**How to be Childless** Rachel Chrastil, 2020 In How to Be Childless A History and Philosophy of Life Without Children Rachel Chrastil explores the long and fascinating history of childlessness putting this often overlooked legacy in conversation with the issues that childless women and men face in the twenty first century Eschewing two dominant narratives that the childless are either barren and alone or that they are carefree and selfish How to Be Childless instead argues that the lives of

childless individuals from the past can help all of us expand our range of possibilities for the good life In uncovering the voices and experiences of childless women from the past five hundred years Chrastil demonstrates that the pathways to childlessness so often simplified as choice and circumstance are far more complex and interweaving Balanced deeply researched and richly realized How to be Childless will empower readers parents and childless alike to navigate their lives with purpose

No Children. It Makes Sense! Nathalie Six, 2023-07-04 Kids are great It s a unique process that everyone should experience Except that today 1 in 20 French people refuse to have children What are the reasons for this voluntary infertility Do we really know why we have children Isn t having children an obstacle to personal and professional development In an overpopulated and polluted world isn t it selfish to take up too much space by having a family Don t children cost too much to individuals and to society The author investigates with dozens of women and men for whom the duty to procreate rings hollow Among these non parents are exclusive lovers artists careerists religious people traumatized children eternal teenagers environmentalists convinced Malthusians as well as feminist activists who have made their refusal to give birth a standard in order to assert themselves in a society that praises all mothers and family values Nathalie Six has been a journalist for eight years and has written for the magazines Femmes Nouvel Obs Figaro and Figaro L Orient litt raire and Livres Hebdo among others

Childless Living Lisette Schuitemaker, 2019-02-19 An exploration of the self fulfilling lives of people who by chance or choice have no children of their own Investigates the life choices people make around having children and alternate ways of finding purpose in life Based on a global survey and more than 50 in depth interviews with childless and childfree women and men aged 19 to 91 from different cultures and walks of life Enables readers to place their own circumstances in a larger context as they gain insight in the worldwide trend of people who lead a self fulfilling childless life Not having children is on the rise in many countries across the globe August 1st has been named International Childfree Day with a Childfree Woman and Man of the Year Award Yet being childless is a subject not much talked about the focus tends to be on having families and raising children in rural town or city life Let s talk about not having children about what people like us do with our time about how we spend our money and most of all how we find purpose and fulfilment in our lives Never attracted to family life herself Lisette Schuitemaker began openly discussing why people didn t have children and how that was for them resulting in intimate conversations with childless women and men and surprising insights Inspired to delve further she interviewed non parenting people aged 19 to 91 across the globe She found that no story was like the other and that many had been waiting to be listened to with sensitivity She heard stories across the spectrum from exhilarating to painful from people still on the fence to the childfree who have always known starting a family was not for them Complementing her interview findings with a worldwide survey and recent research the author paints a rich picture of the individual lives of childless and childfree women and men This book is for everyone who has not gone the way of parenthood who has close family or friends who lead self directed lives without offspring and for all those who are still

contemplating this essential life choice The stories in this book also testify that not having children of your own in no way means the joys and trials of children pass you by altogether This book shows that it is ok to celebrate not only the parenting way of life and the children who come to those who love them but also those who are brave enough to follow the lesser known path of non parenting

Intersections of Mothering Carole Zufferey, Fiona Buchanan, 2019-12-06 This book presents new interdisciplinary and intersectional research about women as mothers highlighting that alternative accounts of mothering can challenge normative societal assumptions and broaden understandings of women as mothers mothering and motherhoods Mothering occurs within unequal power relations associated with the disadvantages and privileges of an unjust and patriarchal society Social inequalities associated with gender race class age ability sexuality violence and nationalism intersect in the lives of women as mothers to shape their lived experiences and perspectives on mothering Showcasing the breadth and depth of feminist research on mothering this book gives attention to the diversity of ways in which mothering is constructed and responded to as well as how mothering is experienced Drawing on intersectional feminist thought the book challenges normative visions of good mothering and interrogates constructs of bad mothering It brings together insights from multidisciplinary scholars who use feminist approaches in their research on mothering to inform policy development and practice when working with women as mothers in diverse circumstances Intersections of Mothering highlights the complexities of mothering in a contemporary world show the benefits of considering mothering through an intersectional feminist lens make visible lived experiences of mothers and provides challenges to dominant imaginings of and service responses to women as mothers Intersections of Mothering will be essential reading for interdisciplinary scholars and students in criminology gender and women s studies motherhood studies social welfare social work social policy and public health policy in addition to practitioners and policy workers that respond to women as mothers

What to Expect When No One's Expecting Jonathan V. Last, 2014-06-10 Look around you and think for a minute Is America too crowded For years we have been warned about the looming danger of overpopulation people jostling for space on a planet that s busting at the seams and running out of oil and food and land and everything else It s all bunk The population bomb never exploded Instead statistics from around the world make clear that since the 1970s we ve been facing exactly the opposite problem people are having too few babies Population growth has been slowing for two generations The world s population will peak and then begin shrinking within the next fifty years In some countries it s already started Japan for instance will be half its current size by the end of the century In Italy there are already more deaths than births every year China s One Child Policy has left that country without enough women to marry its men not enough young people to support the country s elderly and an impending population contraction that has the ruling class terrified And all of this is coming to America too In fact it s already here Middle class Americans have their own informal one child policy these days And an alarming number of upscale professionals don t even go that far they have dogs not kids In fact if it weren t for the wave of immigration we experienced over the last

thirty years the United States would be on the verge of shrinking too What happened Everything about modern life from Bugaboo strollers to insane college tuition to government regulations has pushed Americans in a single direction making it harder to have children And making the people who do still want to have children feel like second class citizens What to Expect When No One s Expecting explains why the population implosion happened and how it is remaking culture the economy and politics both at home and around the world Because if America wants to continue to lead the world we need to have more babies *Mothering in East Asian Communities; Politics and Practices* Patti Duncan, 2014-09-01 In *Mothering in East Asian Communities* Duncan and Wong seamlessly rupture a homogenous identity category that of the tiger mom The editors invoke the works of diverse contributors who critically challenge essentialized identity categories and racialized and sexualized experiences of women of color within the institution of motherhood and practices of mothering Here the edited volume grapples with globalization transnationalism and capitalism with an East Asian ethno racial cultural context Duncan and Wong offer a personal and political analysis of motherhood that is socially and cu **Hush Little Baby** Gal Ventura, 2023-07-15 In the nineteenth century France became fixated on infant sleep Pictures of sleeping babies proliferated in paintings posters and advertisements for cradles and toys Childcare manuals and medical writings insisted on the importance of sleep as a measure of a child s future health and vigour Infant sleep was transformed from an unremarkable event to a precarious stage of life that demanded monitoring support and above all the constant presence and attention of mothers *Hush Little Baby* uncovers the cultural medical and economic forces that came to shape Western ideas about infants sleeping patterns rituals and settings By the mid nineteenth century doctors were advising that infant sleep should be carefully controlled by caregivers according to medical guidelines and that to do otherwise would risk compromising a child s development A sleeping baby was seen as the sign of a good mother an idea that was reinforced through countless pictures of mothers watching vigilantly over their sleeping children even as the reality of postpartum depression was known to doctors The medical advice literature also helped to create a commercial infant industry encouraging the production of clothing bedding cradles and accessories designed to foster sleep and providing new ways for families to demonstrate social status In *Hush Little Baby* Gal Ventura shows how these images and ideas about babies sleep created many of the standards and expectations that keep parents awake today
