Emerging Local Politics in Indonesia Wawan Sobari, 2023-10-05 This book provides a richer understanding of democratic local politics in Indonesia after the implementation of local direct elections in 2005 Co published with the University of Airlangga Press it confronts the question as to why incumbent political leaders succeed and fail in their bid for re election By focusing on urban and rural districts in East Java one of the most populated regions in Indonesia the work unpacks the general trends of local Indonesian politics drawing from an empirically sound and theoretically well grounded case study The author demonstrates that good policy performance does not guarantee the political survival of the incumbent and reversibly bad policy performance does not necessarily mean losing political power It considers the core political strategies of populism rivalry and tangibility and cautions that rather than helping liberal democracy to grow these strategies support patronage driven democracy Within this system a small number of vital protectors and defenders control patronage and problematically exert influential control over the country's electoral processes Relevant to scholars and students in Indonesian studies and within political science and Asian studies more broadly this book follows a gripping and nuanced narrative that explains the relationship between policy choices informal politics voting behavior and political survival in Indonesia

Democracy and Islam in Indonesia Mirjam

Künkler, Alfred Stepan, 2013-08-27 Indonesia's military government collapsed in 1998 igniting fears that economic religious and political conflicts would complicate any democratic transition Yet in every year since 2006 the world's most populous Muslim country has received high marks from international democracy ranking organizations In this volume political scientists religious scholars legal theorists and anthropologists examine the theory and practice of Indonesia's democratic transition and its ability to serve as a model for other Muslim countries They compare the Indonesian example with similar scenarios in Chile Spain India and Tunisia as well as with the failed transitions of Yugoslavia Egypt and Iran Essays explore the relationship between religion and politics and the ways in which Muslims became supportive of democracy even before change occurred and they describe how innovative policies prevented dissident military groups violent religious activists and secessionists from disrupting Indonesia's democratic evolution The collection concludes with a discussion of Indonesia's emerging legal pluralism and of which of its forms are rights eroding and rights protecting **Historical Dictionary of Indonesia** Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world's most populous Islamic country For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century Declaring its independence from the Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure This third edition of *Historical Dictionary of Indonesia* contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 900 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Indonesia *The Politics of Shari'a Law* Michael Buehler, 2016-09 An original and timely exploration of the continuing Islamization of Indonesian politics despite the electoral decline of Islamist parties Rethinking Power Relations in Indonesia Michaela Haug, Martin Rössler, Anna-Teresa Grumblies, 2016-07-15 Since colonial rule the island of Java served as Indonesia's imagined centre and prime example of development while the Outer Islands were constructed as the state's marginalised periphery Recent processes of democratisation and regional autonomy however have significantly changed the power relations that once produced the marginality of the Outer Islands This book explores processes of political economic and cultural transformations in Indonesia emphasizing their implications for centre periphery relations from the perspective of the archipelago's margins Structured along three central themes the book first provides theoretical contributions to the understanding of marginality in Indonesia The second part focuses on political

transformation processes and their implications for the Outer Islands The third section investigates the dynamics caused by economic changes on Indonesia's periphery Chapters written by experts in the field offer examples from various regions which demonstrate how power relations between centre and periphery are getting challenged contested and reshaped The book fills a gap in the literature by analysing the implications of the recent transformation processes for the construction of marginality on Indonesia's Outer Islands

Party Politics in Southeast Asia Dirk Tomsa,Andreas Ufen,2013 Contributing to the growing discourse on political parties in Asia this book looks at parties in Southeast Asia's most competitive electoral democracies of Indonesia Thailand and the Philippines It highlights the diverse dynamics of party politics in the region and provides new insights into organizational structures mobilizational strategies and the multiple dimensions of linkages between political parties and their voters The book focuses on the prominence of clientelistic practices and strategies both within parties as well as between parties and their voters It demonstrates that clientelism is extremely versatile and can take many forms ranging from traditional personalized relationships between a patron and a client to the modern reincarnations of broker driven network clientelism that is often based on more anonymous relations The book also discusses how contemporary political parties often combine clientelistic practices with more formal patterns of organization and communication thus raising questions about neat analytical dichotomies Straddling the intersection between political science and area studies this book is of interest to students and scholars of contemporary Southeast Asian politics and political scientists and Asian Studies specialists with a broader research interest in comparative democratization studies

Regional Dynamics in a Decentralized Indonesia Hal Hill,2014-05-20 Indonesia is the world's largest archipelagic state In 2001 it embarked on a big bang decentralization involving a major transfer of administrative political and financial authority to its districts now numbering more than 500

Together with the rapid transition from authoritarian to democratic rule in the late 1990s this initiative has transformed the country's political social and business life While national government is the major area of contestation power has shifted irreversibly away from the centre How this significantly increased regional autonomy works will have a crucial bearing on the future of the Indonesian nation state This volume features contributions by over 40 writers with deep expertise on Indonesia The book provides a timely comprehensive and analytical assessment of the country's regional development dynamics in the post decentralization environment It explores historical political and development patterns at the regional level the relationship between decentralization and governance local level perspectives migration cities and connectivity and the challenges confronting the peripheral regions of Aceh and Papua
