Children's Spaces From Zero To Ten:

Children's Spaces Judith Wilson, 2005 Children's needs may seem obvious but their demands change with alarming speed Children's Spaces helps you to plan all the practical aspects of children's rooms and provides plenty of affordable ideas and inspiration when it comes to their design and decoration Judith Wilson looks at rooms for children between birth and ten years old with chapters on babies rooms rooms for girls how to cope with the pink flowery phase rooms for boys how to avoid the military look and shared bedrooms how to create a room that works for both boys and girls There are also chapters on sensible storage and areas that children and adults share bathrooms play areas eating areas and outside space Children's Spaces contains a wealth of inspiration drawn from the homes of real families with real kids which amply proves that children and great design can happily co exist without compromising on style Children's Spaces Judith Wilson, James R. Emond, 2001

How Children Learn Math Nancy Krasa, Karen Tzanetopoulos, Colleen Maas, 2022-10-25 Written for pre service and in service educators as well as parents of children in preschool through grade five this book connects research in cognitive development and math education to offer an accessibly written and practical introduction to the science of elementary math learning Structured according to children's mathematical development How Children Learn Math systematically reviews and synthesizes the latest developmental research on mathematical cognition into accessible sections that explain both the scientific evidence available and its practical classroom application Written by an author team with decades of collective experience in cognitive learning research clinical learning evaluations and classroom experience working with both teachers and children this amply illustrated text offers a powerful resource for understanding children's mathematical development from quantitative intuition to word problems and helps readers understand and identify math learning difficulties that may emerge in later grades Aimed at pre service and in service teachers and educators with little background in cognitive development the book distills important findings in cognitive development into clear accessible language and practical suggestions The book therefore serves as an ideal text for pre service early childhood elementary and special education teachers as well as early career researchers or as a professional development resource for in service teachers supervisors and administrators school psychologists homeschool parents and other educators *Developing Early Maths Skills Outdoors* Marianne Sargent, 2020-01-09 Developing Early Maths Skills Outdoors provides practitioners with practical planning for how to develop and enhance the outdoor area to facilitate mathematical learning It includes up to 80 activities to embed each learning experience into daily provision with dedicated plans to develop specific skills and aspects of mathematics The activities throughout the book are low cost and easy to set up aiming to reassure practitioners and give them the confidence to plan more mathematical learning experiences outdoors This is further supported with planning guidance and resource ideas as well as advice on observation and assessment including suggestions for how to reduce the paperwork burden and a useful observation template The book is divided into sections that represent the different aspects of
