Victory in Defeat Gregory Urwin, 2011-01-15 Told here for the first time in vivid detail is the story of the defenders of Wake Island following their surrender to the Japanese on December 23 1941 The highly regarded military historian Gregory Urwin spent decades researching what happened and now offers a revealing look at the U S Marines sailors soldiers and civilian contractors in captivity In addition to exhaustive archival research he interviewed dozens of POWs and even some of their Japanese captors He also had access to diaries secretly kept by the prisoners This information has allowed Urwin to provide a nuanced look at the Japanese guards and how the Americans survived three and a half years in captivity and emerged with a much lower death rate than most other Allied personnel captured in the Pacific In part Urwin says the answer lies in the Wake Islanders establishment of life saving communities that kept their dignity intact Their mutual help networks encouraged those who faltered under physical and psychological torture including what is today called water boarding The book notes that the Japanese camp official responsible for that war crime was sentenced to life imprisonment by an American military tribunal Most Wake Islanders spent the war at two camps just outside Shanghai one of the few places where Japanese authorities permitted the Red Cross to aid prisoners of war The author also calls attention to the generosity of civilians in Shanghai including Swiss diplomats and the American and British residents of the fabled International Settlement who provided food and clothing to the prisoners In addition some guards proved to be less vicious than those stationed at other POW camps and occasionally went out of their way to aid inmates As the first historical work to fully explore the captivity of Wake Island s defenders the book offers information not found in other World War II histories

Inside the Bataan Death March Kevin C. Murphy, 2014-09-24 For two weeks during the spring of 1942 the Bataan Death March one of the most widely condemned atrocities of World War II unfolded The prevailing interpretation of this event is simple American prisoners of war suffered cruel treatment at the hands of their Japanese captors while Filipinos sympathetic to the Americans looked on Most survivors of the march wrote about their experiences decades after the war and a number of factors distorted their accounts The crucial aspect of memory is central to this study how it is constructed by whom and for what purpose This book questions the prevailing interpretation reconsiders the actions of all three groups in their cultural contexts and suggests a far greater complexity Among the conclusions is that violence on the march was largely the result of a clash of cultures undisciplined individualistic Americans encountered Japanese who valued order and form while Filipinos were active even ambitious participants in the drama

Back on Track Bob Wodnik, 2021-06-22 Observing its busy stations today it is difficult to picture Seattle and Puget Sound without Sound Transit Or to imagine how close the transportation agency came to folding Back on Track reveals its astonishing survival story After the city took the last streetcar out of service in 1941 Seattle subsisted for decades without a rail system and it was choking on congestion So for many it was a joyous day in November 1996 when voters in urban areas of King Pierce and Snohomish Counties approved a ten year 3.9 billion plan to bring mass transit to Puget Sound But for the 23 employees of the fledgling Sound Transit the celebration was short lived When light rail plan estimates came in a billion dollars over budget and extended the project three years the agency faced a torrent of angry taxpayers and public ridicule News headlines bristled about Unsound Transit and whether the organization was on the midnight train to nowhere Prominent politicians and citizens joined the battle One by one Sound Transit's administrators resigned Then Joni Earl stepped in The new executive director rallied the remaining team members secured a crucial 500 million federal grant publicly confronted critics and presented a realistic revised budget As construction began she and her team navigated lawsuits the complex and at times excessive demands of impacted locations and the expanding expectations of outlying communities Earl's vision tenacity and diplomacy transformed Sound Transit Under her leadership with strong support from Link Executive Director Ahmad Fazel and Seattle Mayor Greg Nickels the agency delivered its promised light rail system in July 2009 A resounding success Sound Transit exceeded usage forecasts and now its trains and buses serve nearly 50 million passengers a year traveling a combined 73 000 miles every day and few ever question whether the region's light rail system should exist
