Celtic Modern Martin Stokes, Philip V. Bohlman, 2003-09-15 The study of Celtic culture has been locked within modern nationalist paradigms shaped by contemporary media tourism and labor migration Celtic Modern collects critical essays on the global circulation of Celtic music and the place of music in the construction of Celtic Imaginaries It provides detailed case studies of the global dimensions of Celtic music in Scotland Wales Ireland Brittany and amongst Diasporas in Canada the United States and Australia with specific reference to pipe bands traditional music education in Edinburgh the politics of popular traditional crossover in Ireland and the Australian bush band phenomenon Contributors include performer musicians as well as academic writers Critique necessitates reflexivity and all of the contributors active and in many cases professional musicians as well as writers reflect in their essays on their own contributions to these kind of encounters Thus this resource offers an opportunity to reflect critically on some of the insistent othering that has accompanied much cultural production in and on the Celtic World and that have prohibited serious critical engagement with what are sometimes described as the traditional and folk music of Europe

The New (Ethno)musicologies Henry Stobart, 2008-05-05 Over the past twenty years a range of radical developments has revolutionized musicology leading certain practitioners to describe their discipline as New What has happened to ethnomusicology during this period Have its theories methodologies and values remain rooted in the 1970s and 1980s or have they also transformed What directions might or should it take in the new millennium The New Ethno musicologies seeks to answer these questions by addressing and critically examining key issues in contemporary ethnomusicology Set in two parts the volume explores ethnomusicology's shifting relationship to other disciplines and to its own mythic histories and plots a range of potential developments for its future It attempts to address how ethnomusicology might be viewed by those working both inside and outside the discipline and what its broader contribution and relevance might be within and beyond

the academy Henry Stobart has collected essays from key figures in ethnomusicology and musicology including Caroline Bithell Martin Clayton Fabian Holt Jim Samson and Abigail Wood as well as Europea series editors Martin Stokes and Philip V Bohlman The engaging result presents a range of perspectives reflecting on disciplinary change methodological developments and the broader sphere of music scholarship in a fresh and unique way and will be a key source for students and scholars

The Mediterranean in Music David Cooper, Kevin Dawe, 2005-03-22 Politically and historically the Mediterranean has been a space for critical dialogue for competing and often antagonistic voices and still functions as meeting place for diverse and interdisciplinary approaches Although other academic disciplines have attempted a unified approach to Mediterranean studies until recently Mediterranean music as a singular concept has received relatively little scholarly development This volume is a crucial first step and investigates several musical cultures that have traditionally demonstrated common threads trends and interactions The music of Greece Crete Turkey Albania Corsica Italy Spain Morocco Algeria and Palestine are all considered in this volume as the scholars represented here reveal the musical commonality among otherwise divergent traditions Unnecessary technical jargon is avoided and an interdisciplinary approach embracing ethnology and material culture considerations makes this volume relevant not only to musicologists and anthropologists but likewise to the general reader interested in tourism

Music and Displacement Erik Levi, Florian Scheding, 2010-03-25 The grand narratives of European music history are informed by the dichotomy of placements and displacements Yet musicology has thus far largely ignored the phenomenon of displacement and underestimated its significance for musical landscapes and music history Music and Displacement Diasporas Mobilities and Dislocations in Europe and Beyond constitutes a pioneering volume that aims to fill this gap as it explores the interactions between music and displacement in theoretical and practical terms Contributions by distinguished international scholars address the theme through a wide range of case studies incorporating art popular folk and jazz music and interacting with areas such as gender and post colonial studies critical theory migration and diaspora The book is structured in three stages silence acculturation and theory that move from silence to sound and from displacement to placement The range of subject matter within these sections is deliberately hybrid and mirrors the eclectic nature of displacement itself with case studies exploring Nazi Anti Semitism in musical displacement musical life in the Jewish community of Palestine Mahler Jewishness and Jazz the Irish Diaspora in England and German Exile studies among others Featuring articles from such scholars as Ruth F Davis Sean Campbell Jim Samson Sydney Hutchinson and Europea series co editor Philip V Bohlman the volume exerts an appeal reaching beyond music and musicology to embrace all areas in the humanities concerned with notions of displacement migration and diaspora

Bohlman, 2010-09-13 Two decades after the fall of communism in Eastern Europe and one decade into the twenty-first century European music remains one of the most powerful forces for shaping nationalism Using intensive fieldwork throughout Europe from participation in alpine foot pilgrimages to studies of the grandest music spectacle anywhere in the world the Eurovision Song Contest Philip V Bohlman reveals the ways in which music and nationalism intersect in the shaping of the New Europe **Focus: Music, Nationalism, and the Making of the New Europe** begins with the emergence of the European nation-state in the Middle Ages and extends across long periods during which Europe's

nations used music to compete for land and language and to expand the colonial reach of Europe to the entire world Bohlman contrasts the national and the nationalist in music examining the ways in which their impact on society can be positive and negative beneficial for European cultural policy and dangerous in times when many European borders are more fragile than ever The New Europe of the twenty first century is more varied more complex and more politically volatile than ever and its music resonates fully with these transformations
