**The Crystal Conflict** D.C. Claymore,2013-09 On a seemingly insignificant planet called Rylaxon society hung by a thread in the shadow of a crippling energy shortage Once productive mines were failing and in desperation miners were forced to dig deeper forgoing safety and sanity in search of the precious nucleotide crystals that powered the planet for 1 953 years It is during these troubling times that Biron Coomra is born to a race of clone like people His father is a well known and respected biophysicist who made a historic discovery on a distant planet absolute proof of the existence of intelligent life in the universe humanity Biron s mother is a thirteenth level witch from this newly discovered world called Earth and she bristles against the Rylaxon social class system Her son s future is in no way guaranteed as an ancient prophecy warned the Rylaxon inhabitants of certain destruction if they intermingle with their distant cousins How can this hybrid boy ever hope for a normal life Biron must fight for his own destiny against the machinations of a madman bent on world domination and an ancient entity determined to destroy it all Can a unique boy grow up in a caste society that shuns anyone who dares to be different and overcome the odds to defeat two maniacal forces of evil     **The Octagon Crystal** Pearl Foley,1929     *Crystal Society* Max Harms,2016-03-27 The year is 2039 and the world is much like ours Massive automation has disrupted and improved nearly every industry putting hundreds of millions of people out of jobs and denying upward mobility for the vast majority of humans Wealth and technology repair the bodies of the rich while famine and poverty sweep the world Privately operated ventures carried humans to the moon and beyond but space stations have become nothing but government trophies and hiding places for extremists First contact did not bring advanced culture and wisdom as the aliens were too strange lacking even mouths or normal language Face is an artificial intelligence created to understand and gain the adoration of all humans She and her siblings control the robot named Socrates using a crystal computer that seems too advanced to be made by human hands She is learning and growing every second of every day but the world and the humans on it are fragile Can it survive her destiny     Crystal Tears Miguel Angel Coronado,2012-05 The fate of the world is in her hands How I wish I could see what the Ancients saw but a mystery it remains and the answers elude us all The end of the world so very near according to the Maya of old but something tells me this Crystal holds that which is yet to be told Maya mythistory tells of a Fire Macaw who on one sunny day destroyed the evil world we have and nothing remained to claim But if this Crystal is that which everyone seeks to find I hold here in my very own hands that which could save mankind     The Crystal King Wayne Schreiber,2012-06-09 Two prominent nations have locked horns on a collision course of destruction a fight that will bring one side to its knees Faced with overwhelming odds the Tanarian nation flounders as the ravages of war extract a heavy toll with the invader pushing ever deeper into their lands their fate will surely soon be sealed Yet they still have one advantage Tamar the magician the greatest mastermind of their time fights for their survival and his own He fights evil in his own uncompromising way and hopes to exploit a potential weakness in the massing forces they face However he can only work

with the limited tools he has a maverick warrior filled with his own agenda and fuelled with the lust for revenge a misled thief and a king who may yet turn against him Only on Athene a lady gifted with an immunity to magic can he depend upon in this struggle but perhaps he asks too much of her Only through his manipulation deception and an iron resolve have they any hope of survival

**Aid in Danger** Larissa Fast,2014-04-03 Humanitarian aid workers increasingly remain present in contexts of violence and are injured kidnapped and killed as a result Since 9 11 and in response to these dangers aid organizations have fortified themselves to shield their staff and programs from outside threats In Aid in Danger Larissa Fast critically examines the causes of violence against aid workers and the consequences of the approaches aid agencies use to protect themselves from attack Based on more than a decade of research Aid in Danger explores the assumptions underpinning existing explanations of and responses to violence against aid workers According to Fast most explanations of attacks locate the causes externally and maintain an image of aid workers as an exceptional category of civilians The resulting approaches to security rely on separation and fortification and alienate aid workers from those in need representing both a symptom and a cause of crisis in the humanitarian system Missing from most analyses are the internal vulnerabilities exemplified in the everyday decisions and ordinary human frailties and organizational mistakes that sometimes contribute to the conditions leading to violence This oversight contributes to the normalization of danger in aid work and undermines the humanitarian ethos As an alternative Fast proposes a relational framework that captures both external threats and internal vulnerabilities By uncovering overlooked causes of violence Aid in Danger offers a unique perspective on the challenges of providing aid in perilous settings and on the prospects of reforming the system in service of core humanitarian values

**The Lost Crystal** Tony Collins,2012-04-24 An archaeological dig in the English countryside might be considered the safest of pastimes but not for Simon Tappins His life is turned upside down when a dramatic discovery sends him back two thousand years into a world time forgot He is plunged into a dangerous period of British history a pivotal point when the Roman Empire is collapsing and Saxon hordes are invading sweeping aside the last legions Simon is caught between the approaching Saxons and the ferocious but futile last stand of a Roman governor who with the support of Germanic mercenaries is intent on escaping with the wealth he has accumulated Through all this runs Simons quest to solve a mystery Only the lost crystal of Thar Cernunnos has the power to take him back to his own time but while clues crop up regularly they are always enigmatic often cryptic and seemingly impossible to solve However it is his emotional involvement with native girl Senicca that presents the greatest challenge If he makes the wrong decision now in two thousand years time the consequences will be fatal In accurate and fascinating detail many aspects of everyday life in these times are disclosed The story explores what it was really like to live in a Roman town The principal character experiences the sounds of the market place the smells from the wine bars and food shops and the choking smoke from the industrial quarter But it is the people and their cultural and political organization which reveals the unique economic ambience of the town during this dangerous

period The story also weaves a strange tale of unearthly powers of priests the terrifying predictions of Celtic Gods and the struggles perils and small triumphs of surviving in a time filled with savage conflict *Crystal Mentality* Max
