The Trainee Book supports candidates with an accessible ready to use course while the Trainer's Manual provides trainers with all the material they need to deliver CELTA whether in the classroom, online or as a blended course. The second edition reflects changes to the qualification and includes new material on topics including teaching in virtual classrooms, teaching young learners and the use of L1. It includes 40 practical units organised into the five main CELTA topic areas: Learners and teachers and the teaching and learning context, Language analysis and awareness, Language skills (reading, listening, speaking and writing), Planning and resources for different teaching contexts and Developing teaching skills and professionalism. The book also features a range of supplementary materials to support trainees to get the most from their course. *Assessing Language Teachers' Professional Skills and Knowledge* Rosemary Wilson, Monica Poulter, 2015-01-31 The growth in English language teaching worldwide and the related increase in teacher training programmes of all kinds highlight the need for greater accountability in the assessment of teachers. The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process while transparency of assessment procedures is also increasingly demanded by the candidates themselves. This edited volume discusses key issues in assessing language teachers' professional skills and knowledge and

provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre service and in service levels within the framework of the Cambridge English Teaching Qualifications The volume provides discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment examples of specific assessment procedures for both teaching knowledge and practical classroom skills accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students
