and Facts in Constitutional Adjudication Anne Carter, 2022-01-27 This book considers the relationship between proportionality and facts in constitutional adjudication Analysing where facts arise within each of the three stages of the structured proportionality test suitability necessity and balancing it considers the nature of these facts vis vis the facts that arise in the course of ordinary litigation The book s central focus is on how proportionality has been applied by courts in

practice and it draws on the comparative experience of four jurisdictions across a range of legal systems The central case study of the book is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests The rich proportionality jurisprudence from Germany Canada and South Africa is used to contextualise the approach of the High Court of Australia and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages The book has three broad aims First it considers the role of facts within proportionality reasoning Second it offers procedural insights into fact finding in constitutional litigation Third the book's analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely

economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London

[Saving the European Union from its Illiberal Member States](#) András Jakab, Lando Kirchmair, 2025-03-29 In the last decade at least two European Union EU member states have deteriorated from fragile liberal democracies to illiberal regimes This deterioration not only includes key elements of the rule of law but also mechanisms of democratic accountability have eroded While the cause is an unfortunate combination of factors post socialist EU member states are particularly likely to embrace an illiberal cause Saving the European Union from its Illiberal Member States aims to show that inherited cultural patterns from socialism and even earlier in the form of informal practices and narratives are a largely underestimated source of illiberalism Initially the book diagnoses an unfortunate dynamic of mutual poisoning existing vulnerabilities and weaknesses of democracy and the rule of law at the level of EU law are exacerbated by illiberal member states and vice versa The crisis of illiberal regimes is shown to be a symptom of the EU s own constitutional malaise Authors Andr s Jakab and Lando Kirchmair aim to offer antidotes to this mutual affliction highlighting areas of EU law that have been neglected Chapters examine whether an epistemological tool such as the EU Justice Scoreboard could be adapted to identify illiberal elements The authors also argue that the protection of fundamental rights needs to be strengthened through the completion of the European Fundamental Rights Union Finally the book states that the Spitzenkandidaten system needs to be further strengthened and stabilised for the long term not only to ensure the democratic accountability of the Commission but also because this has the potential to bring the Commission s hitherto undecided and hesitant stance closer to that of the European Parliament
