

El Cántico Espiritual de San Juan de la Cruz, es una obra magistral salida de la pluma de uno de los más reconocidos poetas de todos los tiempos. Un poema de tal belleza y profundidad que toca las fibras más íntimas del alma de católicos, creyentes y también no creyentes. El poema describe un itinerario de vida que inicia con una evidente búsqueda del alma sedienta del Amado, tras un encuentro que la ha llevado a desear conocer más y mejor al Ser que tan profunda y positivamente le ha impactado. En forma simultánea, se va dando un proceso que lleva al conocimiento propio, que conduce a una apertura: mental y espiritual que permite conocer la realidad, ubicar a Dios en el centro de la vida, —en su Trono Real— y así mismo, ubicarnos a nosotros mismos en nuestro debido lugar, de hijos amados del Padre Dios.

San Juan de la Cruz, en El Cántico Espiritual, da un índice clarísimo de la grandiosa del Amado, presente en su creación y en el alma del ser humano bautizado, hijo de Dios. Mientras el proceso del camino espiritual, cuyo destino es la unión del alma con Su Creador.

Cantico Espiritual Religion:

Humanism and Religion in Early Modern Spain Terence O'Reilly, 2021-09-30 Humanism and Religion in Early Modern Spain brings together twenty five essays by renowned historian Terence O'Reilly. The essays examine the interplay of religion and humanism in a series of writings composed in sixteenth century Spain. It begins by presenting essential background: the coming together during the reign of the Emperor Charles V of Erasmian humanism and various movements of religious reform, some of them heterodox. It then moves on to the reign of Philip II, focusing on the mystical poetry and prose of St John of the Cross. It explores the influence on his writings of his humanist learning, classical, biblical and patristic. The third part of the book concerns a verse epistle by John's contemporary Francisco de Aldana. One chapter presents the text with a parallel version in English, whilst two others trace its debt to Florentine Neoplatonism, particularly the thought of Marsilio Ficino. The final part is devoted to the humanism of the poet and Scripture scholar Luis de León and specifically to the confluence in his work of biblical and classical motifs. This book is essential reading for scholars and students of early modern Spanish history, as well as those interested in literary studies and the history of religion. CS 1102 The Cambridge History of Spanish Literature David T. Gies, 2004 Publisher Description *El cántico espiritual* Saint 1542-1591 John of the Cross, 2023-07-18 Este libro es una obra maestra espiritual que da voz a la experiencia humana de la búsqueda de la unión con Dios. Con un estilo poético y profundamente afectante, *El Cántico Espiritual* es una obra atemporal que continúa inspirando y conmoviendo a sus lectores hoy en día. Religion, Belief and Unbelief Antoon Vergote, 2024-03-11 This book focuses attention on the central elements of human religious existence. Vergote's primary aim and viewpoint are clear: to examine empirically and to interpret dynamically the psychological factors at work in the field of religion. Vergote consistently adheres to the position that psychology is neither philosophy nor theology and that its task is not to explain religion. In this work, he situates religion as a cultural fact and studies how persons orient themselves to it positively and/or negatively. Rather than emphasise and juxtapose belief and unbelief as alternative positions, he sees them as threads of experiences interwoven throughout the human existence of persons and institutions. In this context, he studies motivations and their ambivalences, religious experiences and their ambiguities, conflicts between religious belief and unbelief, and the various expressions and practices of religion. John of the Cross and the Cognitive Value of Mysticism S. Payne, 2012-12-06 Among Anglo-American philosophers, interest in mysticism has typically been limited to the question of whether or not

mystical and religious experiences provide evidence for or knowledge of the existence and nature of God Most authors conclude that they do not because such experiences lack certain qualities needed in order to be counted as cognitive In this study I examine some current philosophical opinions about mysticism and objections to its epistemic significance in the context of a detailed study of the writings of a single mystical author the Spanish Carmelite Saint John of the Cross 1542-1591 I argue that from his works one can draw a coherent theory of what takes place in the Christian mystical life and will indicate how acceptance of this theory might be defended as rational through a type of inference often referred to as the Argument to the Best Explanation In this way I hope to show that mysticism still has a significant bearing on the justification of religious faith even if it cannot be used to prove the existence of God The nature and advantages of my own somewhat unusual approach to mysticism can perhaps best be explained by contrasting it with the way other authors have dealt with the subject One of the most striking developments in recent decades has been the growing fascination with mysticism meditation and the experiential aspects of religion

Religious Imagery in the Theater of Tirso de Molina Ann Nickerson Hughes, 1984 *John of the Cross and the Cognitive Value of Mysticism* Steven Payne, 1990-07-31 This book is a significant contribution to the literature on mysticism and the epistemology thereof It is recommended to all those interested in the mystics and in the question of the cognitive value of mysticism *Review of Metaphysics* March 1992
