De Nederlanden En De Kruistochten:

De Nederlanden en de Kruistochten. [With Plates and Maps.], 1941 De Nederlanden en de Kruistochten
Herman Hardenberg, 1944 Haarlems Helicon E. K. Grootes, 1993 Bundel opstellen *Handbook of Dutch Church History*
Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts
resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated
the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events
are always set within a greater framework of political social and cultural developments for which reason each author has
taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many
source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the
reader and as it were to let them speak the words The name of the book as Handbook of the church history of the
Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature
of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further
books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town
and village has its own church history Third the history of the church for sure is the most important aspect but this history
can only be understood if it is described in the context of political and social developments *Van Kruisridders en*
