Dimensions A Casebook Of Alien Contact:

Dimensions Jacques Vallee, 2013-08 In DIMENSIONS the first volume of a trilogy Dr Jacques Vallee reexamines the historical record that led to the modern UFO phenomenon and to the belief in alien contact He then tackles the enigma of abduction reports which come from various times and various countries as well as the psychic and spiritual components of the contact experience In the last portion of the book he notes the factors that inhibit research into the phenomenon the triple coverup and political motivations and concludes that the extraterrestrial theory is simply not strange enough to explain the facts

Dimensions Jacques Vallee, 1997-09-01

Contact with Extraterrestrial Intelligence and Human Law Michael Bohlander, 2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent That contact may occur tomorrow in a hundred years or never If it does it will be a high risk scenario for humanity It may be peaceful or hostile Relying on alien altruism and benign intentions is wishful thinking We need to begin identifying as a planetary species and develop a global consensus on how to respond in either scenario

Perils of the Soul John R. Haule, 1999-01-01 In this text join Jungian analyst John Haule on a tour of New Age beliefs and practices to reach a comprehensive historical perspective that shows just how far from new the New Age actually is

The UFO Evidence Richard H. Hall, 2001-01-03 Patterned after the first volume published in 1964 The UFO Evidence Volume II is much anticipated by the research community The book reports 30 years of UFO sightings since 1964 with related data and descriptive features organized by category Among

the topics discussed are the now strongly established patterns of UFO sightings the growing evidence worldwide that UFOs represent someone's technology the history of government sponsored UFO investigations and political and human responses to UFO sightings The master chronology is an incredibly complete listing which also refers the reader to pertinent sections in the book for fuller descriptions

The Roswell Incident Debbie Schmitt, Thomas J. Carey, 2011-08-15 This book offers exciting accounts of sightings of alleged aliens and UFOs in Roswell New Mexico Surrounded by intrigue Roswell has been a hotbed of speculated paranormal visitors for decades Building on actual documentation this book offers perspective to these mysterious accounts Sidebars add another layer of fact or fiction filled fun

The Poet as Experienter Adam Staley Groves, 2025-08-13 In *The Poet as Experienter* Wallace Stevens and Nonhuman Intelligence Adam Staley Groves approaches Stevens not merely as poet thinker but rather as experienter and theorist of what is today called the phenomenon UFOs Challenging both Stevens scholarship and our broader understanding of poetic consciousness the book presents a radical appraisal of Stevens's oeuvre as an extended coded testimony of contact with nonhuman intelligence Drawing from journals uncollected poems and landmark works such as *Harmonium* and *The Necessary Angel* Groves argues that Stevens's poetic evolution mirrors the psychological and spiritual trajectory of an experienter grappling with anomalous phenomena long before cognitive frameworks for such were culturally available From moths and owls to missing time and the ethics of the imagination Groves reads Stevens's work as a sustained effort to reckon with anomalous phenomena whose language has not yet come Through careful textual analysis and historical correlation Groves positions the poet within a lineage that includes Coleridge Baudelaire Kierkegaard and Nietzsche who are recast not only as theorists of the imagination but as precursors to a modern metaphysical crisis now resurfacing through the contemporary discourse on UFOs and UAPs Unidentified Anomalous Phenomena Integrating rigorous literary scholarship with insights from ufology psychology and metaphysical philosophy Groves investigates Stevens's use of abstraction the ethics of poetic imagination and the emergence of the true subject as a form of ontological rupture In doing so the book bridges the hermetic with the historical and the poetic with the paranormal

The Edge of Science Alan Baker, 2013-01-17 How did the universe begin and how will it end What happens to us when we die Do intelligent beings exist elsewhere in our galaxy and beyond *The Edge of Science* addresses these and many

other questions that have bewildered and perplexed humanity for centuries Some of these enigmas have been solved through the ingenuity of their investigators others remain a mystery and have given rise to equally bizarre speculations From the Tunguska explosion of 1908 to the enigma of the Moon s origin from the possibility of time travel to the search for zero point energy author Alan Baker examines the many theories that have been presented to account for the world s most enduring mysteries Each chapter deals with an enigma that has caused wonder excitement or fear to all who have pondered it including the discovery of strange fossils that hint at an unknown early history of humanity anomalous structures photographed on the Moon and Mars the mystery of dark matter and dark energy and strange disappearances of people and objects Join Alan Baker as he embarks on a strange stimulating and sometimes frightening journey to The Edge of Science
