Towl, 2021-05-04 **FORENSIC PSYCHOLOGY** Explore the theory research and practice of forensic psychology with this collection of resources from recognized leaders in the field The newly revised Third Edition of Forensic Psychology delivers insightful coverage of the theory and applications of forensic psychology The book combines authoritative scholarship with an unprecedented breadth of international coverage and constitutes an essential resource for all aspects of contemporary forensic and criminal psychology The new edition addresses issues of equality diversity and inclusion in each section as well as the uses and abuses of power in forensic contexts The book takes a constructively critical approach to the dominant theories policy and practices of today as opposed to being merely descriptive and considers new and developing areas like the prevention of sexual violence at universities Forensic Psychology comprehensively addresses the application of modern forensic techniques and practices to the civil and criminal justice systems in the United Kingdom Each chapter concludes with some specific suggestions for further reading Additionally readers will enjoy the inclusion of a wide variety of topics like A thorough discussion of investigative and clinical practice including the politics of forensic psychology offender profiling eyewitness testimony and jury decision making An examination of clinical and risk assessments including reviews of the key legal issues and principles involved in risk assessments the role of structured instruments and protocols and coverage of actuarial and structured clinical methods Discussions of working with criminalized populations in prisons and forensic mental health facilities A treatment of psychology in the courts with an emphasis on the courts of England and Wales Perfect for graduate level students in forensic psychology courses Forensic Psychology will also earn a place in the libraries of qualified forensic psychologist practitioners and postgraduate students seeking to improve their understanding of forensic psychology with a high quality international textbook underpinned by considerations of human rights and ethical standards

The Use of Coercive Measures in Forensic Psychiatric Care Birgit Völlm, Norbert Nedopil, 2016-05-02 This book presents the legal context and describes the ethical and practical challenges when using coercive measures in forensic psychiatric settings A wide range of aspects relevant to the use of such measures including environmental patient related and staff related factors are explored and the experience of coercive interventions is described from the staff and the patient perspective Differences in jurisdictions and examples of good practice are highlighted The authors are from a range of professional backgrounds ensuring breadth as well as depth in discussion of the topic The use of coercive measures in particular restraint seclusion and involuntary medication for the control of aggression in psychiatry remains controversial Forensic mental health care deals with individuals who pose a risk

to others and often present with significant management problems within institutions The care of patients in these settings gives rise to debates about the balance between care and safety and between the interests of the patients and those of the wider society to be protected Despite these tensions limited research has been conducted specifically on the use of coercive measures in forensic mental health care This volume aims to fill the gap and will be of value to all professionals working in forensic psychiatric settings as well as to those working in general psychiatric and custodial settings law professionals and patients

Perspectives on Elderly Crime and Victimization Peter C. Kratcoski, Maximilian Edelbacher, 2018-03-28 This textbook focuses on the criminality and victimization of the elderly population It provides a global perspective on the extent of the elderly crime and victimization with international comparisons for addressing the problem It explores the extent and types of crimes committed by the elderly the characteristics of older criminals and the responses of the criminal justice system including prisons and institutions to elderly criminals including diversion programs community based treatment programs and special programs including health mental health care services for older prisoners The second part of the book covers victimization of the elderly Research findings show that certain crimes including fraud theft and certain types of financial crimes disproportionately affect older people and these types of crimes are growing in prevalence This work explores the characteristics of older victims and the types of crimes that affect them Finally the book presents comparative international research on approaches to crime prevention education and legislation to address the victimization of the elderly This work will be of interest to students in criminology and criminal justice as well as related fields such as sociology and gerontology
