The Prison Experience: Males

Chapter 7

Entering a prison

1. Total institutions; institutions that **control all aspects** of those confined there

a.) **Big House**: fortress-like prison emphasizing security and control

2. **Minimize policy**: inmates **get bare minimum** of food, services, programs, medical care as required by law

a. Examples of what inmates lose: **cable TV, free weights, and education programs.**

Classification: method of assessing inmate risks and needs that **balance** the **security** concerns of the correctional facility with the **treatment** needs of the inmate.

if effective, classification helps ensure a **safe environment for both staff and inmates.**

1. **External Classification System**: used to determine **level of security** needed for incoming prison population

2. **Internal Classification System**: used to determine the **cell and housing assignments**, as well as facility programs assigned at the prison where the inmate is confined

Advantages of classification

- Improves safety for staff and inmates
- Avoids placing inmates in more secure and expensive environment than they need
- Contains gang activity
- Improves access to services for inmates with special needs.

Difficulties of adjustment: inmates often go through dehumanizing and gradation process upon entering the prison

Traditional inmate culture

1. **Acculturation**: process by which inmates learn and internalize **customs and culture** of the prison wherein they are confined.

2. **Inmate culture**: values, norms, and attitudes inmates form in order to **survive** in prison.

a. **Inmate social code**: **unwritten, informal understanding of how prison works**, including how a new inmate adjusts.

Examples of inmate Social Code:

Barton-Bellessa,2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores
