Cassowary Hill Cassowary Hill:

Cassowary Hill David De Vaux, 2018-10 An internationalist novel being a tragicomedy about equally colorful humans and animals and about politics art wine and love with settings in New York London Asia and an Australian tropical rainforest

The Cassowary's Revenge Donald Tuzin, 1997-09-02 Donald Tuzin first studied the New Guinea village of Ilahita in 1972 When he returned many years later he arrived in the aftermath of a startling event the village s men voluntarily destroyed their secret cult that had allowed them to dominate women for generations The cult s collapse indicated nothing less than the death of masculinity and Tuzin examines the labyrinth of motives behind this improbable self devastating act The villagers mythic tradition provided a basis for this revenge of Woman upon the dominion of Man and remarkably Tuzin himself became a principal figure in its narratives The return of the magic bearing youngest brother from America had been prophesied and the villagers believed that Tuzin s return from the dead signified a further need to destroy masculine traditions The Cassowary s Revenge is an intimate account of how Ilahita s men and women think emote dream and explain themselves Tuzin also explores how the death of masculinity in a remote society raises disturbing implications for gender relations in our own society In this light Tuzin s book is about men and women in search of how to value one another and in today s world there is no theme more universal or timely

Pelletier Stephanie Anderson, 2018-09-01 This book tells the story of a French cabin boy Narcisse Pelletier and his life with the Utaalnganu people of north east Cape York from 1858 to 1875 Even though it is all but forgotten in Australia and in France is known only in its broad outlines Pelletier s story rivals that of the famous William Buckley both as a tale of human survival and as an enthralling and accessible ethnographic record Narcisse Pelletier from the village of Saint Gilles sur Vie was fourteen years old when the Saint Paul was wrecked near Rossel Island off New Guinea in 1858 Leaving behind more than 300 Chinese labourers recruited for the Australian goldfields believed to have been subsequently massacred by the Rossel Islanders the ship s captain and crew including the cabin boy escaped in a longboat After a gruelling voyage across the Coral Sea they landed near Cape Direction on Cape York where Pelletier found himself abandoned when the boat sailed off without him He was rescued by an Aboriginal family and remained with them as a member of their clan until 1875 when he was sighted by the crew of a pearling lugger Rescued against his will Pelletier was conveyed to Sydney and then repatriated to France The author Stephanie Anderson came across Pelletier s story by chance in an old French anthropological journal As she started researching it her fascination with the story grew She found that Pelletier had left an account of his experiences first published in 1876 that had never been translated into English Now for the very first time this remarkable story is available to read in English complemented by an ethnographic commentary by anthropologist Athol Chase and an in depth introduction

by Anderson Pelletier The Forgotten Castaway of Cape York is required reading for anyone with an interest in Australian history anthropology or the intriguing world of pre colonial Aboriginal life **Mister Cassowary** Samantha

Heideggers work and modern anthropology Heidegger attracts much scholarly interest among social scientists but few have explored his ideas in relation to current anthropological debates The disciplines modernist foundations the nature of cultural constructionism and of art even what an anthropology of art must include are all informed and illuminated by Heideggers work The author argues that many contemporary anthropologists in their concern to return subjectivity and voice to their interlocutors neglect to recognize that language and other representational practices conceal the world and human subjectivity as much as reveal it The author also suggests that Heideggers critique of western technology provides the basis for a return to anthropologys sociological foundations Emerging from over ten years of original research and drawing on a rich knowledge of Australian and Melanesian ethnography this book reassesses the underlying framework of modern and particularly visual anthropology Innovative and provocative it will be of interest to all anthropologists philosophers and students of art and culture The Emu ,1907 **Animals That Refused to Be Tamed Part-3** Arven Shade,2025-06-07
