with various areas of study **Southern Writers** Joseph M. Flora, Amber Vogel, 2006-06-21 This new edition of Southern Writers assumes its distinguished predecessor's place as the essential reference on literary artists of the American South. Broadly expanded and thoroughly revised, it boasts 604 entries, nearly double the earlier edition's, written by 264 scholars. For every figure, major and minor, from the venerable and canonical to the fresh and innovative, a biographical sketch and chronological list of published works provide comprehensive, concise, up-to-date information. Here, in one convenient source, are the South's novelists and short story writers, poets and dramatists, memoirists and essayists, journalists, scholars, and biographers from the colonial period to the twenty-first century. What constitutes a southern writer is always a matter for debate. Editors Joseph M. Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region in either a personal or literary sense. New to this volume are younger writers who have emerged in the quarter century since the dictionary's original publication, as well as older talents previously unknown or unacknowledged. For almost every writer found in the previous edition, a new biography has been commissioned. Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners, Southern Writers is an indispensable reference book for anyone intrigued by the subject.

The Cambridge History of American Literature: Volume 7, Prose Writing, 1940-1990 Sacvan Bercovitch, Cyrus R. K. Patell, 1994 Volume VII of the Cambridge History of American Literature examines a broad range of American literature of the past half century, revealing complex relations to changes in society. Christopher Bigsby discusses American dramatists from Tennessee Williams to August Wilson, showing how innovations in theatre anticipated a world of emerging countercultures and provided America with an alternative view of contemporary life. Morris Dickstein describes the condition of rebellion in fiction from 1940 to 1970, linking writers as diverse as James Baldwin and John Updike. John Burt examines writers of the American South, describing the tensions between modernization and continued entanglements with the past. Wendy Steiner examines the postmodern fictions since 1970 and shows how the questioning of artistic assumptions has broadened the canon of American literature. Finally, Cyrus Patell highlights the voices of Native American, Asian American, Chicano, gay, and lesbian writers, often marginalized but here discussed within and against a broad set of national traditions.

Collected Stories John Barth, 2015-10-30 When John Barth's *Lost in the Funhouse* appeared in 1968, American fiction was turned on its head. Barth's writing was not a response to the realistic fiction that characterized American literature at the time; it beckoned back to the founders of the novel, Cervantes, Rabelais, and Sterne, echoing their playfulness and reflecting the freedom inherent in the writing of fiction. This collection of Barth's short fiction is a landmark event, bringing all of his previous collections together in one volume for the first time. Its occasion helps readers assess a remarkable lifetime's work and represents an important chapter in the history of American literature. Dalkey Archive will reissue a number of Barth's novels over the next few years, preserving his work for generations to come.

The Central and the Peripheral Jakub Lipski, Joanna Malicka, Paweł Schreiber, 2014-09-26

Representing reality in terms of secure familiar centres and dangerous lesser known peripheries is one of the most elementary human cognitive instincts. However we live in a world where this established division is becoming more and more problematic. One person's periphery can be another's centre and many simple geographies of the world and of the mind clearly separating the known from the unknown have become obsolete. How can one reconcile this complexity with the fact that human thinking cannot escape the centre periphery dichotomy? How is it possible to find one's way in a world in which peripheries become centres and centres turn into peripheries? The chapters of this book try to determine how the problem of centres and peripheries has been dealt with in the domains of literature and culture. The contributors focus on different aspects of the issue from travel writing through attempts at mapping the self to finding central and peripheral territories in narrative itself.

The Play of the Double in Postmodern American Fiction Gordon Slethaug, 1993. In *The Hawkline Monster* Brautigan's minimalist metafictional parody of the double depicts our narcissistic view of reality. In *Double or Nothing* Federman subverts the conventional double exposing its gamelike structures and traditional views of life and text.
