biography personal experience and close reading of his late works Bourgeault illuminates Keating's remarkable spiritual development from the late 1980s until his death in 2018 She explores Keating's increasing engagement with nondual spiritual practice His contributions to interspiritual dialogue The evolution of his early teaching on the movement from false self to true self to that from true self to no self His final dark night of the spirit and passage through death New evidence that he never left Christianity but carried it with him to new places These profound final stages of Keating's spiritual journey demonstrate how readers might find their own way as modern mystics fundamentally at home and at peace in the universe
