Assessing Negative Response Bias in Competency to Stand Trial Evaluations Steven J. Rubenzer, 2018-03-22
Evaluations of a defendant's competence to stand trial CST are probably the most frequently performed forensic evaluations with estimates in the United States ranging from 60 000 to 70 000 annually In order for CST evaluations to be considered thorough and accurate examiners must assess for possible lack of cooperation feigning or malingering the intentional production or gross exaggeration of false or grossly exaggerated physical or psychiatric symptoms motivated by external incentives Yet there are accounts that CST examiners often do not assess for negative response bias and even if they do nevertheless fail to identify a considerable number of examinees that do feign **Assessing Negative Response Bias in Competency to Stand Trial Evaluations** provides readers with a comprehensive guide to assessing whether a defendant has feigned mental impairment during a competency to stand trial evaluation or simply did not put forth his/her best effort This book reviews the literature on assessing feigning and negative response bias with particular focus on issues tests and data relevant to CST evaluations and examines proposed criteria and statistical methods of determining and classifying assessment results It introduces readers to aspects of the vibrant neuropsychological response style literature an area many forensic psychologists appear to have overlooked Additionally it offers recommendations for research and policy regarding the parameters of CST assessment

Positive Youth Development, Mental Health, and Psychological Well-Being in Diverse Youth Nora Wiium, Laura Ferrer-Wreder, Jennifer E. Lansford, Lene Arnett Jensen, 2023-06-15 In this Research Topic our aim is to examine how personal resources related to competencies skills and self perception as well as environmental contextual and relational features of the social contexts of diverse youth directly or indirectly are important to mental health and psychological well being As previous research on young people has mainly focused on youth's weaknesses rather than their strengths our use of Positive Youth Development PYD in working with culturally diverse youth and their well being in this Research Topic is novel We invite contributions from researchers that were initially presented their papers in a meeting that was held by research partners of the Cross National Project on Positive Youth Development CN PYD and who represent an international and multidisciplinary panel of experts on PYD The CN PYD was initiated in 2014 at the University of Bergen and has an ongoing data collection that involves approximately 10 000 minority and majority youth and emerging adults ages 16 to 29 living in Africa Asia Australia Europe New Zealand and South America CN PYD uses a strengths based approach to the conceptualization of youth as resources and agentic which is in opposition to the view of the developmental period of adolescence as being a period inherently fraught with problems and risks The goal of the cross national project is to assess personal strengths and contextual resources considering how these resources come together to facilitate youth thriving and to document how young people make positive and valued contributions to themselves and others We also advance research on the complex interplay between personal and contextual resources and their connections with risk behaviors and problems

in essence taking a perspective of the whole child both in terms of strengths and problems *Understanding Food Insecurity* Maria Sassi, 2017-10-24 This book provides a comprehensive overview of key aspects of food insecurity including definitional and conceptual issues information systems and data sources indicators and policies The aim is to equip readers with a sound understanding of the subject that will assist in the recognition of food insecurity and the design of suitable responses The early chapters discuss the evolution and limitations of the concept and provide a set of conceptual frameworks for the analysis of food security Systems used to collect data and their evolution over time are then explained and the most commonly adopted indicators for monitoring food security are presented Approaches to food security are then thoroughly reviewed decade by decade Specific attention is paid to the food insecurity challenge in the new millennium focusing particularly on recent food crises and institutional and policy related consequences Finally the specific terminology of food aid and assistance is examined with discussion of the instruments recently adopted in the food aid system This book will be an informative and stimulating resource for both students and professionals **Cognitive Stimulation Therapy for**

Dementia Lauren A. Yates, Jennifer Yates, Martin Orrell, Aimee Spector, Bob Woods, 2017-09-11 Cognitive Stimulation Therapy CST has made a huge global clinical impact since its inception and this landmark book is the first to draw all the published research together in one place Edited by experts in the intervention including members of the workgroup who initially developed the therapy Cognitive Stimulation Therapy for Dementia features contributions from authors across the globe providing a broad overview of the entire research programme The book demonstrates how CST can significantly improve cognition and quality of life for people with dementia and offers insight on the theory and mechanisms of change as well as discussion of the practical implementation of CST in a range of clinical settings Drawing from several research studies the book also includes a section on culturally adapting and translating CST with case studies from countries such as Japan New Zealand and Sub Saharan Africa Cognitive Stimulation Therapy for Dementia will be essential reading for academics researchers and postgraduate students involved in the study of dementia gerontology and cognitive rehabilitation It will also be of interest to health professionals including psychologists psychiatrists occupational therapists nurses and social workers

Perceived Health and Adaptation in Chronic Disease Francis Guillemin, Alain Leplege, Serge Briancon, Elisabeth Spitz, Joel Coste, 2017-08-01 Chronic diseases have become predominant in Western societies and in many developing countries They affect quality of life and daily activities and require regular medical care This unique monograph will bring readers up to date with chronic disease research with a focus on health related quality of life and patient perception of the impact of the diseases and health intervention as well as psychological adaptation to the disease It considers the application of concepts and measures in medical and psychological clinical practice and in public health policies Informed by theory philosophy history and empirical research chapters will indicate how readers might advance their own thinking learning practice and research The book is intended to be provocative and challenging to enhance discussion about theory as a key

component of research and practice Perceived Health and Adaptation in Chronic Disease will be of interest to researchers and academics alike It boasts a wide range of contributions from leading international specialists from Australia Canada Denmark France Germany the Netherlands Spain Sweden the UK and the USA This has also allowed the book to provide readers with a multidisciplinary approach *Alternatives to Privatizing Public Education and Curriculum* Daniel Ness, Stephen J. Farenga, 2017-03-16 Through conversations in honor of Dale D Johnson this book takes a critical view of the monoculture in curriculum and policy that has developed in education with the increase of federal funding and privatization of services for public education and examines the shift from public interest and control to private and corporate shareholder hegemony Most states educational responsibilities assessment of constituents curriculum development and instructional protocols are increasingly being outsourced to private enterprises in an effort to reduce state budgets These enterprises have been given wide access to state resources such as public data from state sanctioned testing results field testing rights to public schools and financial assistance Chapter authors challenge this paradigm as well as the model that has set growing premiums on accountability and performance measures Connecting common impact between the standards movement and the privatization of education this book lays bare the repercussions of high stakes accountability coupled with increasing privatization Winner of The Society of Professors of Education Book Award 2018 *Statistical Guidelines: New Developments in Statistical Methods and Psychometric Tools* Pietro Cipresso, Jason C. Immekus, 2022-03-25 *Handbook of Scales for Research in Crime and Delinquency* Stanley L. Brodsky, H. O'Neal Smitherman, 2013-06-29 In contrast to the great diversity of other crime and delinquency research measures those drawn from the CPI and the MMPI have much in common They are taken from standardized instruments administered under controlled conditions with known stimulus properties and validity indicators The CPI and MMPI measures will frequently be instruments of choice in research on personality and psychodynamics of offenders CHAPTER 6 Law Enforcement and Police This chapter encompasses a variety of scales that refer to law enforcement or police agencies Unfortunately in the case of many scales these terms are used simply with the assumption that the respondents understand the concepts and use them in the same way as researchers In other cases however specific policing functions are identified and described As noted in Chapter 3 a standard order of scale presentation is followed First the attitudes scales are presented followed by the behavior ratings per sonality measures milieu ratings prediction measures and finally the very broad category of description After the reviews are completed within each subcategory other scales in that category are listed See Chapter 2 for a description of the criteria that were used in deciding upon whether a scale would be reviewed or simply listed Listed scales are presented by title and bibliographic reference followed by a very brief description *Executive Function and Education* Mariëtte Huizinga, Dieter Baeyens, Jacob A. Burack, 2018-09-21 Executive function is an umbrella term for various cognitive processes that are central to goal directed behavior thoughts and emotions These processes are especially important in novel or demanding situations which require a

rapid and flexible adjustment of behavior to the changing demands of the environment The development of executive function relies on the maturation of associated brain regions as well as on stimulation in the child s social contexts especially the home and school Over the past decade the term executive function has become a buzzword in the field of education as both researchers and educators underscore the importance of skills like goal setting planning and organizing in academic success Accordingly in initiating this Research Topic and eBook our goal was to provide a forum for state of the art theoretical and empirical work on this that both facilitates communication among researchers from diverse fields and provides a theoretically sound source of information for educators The contributors to this volume who hail from several different countries in Europe and North America have certainly accomplished this goal in their nuanced and cutting edge depictions of the complex links among various executive function components and educational success

Clinical Application and Impact of Blood-Flow-Restriction Training Alexander Franz, Michael Behringer, Luke Hughes, 2023-11-28 Training under venous blood flow restriction BFR has received considerable interest in sports science and sports medicine journals in recent years Driven by the positive effects of BFR training on muscle mass and function a growing number of clinical scientists are beginning to investigate this training therapy and its potential impact on health and disease Muscle wasting due to age or disease is a catalyst for disease development in almost any condition However today s clinical training therapy has no suitable training methods to enable the majority of physically compromised patients to train in a way that provides the necessary intensity for muscle adaptations While BFR training could fill a significant gap in this regard the implementation of a new training technique in clinical practice is accompanied by many challenges Therefore we would like to introduce the Research Topic Clinical Application and Impact of Blood Flow Restriction Training which is intended to be a collection of basic scientific work on the application of BFR training in clinical settings and primary descriptions of feasibility and effects We hope that this will expand the range of BFR applications illustrate positive as well as possible negative effects of BFR training in patient populations and provide a proven scientific basis for future work This Research Topics covers all aspects of applicability of BFR and exercise physiology in clinical conditions The aim is to expand the possibilities of this technique to share experience in clinical practice and to describe and interpret the physiological adaptations under pathological conditions Therefore this Research Topic welcomes submissions on BFR applications in clinical trial groups acute and chronic effects of training with patients as well as molecular and cellular changes in exercise physiology and effects of chronic diseases on muscle function
