## **Corrupt City Urban S:**

**The Contemporary Novel and the City** S. Khanna, 2015-12-04 This book examines the deeply divided terrain of the twentieth century city and its formative impact on narrative fiction It focuses on two major world authors at the two ends of the twentieth century who write systematically about the colonial and postcolonial cities they were born in James Joyce and Dublin and Salman Rushdie and Bombay *The Pursuit of Absolute Integrity* Frank Anechiarico, James B. Jacobs, 1996-12-15 Using anticorruption efforts in New York City to illustrate their argument Anechiarico and Jacobs demonstrate the costly inefficiencies of pursuing absolute integrity By proliferating dysfunctions constraining decision makers discretion shaping priorities and causing delays corruption control no less than corruption itself has contributed to the contemporary crisis in public administration City Growth Benjamin Ramirez, AI, 2025-05-06 City Growth explores the historical forces driving urban expansion in major U S cities from the industrial revolution to today It examines how technological innovation economic opportunities and changing social priorities have shaped urban landscapes and led to phenomena like urban sprawl The book argues that urban growth isn't random but follows interconnected cycles revealing patterns crucial for sustainable development and addressing inequality For instance the rise of the automobile dramatically influenced suburbanization while more recently the internet and remote work impact urban form The book adopts a comprehensive approach beginning with core concepts like urban morphology and land use It then delves into specific periods such as the post World War II boom using case studies of cities like Chicago and Los Angeles to illustrate broader trends Drawing on historical data planning documents and interviews City Growth provides a unique perspective by integrating historical analysis with contemporary planning challenges addressing ongoing debates around gentrification and affordable housing **Arabic in the City** Catherine Miller, Enam Al-Wer, Dominique Caubet, Janet C.E. Watson, 2007-12-14 This book is an edited collection that examines how urbanization is causing language change in major Arab cities **Municipal Corruption** Kimberly L. Nelson, Whitney B. Afonso, 2024-06-03 This book represents the most comprehensive exploration of corruption in U S municipal governments written to date Exploring the 30 year time period from 1990 to 2020 and including all U S municipalities with populations of 10 000 people or more Municipal Corruption From Policies to People uses both quantitative research and case study analysis to answer the question of why some municipalities fall victim to corrupt acts while others do not It tells the stories of a number of communities that suffered through public corruption investigating factors that contribute to a greater risk of corruption in municipalities and identifying steps to prevent corruption in communities including strengthening resident interest and involvement in local affairs offsetting the decline in local journalism and reinforcing scrutiny by state governments Municipal Corruption is ideal supplemental reading for courses on ethics public affairs local government and urban affairs and it will be immeasurably useful to municipalities considering how to better insulate themselves and their constituents from corrupt acts **Handbook on Space, Place and Law** Robyn

Bartel,Jennifer Carter,2021-04-30 This innovative Handbook provides an expansive interrogation of the spaces and places of law exploring how we engage relationally in a material world within which we are inter dependent and reliant and governed by laws in a dynamic process It advances novel insights into the numerous intersections of space place and law in our lives

**The Palgrave Handbook of Literature and the City** Jeremy Tambling,2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it Gathering together 40 contributors who look at different modes of writing and film making in throughout the world this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru from New York to Paris from London to Kinshasa It looks at some of the ways in which modern cities whether capitals shanty towns industrial or rust belt have forced themselves on people s ways of thinking and writing

*Going to Market* David Pennington,2016-03-03 *Going to Market* rethinks women s contributions to the early modern commercial economy A number of previous studies have focused on whether or not the early modern period closed occupational opportunities for women By attending to women s everyday business practices and not merely to their position on the occupational ladder this book shows that they could take advantage of new commercial opportunities and exercise a surprising degree of economic agency This has implications for early modern gender relations and commercial culture alike For the evidence analyzed here suggests that male householders and town authorities alike accepted the necessity of women s participation in the commercial economy and that women s assertiveness in marketplace dealings suggests how little influence patriarchal prescriptions had over the way in which men and women did business The book also illuminates England s departure from what we often think of as a traditional economic culture Because women were usually in charge of provisioning the household scholars have seen them as the most ardent supporters of an early modern moral economy which placed the interests of poor consumers over the efficiency of markets But the hard headed hard nosed tactics of market women that emerge in this book suggests that a profit oriented commercial culture far from being the preserve of wealthy merchants and landowners permeated early modern communities Through an investigation of a broad range of primary sources including popular literature criminal records and civil litigation depositions the study reconstructs how women did business and negotiated with male householders authorities customers and competitors This analysis of the records shows women able to leverage their commercial roles and social contacts to defend the economic interests of their households and their neighborhoods

Corruption Plots Malini Ranganathan,David L. Pike,Sapana Doshi,2023-04-15 Winner of the Anthony Leeds Prize in Urban Anthropology by the American Anthropological Association *Corruption Plots* illuminates how corruption is fundamental to global storytelling about how states and elites abuse entrusted power in late capitalism The millennial city of the global South is a charged setting for allegations of corruption with skyscrapers land grabs and slum evictions invoking

outrage at deepening economic polarization Drawing on ethnography in Bengaluru and Mumbai and a cross section of literary and cinematic stories from cities around the world Malini Ranganathan David L Pike and Sapana Doshi pay close attention to the racial caste class and gender locations of the narrators spaces and publics imagined to be harmed by corruption Corruption Plots demonstrates how corruption talk is leveraged to make sense of unequal spatial change and used opportunistically by those who are themselves implicated in wrongdoing Offering a wide ranging analysis of urban worlds the authors reveal the ethical spatial and political stakes of storytelling and how vital it is to examine the corruption plot in all its contradictions
