9789380704258 published in 2010 **Taenia Solium Cysticercosis** Gagandeep Singh, Sudesh Prabhakar, 2002 Taenia solium cysticercosis is a parasitic disease caused by the dissemination of the larval form of the pork tapeworm and affects an estimated 50 million people worldwide It is endemic in several developing countries including many in Central and South America Africa and South Asia Through increased immigration and international travel it is also of emerging significance in developed countries such as the USA This book written by international leading experts in the field covers the basic science and clinical aspects of Taenia solium its pathology investigational aspects of neurocysticercosis and therapy and prevention

Handbook of Differential Diagnosis in Neurology Nicholas P. Poolos, 2001 Portable reference of disease processes Organized by lists and tables Lists most common causes of specific neurologic problems first **Neurological Differential Diagnosis** Roongroj Bhidayasiri, Michael F. X. Waters, Christopher Giza, 2005-07-01 Neurology is primarily characterized by a variety of diseases which seem very similar and are therefore difficult to distinguish between Skill at differential diagnosis is therefore absolutely paramount Neurological Differential Diagnosis is a streamlined handbook of prioritized differential diagnosis to be used both in clinical practice and for exam review By presenting differential diagnosis in order of frequency and importance this book provides a practical handbook for clinicians in training as well as a potential resource for quick board review Whilst the book covers the most important syndromes and disease entities readers are referred to other texts for more exhaustive differentials By limiting differentials in this way to the most likely and most serious diagnoses the reader can more easily recall relevant disease processes when faced with a particular clinical situation whether it be a patient in the emergency room or a difficult question on the board examination The book specifically targets neurology residents and fellows with overlap to neurosurgery and psychiatry Internal medicine physicians with an interest in neurological problems and medical students looking for an edge in clinical neuroscience would also benefit from this text The content is primarily mid level material in a pedagogic format In order to organize the students thought processes concise tables and line drawing templates are included The book is organized into broad chapters by type of disorder and some overlap occurs between particular chapters **Differential Diagnosis in Neurology** Robert J. Schwartzman, 2019-09-15 The purpose of an exercise in differential diagnosis is to establish crosslinks between medical facts stored in different sections of our memory This book Differential Diagnosis in Neurology is the unified perspective of an eminent physician with decades of clinical

experience and teaching one of the most skilled clinical neurologists of modern times and a seasoned researcher who was the primary investigator for many clinical trials and who published numerous clinical and basic research papers The real world aspects of the book are based on morning reports with neurology residents and students conducted over 40 years The differential diagnosis generated by subspecialty division chiefs supplemented those proposed in morning reports The book is conceived as a guide that will give the clinician a concise snapshot or skeleton with a general background of the disease at hand Other disease aspects included in this book are molecular genetics physiology and biochemistry that will elucidate mechanisms and assist in discovering new entities Each chapter includes an extensive list of suggestions for further reading It is the art of crosslinking between medical facts that distinguishes Dr Schwartzman from other teachers of Neurology and that makes this book uniquely valuable The essence of a differential diagnosis is splitting rather than lumping it requires bringing knowledge to the table and then adding experience R J Schwartzman
