to Improve Learning Susan M. Brookhart, 2017-07-21 Grades are imperfect shorthand answers to What did students learn and how well In *How to Use Grading to Improve Learning* best selling author Susan M Brookhart guides educators at all levels in figuring out how to produce grades for single assignments and report cards that accurately communicate students achievement of learning goals Brookhart explores topics that are fundamental to effective grading and learning practices Acknowledging that all students can learn Supporting and motivating student effort and learning Designing and grading appropriate assessments Creating policies for report card grading Implementing learning focused grading policies Communicating with students and parents Assessing school or district readiness for grading reform The book is grounded in research and resonates with the real lessons learned in the classroom Although grading is a necessary part of schooling Brookhart reminds us that children are sent to school to learn not to get grades This highly practical book will help you put grading and learning into proper perspective offering strategies you can use right away to ensure that your grading practices actually support student learning

In Teachers' Hands Richard J. Stiggins, Nancy Faires Conklin, 1992-01-01 This book marks the starting point of a profound shift in assessment priorities detailing the results of a decade long program of research on classroom assessment environments It demonstrates how important sound classroom assessments are to student well being and provides insights into the complex demands of day to day classroom assessment on teachers who have been taught little about assessment in their training programs As a nation we spend billions of dollars on educational assessment including hundreds of millions for international and national assessments and additional hundreds of millions for statewide testing programs On top of these the standardized tests that form the basis of district wide testing programs represent a billion dollar industry If we total all of these expensive highly visible politically important assessments we still account for less than one percent of all the assessments conducted in America s schools The other 99 percent are conducted by teachers in their classrooms on a moment to moment day to day and week to week basis Paradoxically virtually all of our national state and local assessment resources are being devoted to research and development for large scale assessments This book provides specific action programs for improving the quality of the other 99 percent the assessments that really drive what students learn and how they feel about it

Making Standards Useful in the Classroom Robert J. Marzano, Mark W. Haystead, 2008 It s true that state standards often have way too much content and aren t written in a way that enhances classroom instruction and formative assessment That s why this guide is invaluable for any educator who wants to ensure that standards actually lead to higher student achievement The authors give you good reasons for why some content standards should be dropped and explain how benchmark statements in standards should be rewritten Learn how to sequence content and set up grading scales that help facilitate formative assessment and effective instruction And get clear steps for unpacking and converting standards into guidelines that are much more useful to classroom teachers To implement this book s much more efficient approach the authors included over 240 pages of detailed scoring scales and sample

measurement topics for k 8 science math language arts social studies and critical life skills topics for elementary through high school students **Charting a Course to Standards-Based Grading** Tim Westerberg, 2016-08-24 What is the best way to ensure that grading policies are fair accurate and consistent across classrooms How can schools transition to a grading system that better reflects what students are actually learning Tim R Westerberg makes this journey easier by offering a continuum of options with four destinations on the road to improved grading and assessment Destination 1 critically examines such popular grading mechanisms as the zero extra credit the semester killer project averaging mixing academic performance with work ethic and refusing to accept late work and explains how they undermine objectivity and instead result in widely divergent grades for comparable work with major consequences for students Destination 2 invites educators to put assessment and grading into the larger context of a districtwide guaranteed and viable curriculum and lays out the organizational conditions and necessary steps to accomplish this goal Destination 3 brings parents and others on board with a multiyear implementation plan and community engagement strategies for introducing report cards that indicate student achievement by standards rather than or in addition to letter grades Destination 4 competency based education involves a total rethinking of the nature and structure of school leading to individualized education for all students However far they choose to go administrators and teacher leaders can turn to *Charting a Course to Standards Based Grading* for the quick wins and long term support and guidance they need to make the trip well worth the effort *Answers to Essential Questions About Standards, Assessments, Grading, and Reporting* Thomas R.
