Deciding Communication Law Deciding Communication Law:

Deciding Communication Law Susan Dente Ross, 2004 This clearly written and well focused volume combines concise decisions of the primary areas of communication law with the foundational case decisions in those domains Thus in one volume students of communication law constitutional law political science and related fields find both the key rulings that define each area of law and a detailed summary of the legal concepts doctrines and policies so vital to understanding the rulings within their legal context The text forgoes the tendency to provide encyclopedic treatment of all the relevant cases and focuses instead on the two or three cases most vital to an accurate and informed understanding of the current state of each field of communication law The chapters provide readers with the most salient concepts and the necessary depth to understand the law while permitting most reading time to be directed to the law itself Full text rulings allow readers to immerse themselves in the law itself to develop a feel for its complexity its flexibility and its language Useful as a quick reference to the landmark rulings and the jurisprudence of communication law this book also serves well as the primary text in related undergraduate courses or as a supplemental text in graduate classes in the field Deciding Communication Law

Susan Dente Ross, 2004 **Reconsidering Our Communications Laws** United States. Congress. Senate. Committee on the Judiciary, 2009 Methods of Historical Analysis in Electronic Media Donald G. Godfrey, 2006-08-15 Methods of Historical Analysis in Electronic Media provides a foundation for historical research in electronic media by addressing the literature and the methods traditional and the eclectic methods of scholarship as applied to electronic media It is about history broadcast electronic media history and history that has been broadcast and also about the historiography research written and the research yet to be written Divided into five parts this book addresses the challenges in the application of the historical methods to broadcast history reviews the various methods appropriate for electronic media research based on the nature of the object under study suggests new approaches to popular historical topics takes a broad topical look at history in broadcasting and provides a broad overview of what has been accomplished a historian s challenges and future research Intended for students and researchers in broadcast history Methods of Historical Analysis in Electronic Media provides an understanding of the qualitative methodological tools necessary for the study of electronic media history and illustrates how to find primary sources for electronic media research

Communication Law Dom Caristi, William R Davie, 2018-05-04 Now in its second edition Communication Law Practical Applications in the Digital Age is an engaging and accessible text that brings a fresh approach to the fundamentals of mass media law Designed for students of communication that are new to law this volume presents its readers with key principles and emphasizes the impact of timely landmark cases on today s media world providing an applied learning experience This new edition offers a brand new chapter on digital media law a wealth of new case studies and expanded discussions of current political social and cultural issues **Advisory and**

the Law Oren Perez, Gunther Teubner, 2005-12-13 Is law paradoxical This book seeks to unravel the riddle of legal paradoxes It focuses on two main questions the nature of legal paradoxes and their social ramifications In exploring the structure of legal paradoxes the book focuses both on generic paradoxes such as those associated with the self referential character of legal validity and the endemic incoherence of legal discourse and on paradoxes that permeate more restricted fields of law such as contract law euthanasia and human rights the prohibition of torture The discussion of the social effects of legal paradoxes focuses on the role of paradoxes as drivers of legal change and explores the institutional mechanisms that ensure the stability of the law in spite of its paradoxical makeup The essays in the book discuss these questions from various perspectives invoking insights from philosophy systems theory deconstruction and economics **Niger Business Law Handbook Volume 1 Strategic Information and Basic Laws** IBP, Inc., 2012-05-24 Niger Business Law Handbook Strategic Information and Basic Laws **Essential Law for Social Workers** Robert G. Madden, 2003-10-01 Whether protecting their own rights or those of their clients or navigating the juvenile justice immigration or welfare systems social workers confront legal issues every day This book explores legal concepts legal reasoning and legal processes illustrated with case vignettes from social work practice in order to provide social work practitioners and students with practical and accessible legal knowledge It introduces readers to scholarship about the law and to conceptual knowledge that can be applied to any interaction with the legal system Social workers are thereby enabled to think like a lawyer and increase their effectiveness The volume features a discussion of recent reform movements including Alternative Dispute Resolution and an appendix of sources for legal information and research on the law **Choosing Chinese Universities** Alice Y.C. Te, 2022-10-07 This book unpacks the complex dynamics of Hong Kong students choice in pursuing undergraduate education at the universities of Mainland China Drawing on an empirical study based on interviews with 51 students this book investigates how macro political economic factors institutional influences parental influence and students personal motivations have shaped students eventual choice of university Building on Perna s integrated model of college choice and Lee s push pull mobility model this book conceptualizes that students border crossing from Hong Kong to Mainland China for higher education is a trans contextualized negotiated choice under the One Country Two Systems principle The findings reveal that during the decision making process influencing factors have conditioned four archetypes of student choice Pragmatists Achievers Averages and Underachievers The book closes by proposing an enhanced integrated model of college choice that encompasses both rational motives and sociological factors and examines the theoretical significance and practical implications of the qualitative study With its focus on student choice and experiences of studying in China this book s research and policy findings will interest researchers university administrators school principals and teachers
