Corporate Sovereignty Law And Government Under Capitalism:

Corporate Sovereignty Joshua Barkan, 2013 In *Corporate Sovereignty* Joshua Barkan argues that corporate power should be rethought as a mode of political sovereignty Situating analysis of U S British and international corporate law alongside careful readings in political and social theory he demonstrates that the Anglo American corporation and modern political sovereignty are founded in and bound together through a principle of legally sanctioned immunity from law *Capitalism for All* Neil E. Harrison, John Mikler, 2022-01-01 Capitalism has lost its glamor In just three decades since it defeated a totalitarian Soviet Union capitalism is today blamed for slowing growth a dangerously changing climate inequality social misery and a rise in nationalist populism How did capitalism fall so far from grace *Capitalism for All* show how quite simply the governments of the world s wealthiest countries have forgotten capitalism s initial purpose It was born out of a liberal philosophy that values the competition of ideas and goods in the service of social progress while respecting the individual and preventing excessive power Yet with the aid of governments giant corporations or MegaCorps have usurped power dominated markets and reduced competition The result is not liberal capitalism but what Neil E Harrison and John Mikler term *CorpoCapitalism* which results in an unhappy populace seeking radical political change while challenges like climate change continue to race forward largely unchecked *Capitalism for All* explores how *CorpoCapitalism* came to be argues that it is not inevitable and explains how governments can wrest back power and create a capitalism for all *Powers of the Mind* Michael Bray, 2019-02-20 The Marxist conception of the division between mental and manual labor is a critical yet unrecognized aspect of contemporary political struggles Departing from this novel argument Michael Bray traces the conceptual and socio political history of this labor division and emphasizes how the forms of control and organization articulated by that division in practices of production democracy racialization and financialization are becoming increasingly important Critiquing the left for its tendency to side implicitly with the powers of mental labor Michael Bray shows that comprehending and challenging those powers is a pivotal task for anti capitalist politics today **States, Firms, and Their Legal Fictions** Melissa J. Durkee, 2024-02-28 This volume offers a new point of entry into questions about how the law conceives of states and firms Because states and firms are fictitious constructs rather than products of evolutionary biology the law dictates which acts should be attributed to each entity and by which actors Those legal decisions construct firms and states by attributing identity and consequences to them As the volume shows these legal decisions are often products of path dependence or conceptual metaphors like personhood that have expanded beyond their original uses Focusing on attribution the volume considers an array of questions about artificial entities that are usually divided into doctrinal siloes These include questions about attribution of international legal responsibility to states and state owned entities transnational attribution of liabilities to firms and attribution of identity rights to corporations Durkee highlights the artificiality of doctrines that construct firms and states and therefore their susceptibility to change *Corporate Personhood* Susanna Ripken, 2019-08-08

Explores the nature of corporate personhood and how it affects the rights powers and influence of corporations in society

Thinking the Re-Thinking of the World Kai Kresse, Abdoulaye Sounaye, 2022-12-19 As far too many intellectual histories and theoretical contributions from the global South remain under explored this volume works towards redressing such imbalance Experienced authors from the regions concerned along different disciplinary lines and with a focus on different historical timeframes sketch out their perspectives of envisaged transformations This includes specific case studies and reflexive accounts from African South Asian and Middle Eastern contexts Taking a critical stance on the ongoing dominance of Eurocentrism in academia the authors present their contributions in relation to current decolonial challenges Hereby they consider intellectual practical and structural aspects and dimensions to mark and build their respective positions From their particular vantage points of trans disciplinary and transregional engagement they sketch out potential pathways for addressing the unfinished business of conceptual decolonization The specific individual positionalities of the contributors which are shaped by location and regional perspective as much as in disciplinary biographical linguistic religious and other terms are hereby kept in view Drawing on their significant experiences and insights gained in both the global north and global south the contributors offer original and innovative models of engagement and theorizing frames that seek to restore and critically engage with intellectual practices from particular regions and transregional contexts in Africa South Asia and the Middle East This volume builds on a lecture series held at ZMO in the winter 2019 2020

The Autocratic Academy Timothy V. Kaufman-Osborn, 2023-03-06 Critics of contemporary US higher education often point to the academy's corporatization as one of its defining maladies However in *The Autocratic Academy* Timothy V Kaufman Osborn argues that American colleges and universities have always been organized as corporations in which the power to rule is legally vested in and monopolized by antidemocratic governing boards This institutional form Kaufman Osborn contends is antithetical to the free inquiry that defines the purpose of higher education Tracing the history of the American academy from the founding of Harvard 1636 through the Supreme Court's *Dartmouth v Woodward* ruling 1819 and into the twenty first century Kaufman Osborn shows how the university's autocratic legal constitution is now yoked to its representation on the model of private property Explaining why appeals to the cause of shared governance cannot succeed in wresting power from the academy's autocrats Kaufman Osborn argues that American universities must now be reincorporated in accordance with the principles of democratic republicanism Only then can the academy's members hold accountable those chosen to govern and collectively

determine the disposition of higher education's unique public goods

King Leopold's Ghostwriter Andrew Fitzmaurice, 2024-12-17 A dramatic intellectual biography of Victorian jurist Travers Twiss who provided the legal justification for the creation of the brutal Congo Free State. Eminent jurist, Oxford professor, advocate to the Archbishop of Canterbury, Travers Twiss (1809-1897) was a model establishment figure in Victorian Britain and a close collaborator of Prince Metternich, the architect of the Concert of Europe. Yet Twiss's life was defined by two events that threatened to undermine the order that he had so stoutly defended: a notorious social scandal and the creation of the Congo Free State. In *King Leopold's Ghostwriter*, Andrew Fitzmaurice tells the incredible story of a man who, driven by personal events that transformed him from a reactionary to a reformer, rewrote and liberalised international law yet did so in service of the most brutal regime of the colonial era. In an elaborate deception, Twiss and Phara Lde van Lynseele, a Belgian prostitute, sought to reinvent her as a woman of suitably noble birth to be his wife. Their subterfuge collapsed when another former client publicly denounced van Lynseele. Disgraced, Twiss resigned his offices and the couple fled to Switzerland. But this failure set the stage for a second, successful act of re-creation: Twiss found new employment as the intellectual driving force of King Leopold of Belgium's efforts to have the Congo recognised as a new state under his personal authority. Drawing on extensive new archival research, *King Leopold's Ghostwriter* recounts Twiss's story as never before, including how his creation of a new legal personhood for the Congo was intimately related to the earlier invention of a new legal personhood for his wife. Combining gripping biography and penetrating intellectual history, *King Leopold's Ghostwriter* uncovers a dramatic, ambiguous life that has had lasting influence on international law.

Star Trek and the Politics of Globalism George A. Gonzalez, 2018-07-18 The Absolute, philosophized most saliently about by Georg Hegel, encompasses the entirety of reality. The absolute reality is composed of five dimensions: height, length, width, time, and justice. The five dimensions operate dialectically, and the normative values of reality inhere within the fifth dimension: justice, hard, soft, moral, ethical, yellow, etc. ad infinitum. The normative values from the fifth dimension, justice, in combination with the brain, comprise the human mind. With the issues of climate change, world-wide biosphere destruction, nuclear weapons, international trade regimes, humanity has created the phenomenon of global politics, thereby changing the fifth dimension. The argument in this volume is that the broadcast iterations of *Star Trek* allow us to comprehend significant aspects of justice and the politics of globalism created through the advent of science, technology, engineering, etc. The creators of *Star Trek* hold that nationalism is a psychological pathology and internationalism is rationality.
