Marxism and Hegel** Lucio Colletti, 1979 Marx' Method, Epistemology, and Humanism P.J. Kain, 1986-04-30 In recent writings on Marx one finds an increasing interest in his humanism. This phenomenon began in the third decade of our century as a reaction against the mechanistic and stereotyped image of Marx characteristic of the Second International and of Stalinism. Lukacs in *History and Class Consciousness* 1923 was one of the first to discover this new Marx and he did so even before the most important 2 of the humanistic writings of the young Marx had been discovered. With the publication of these writings in 1932 namely the *Economic* 3 and *Philosophic Manuscripts* of 1844 this new outlook was given enormous impetus. In these Manuscripts Marx makes the human being the creator and the goal of all reality. The objectification of the human essence through labor transforms both society and nature. Labor transforms its world into a place which mirrors, unfolds and confirms the human being. This humanism is a complex and many faceted issue. In this book we will be concerned only with a certain part of it i.e. the epistemology, method and doctrine of nature which it involves. Other aspects of it Marx's concept of alienation and his theory of labor and the state have 4 been dealt with elsewhere Marx's 'Grundrisse' and Hegel's 'Logic' (RLE Marxism) Hiroshi Uchida, 2015-04-17 Marx's *Grundrisse* is acknowledged as the vital link between Marx's early and late work. It is also a crucial text in elucidating Marx's debt to the idealist philosopher G.W.F. Hegel. This book first published in 1988 is the first full length study of that relationship in a thorough textual analysis which makes the connections explicit and also the *Grundrisse's* relations to the works of Adam Smith and Aristotle. This book argues that Marx's critique of political economy and his critique of Hegel are double interrelated. Not only did Marx adapt Hegelian logic in order to analyse the economic categories crucial to modern society but it is argued that those logical categories were themselves seen as reflections of the productive processes of contemporary commercial society. Uchida reveals a conceptual structure common to the apparently rarefied world of Hegelian conceptual logic and to the supposedly common sensical world of economic science. Demonstrating this is a considerable achievement and it allows us to consider precisely what is valuable today in Marx's critical commentary on this conceptual structure and on the type of society in which it is manifested. Uchida's subject like Marx's is the force of capital on modern life **Rethinking Marxism** Jolyon Agar, 2014-02-03 First published in 2006 Routledge is an imprint of Taylor Francis an informal company The Logical Influence of Hegel on Marx Rebecca Cooper, 2011-11-03 Hegel's influence on both the content and the terminology of the works of Karl Marx and Frederick Engels has indeed been so profound that a thorough understanding of these works may be said to presuppose an understanding of this relationship. Especially the terminology of the Marxists becomes intelligible only when approached through its Hegelian origin *From Marx to Hegel and Back* Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy. Given the contemporary renaissance of Marx and Marxist theories how should we re-read the Hegel-Marx connection today? What place does Hegel have in contemporary critical thinking? Most schools of Marxism regard Marx's

inversion of Hegel's dialectics as a progressive development leaving behind Hegel's idealism by transforming it into a materialist critique of political economy. Other Marxist approaches argue that the mature Marx completely broke with Hegel. By contrast, this book offers a wide-ranging and innovative understanding of Hegel as an empirically informed theorist of the social, political, and economic world. It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another. With a particular focus on essential concepts like recognition, love, revolution, freedom, and the idea of critique, this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel's philosophy with the power of Marx's social and economic critique of the contemporary world.
