Delhi Metropolitan Ranjana Sengupta, 2008-01-01 My understanding of this ferocious restless relentless metropolis is that each of us who lives in this city carries a unique if virtual Delhi inside our heads Independence four million refugees from Pakistan and the overwhelming presence of visible and invisible power that flows from New Delhi being the capital have transformed it from the unruffled imperial town it once was to the fearsome metropolis it is today And yet says Ranjana Sengupta this largely unloved city deserves to be loved Delhi is home to the most diverse population of any city in the country The unceasing influx of migrants has unleashed new urban architectures of opulence and deprivation Different groups have set up their own different universes and these manage to coexist not unhappily And somewhere between the futurist Gurgaon skyline and the proliferating slums alongside the march of the Metro and the refurbishment of Khan Market lie Delhi s unsung sagas the memories the passions and the unspoken expectation that the city will change lives Sengupta illustrates how Delhi is essentially the creation of refugees of all kinds from those fleeing plundered homes within and across the border to the adventurers who have flocked to the city for the greater opportunities of employment or simply to be close to the hub of political power The newer Delhi she says in its turn gained from the accumulated and diverse talent and capital

it acquired from these people although haphazard development poses a great danger to it Delhi Metropolitan tracks the changes from the time going to CP was almost the only leisure activity for the middle class looks at the subtle reinventions of government colonies and the shining new suburbs and inspects the footprints of Punjabification Have all these actually managed to colonize this extravagant indefinable and unlikely city In a work of immense detail at once informed and entertaining Ranjana Sengupta proffers an answer *Contextualizing Urban Narratives through the Socio-Spatial Dialectic* Ankur Konar, 2024-03-26 This book examines how urban narratives explore the complexities of city life including the diversity of its inhabitants the challenges of urbanization and the impact of social and economic disparities They may delve into such topics as crime poverty gentrification and the struggle for identity and belonging in different bustling metropolis settings like Delhi Mumbai Kolkata Benaras Edinburgh and Glasgow This monograph provides a lens through which authors and storytellers examine and reflect upon the complexities challenges and opportunities of urban life It seeks to reiterate how the discourse of urban narratives refers to the specific language themes and ideas that are commonly found in stories set in urban environments and encompasses the ways in which urban spaces are portrayed the issues and conflicts that arise within these settings and the social cultural and political commentary that is often embedded in these narratives Urban Discourses of Crisis, Resilience, and Resistance Eric Prieto, Liam Lanigan, Anni Lappela, 2025-07-11 This volume seeks to address questions of urban crisis from an interdisciplinary perspective that foregrounds the particular roles that literature and the creative arts play in both conceptualizing and addressing the multiple challenges facing cities Noting that the successive crises of recent years from the 2008 recession to COVID 19 seem to have put an end to the triumphalist tone of much urban writing in the 1990s this book argues that the current historical moment calls for a different kind of urban discourse focused on reassessment and regrouping This edited collection features a variety of different approaches including close readings of literary works interviews essays in cultural and architectural history and sociological ethnographic and urban planning studies These chapters explore a range of challenges currently faced by cities and foreground the search for solutions **Delhi: New Literatures of the Megacity** Alex Tickell, Ruvani Ranasinha, 2020-06-29 In this book leading scholars working on urban South Asia chart new forms of literature about contemporary Delhi Incorporating original contributions by Delhi based commentators and covering significant new themes and genres it updates current critical understanding of how contemporary literature has registered the momentous economic and social forces reshaping India's major cities This timely volume responds not only to the contextual challenge of a Delhi transformed by economic liberalisation and commercial growth into a global megacity but also to the emergent formal and generic changes through which this process has been monitored and critiqued in writing The collection includes studies of the city as a disabling metropolis as a space of marginal electronic text as a zone of gendered spatiality and sexual violence and as a terrain in which urban villagers have been displaced by the growing city It also provides close analyses of emerging genres such as

urban comix digital narratives literary reportage and city biography Delhi New Literatures of the Megacity will be of interest to students and researchers in disciplines ranging from postcolonial and global literature to cultural studies civic history and South Asian and urban studies It was originally published as a special issue of the Journal of Postcolonial Writing

Governing India's Metropolises Joël Ruet,Stéphanie Tawa Lama-Rewal,2012-04-27 This book is a comparative sector based study of the changing character of governance in Indian metropolises in the 2000s Highlighting the horizontal and vertical ties of the participatory groups both state and non state it looks at key civic issues **Encyclopedia of Urban**

Studies Ray Hutchison,2010 An encyclopedia about various topics relating to urban studies Glittering Decades Nayantara Pothan,2012-01-30 New Delhi was purpose built to trumpet the supremacy of the British Raj and inaugurated in 1931 Instead it came to represent a fading imperial dream in the two decades that followed In the heyday of the British Raj strict social and racial hierarchies governed the social life of the city s ruling elites And the frivolity of New Delhi s high society was kept in check by a faithful adherence to etiquette and protocol in everyday life For example the sixteen button glove at a formal viceregal dinner party was of great importance as a means of maintaining the authority of the Raj But the 1930s and 1940s were a period of transition The political shifts associated with India s journey to self government echoed in the social codes of conduct adopted by the Indian elites of New Delhi and undermining the Raj s pomp became a legitimate means of challenging its authority Closely examining the role of social ritual interaction and behaviour in the shaping of the city and its elite groups Glittering Decades tells the story of New Delhi and its privileged inhabitants between 1931 and 1952
