served Tom several times before said I've been a runner all my life I had plantar fasciitis once It was a few years ago Running is in my blood I guess I was having a great season when I suddenly developed a horrible heel pain It was worst on getting out of bed in the morning and when I ran It really messed up my run I'd end up hobbling within a few miles The sports doc said I had plantar fasciitis I tried lots of treatments but nothing worked I'd already signed up for a 100 mile run and was pretty excited about it but the foot pain was crippling me I thought to hell with it I'll do the run anyway So I did Yes I was nervous I set off and had a horrible time for the first 60 miles My heel hurt but I pushed through it Long distance running involves plenty of pain either way Then surprise surprise Around mile 60 my heel pain vanished I just noticed that it wasn't there anymore That was several years ago and I haven't had heel pain since Based on this story you might be tempted to run or walk through your own pain Not so fast Read on ANNE'S STORY It was the first day of a triathlon training camp and about fifteen athletes including Tom were sitting in a circle Dave the head coach said I'd like each of you to tell your most severe training injury story Let's see what we can learn I learned that you should hang onto the bike when you're hit by an SUV Dave was in a wheelchair recovering from a serious bike wreck a constant hazard when training on the road Anne a tall blond about 25 slim very fit and shy was clearly an excellent athlete I was training for an important race when I developed a horrible heel pain in both feet Anne said It was really bad in the morning but it never went away all day A sports doc said I had plantar fasciitis and recommended that I stop running for a while He said there was a risk of seriously injuring my plantar fascia But I continued my training anyway You know how it is I was doing a steady 10 mile out and back in our neighborhood when both plantar fascias ripped in half I collapsed in unimaginable pain and my neighbor found me and carted me off to the hospital The same sports doc came to see me but he didn't say I told you so He's a good doctor and I trust him I ended up having surgery to repair my feet With intense physical therapy it took me over a year to walk normally and another year to start running I'm finally back but I'll never do that again Tom thought It can progress to involve the plantar fascia but only in extreme cases Then he wondered How did Jeff fix his heel pain by running and Anne tore up her feet doing essentially the same thing Running through the pain This doesn't sound like inflammation
