

The background of the cover is a monochromatic red-toned abstract composition. It features various geometric elements: a large, dark, rounded shape on the left; a series of thin, intersecting lines forming a web-like pattern across the center; and a large, dark, circular shape on the right. The overall effect is layered and complex, with different shades of red creating depth.

Deleuze and Queer Theory Chrysanthi Nigianni, 2009-01-30 This exciting collection of work introduces a major shift in debates on sexuality a shift away from discourse identity and signification to a radical new conception of bodily materialism Moving away from the established path known as queer theory it suggests an alternative to Butler's matter representation binary It thus dares to ask how to think sexuality and sex outside the discursive and linguistic context that has come to dominate contemporary research in social sciences and humanities Deleuze and Queer Theory is a provocative and often militant collection that explores a diverse range of themes including the revisiting of the term queer a rethinking of the sex gender distinction as being implied in Queer Theory an exploration of queer temporalities the non-re-reading of the homosexual body desire and the becoming queer of the Deleuze Guattari philosophy It will be essential reading for anyone interested not just in Deleuze's and Guattari's philosophy but also in the fields of sexuality gender and feminist theory

Deleuzian Critique of Queer Thought Nir Kedem, 2024-03-05 Holding queer theory to its promise to revolutionise our ways of thinking Nir Kedem offers a forceful encounter between Deleuze's work and contemporary queer thought to provide both critical and practical means to re-evaluate and rework key concepts and methods especially sexuality Kedem provides a new pragmatic approach to working with Deleuze across multiple disciplines a rigorous demonstration of its critical and creative power as well as extensive analysis of the relations between Deleuze and queer thought All of which exemplify that despite if not owing to the unassuming role of sexuality in his thought Deleuze proves to be queer thought's true ally

Queer and Deleuzian Temporalities Rachel Loewen Walker, 2021-11-18 Rachel Loewen Walker's original study of Deleuze's theory of temporality advances a concept of the living present as a critical juncture through which novel meanings and activism take flight in relation to new feminist materialisms queer theory Indigenous studies and studies of climate Drawing on literature philosophy popular culture and community research Loewen Walker unsettles the fierce linearity of our stories particularly as they uphold fixed systems of gender sexuality and identity Treading new ground for Deleuzian studies this book focuses on the non-linearity of the living present to show that everything is within rather than outside of time Through this critical re-evaluation which takes in climate change queer and trans politics and Indigenous sovereignty Queer and Deleuzian Temporalities thickens the present moment By opening up multiple pasts and multiple futures we are invited to act with a deepened level of accountability to all possible timelines

Atopological Trilogy Zafer Aracagök, 2015 Atopological Trilogy creates new concepts for Deleuze Guattarian thought without any heed for sectarian sermonising or dutiful readings of the philosophers In Part I of the trilogy Becoming Sexual of the Sexual Aracagök demonstrates the ways in which quantum theory and the concept of complementarity inform Deleuze and Guattari's thought especially in relation to becoming in general and becoming woman and becoming queer more particularly Aracagök argues that the ways in which the philosophers put forward a ban on becoming man with a certain degree of undecidability encapsulates albeit in a cryptic

form other becomings the most important of which is becoming queer or rather the becoming sexual of the sexual In Part II Deleuze on Sound Music and Schizo Incest Aracag k puts into resonance the sound noise and music and the question of schizo incest with the intention of deterritorialising a notion of the meta audible If Kafka s story The Investigations of a Dog leads us to a realm of the formless which cannot be heard without destroying what we know as hearing it also offers us a limit experience of the meta audible which when radicalised via the notions of schizo incest and self shattering creates a line of flight that escapes even from the line of flight itself All these maneuvers pose a serious challenge to Deleuze and Guattari who claim that despite all his investigations Kafka s investigator dog is re Oedipalised in the end Proposing in the end a limit experience which Aracag k calls the meta audible he shows that Kafka s more radical approach to sound creates a line of flight that escapes even from the line of flight itself The final essay of the trilogy Clinical and Critical Perversion begins with the 19th century crisis of an abyss presumed to be yawning between mimesis and diegesis ever since Plato According to Aracag k this takes the form of a crisis of the political the repression of which becomes the mission of psychoanalytical discourse towards the end of the 19th century This crisis finds another form of expression in George B chner s unfinished 1836 novella Lenz relative to the audibility of a terrible voice which is usually called silence If the disappearance of the political is related to the rise of psychoanalysis on the protocols of first hypnosis and then the talking cure both of which privilege the presumed form of the voice of the analyst over the analysand s silence a psycho politics Aracag k proposes re distributing this process calling renewed attention to the clinicalisation of perversion along Deleuzian Guattarian distinctions such as surface and depth critical and clinical oedipal incest and schizo incest leading to a re evaluation of what Deleuze and Guattari might have meant by homosexual effusion in their book Kafka Toward a Minor Literature all in order to deterritorialise the political under a new concept namely critical perversion Ultimately Atopological Trilogy offers the reader no safe grounds for preserving not only a philosophical identity but also not any identity if only to be able to let you float in the air without any guidance la Kafka s Red Indian

Derrida and Queer Theory Christian Hite, 2017-05-26 Coming from behind derri re how else to describe a volume called Derrida and Queer Theory as if arriving late to the party or indeed after the party is already over After all we already have Deleuze and Queer Theory and of course Saint Foucault And judging by Annamarie Jagose s Queer Theory An Introduction in which there is not a single mention of Derrida or deconstruction even in the sub chapter titled The Post Structuralist Context of Queer one would think that Derrida was not only late to the party but was never there at all This untimely volume then with wide ranging essays from key thinkers in the field addresses among other things what could be called the disavowed debt to Derrida in canonical queer theory

Queer and Deleuzian Temporalities Rachel Loewen Walker, 2021 Rachel Loewen Walker s original study of Deleuze s theory of temporality critically expands our understanding of non linear time through engagement with queer theory and new feminist materialisms Loewen draws on the notion of non linear time in Deleuze s work to advance a conception of the living present

as a critical juncture through which new meanings and activism in the fields of feminism environment and queerness may be realised Using literary texts by Jeanette Winterson and philosophical texts by Julia Kristeva and Luce Irigaray Walker reflects on monomythic stories about gender sexuality and identity in the context of rapid climate change and posthumanist politics to tread new ground for Deleuzian studies of time Speaking to and from feminist queer environmental trans and crip political movements Walker uses Deleuze to argue for a lived present which is both mutable and embodied Such characteristics are presented as essential components in the construction of meaning that is not bound by a static present past or future Queer and Deleuzian Temporalities Toward a Living Present pinpoints the importance of feminist and queer theory to a critical re evaluation of time Through a wide ranging analysis we are able to see how everyone is embedded within rather than outside of time opening up the possibility for imagining and realising alternate futures both for ourselves and the environment
