Chinese History A New Manual Fourth Edition Harvard Yenching Institute Monograph Series:

In the Wake of the Mongols Jinping Wang, 2020-08-25 The Mongol conquest of north China between 1211 and 1234 inflicted terrible wartime destruction wiping out more than one third of the population and dismantling the existing social order In the Wake of the Mongols recounts the riveting story of how northern Chinese men and women adapted to these trying circumstances and interacted with their alien Mongol conquerors to create a drastically new social order To construct this story the book uses a previously unknown source of inscriptions recorded on stone tablets Jinping Wang explores a north China where Mongol patrons Daoist priests Buddhist monks and sometimes single women rather than Confucian gentry exercised power and shaped events a portrait that upends the conventional view of imperial Chinese society Setting the stage by portraying the late Jin and closing by tracing the Mongol period's legacy during the Ming dynasty she delineates the changing social dynamics over four centuries in the northern province of Shanxi still a poorly understood region **Chinese History** Endymion Porter Wilkinson, 2022 *Shen Gua's Empiricism* Ya Zuo, 2020-10-20 Shen Gua 1031-1095 is a household name in China known as a distinguished renaissance man and the author of Brush Talks from Dream Brook an old text whose remarkable scientific discoveries make it appear curiously ahead of its time In this first book length study of Shen in English Ya Zuo reveals the connection between Shen's life as an active statesman and his ideas specifically the empirical stance manifested through his wide ranging inquiries She places Shen on the broad horizon of premodern Chinese thought and presents his empiricism within an extensive narrative of Chinese epistemology Relying on Shen as a searchlight Zuo focuses in on how an individual thinker summoned conditions and concepts from the vast Chinese intellectual tradition to build a singular way of knowing Moreover her study of Shen provides insights into the complex dynamics in play at the dawn of the age of Neo Confucianism and compels readers to achieve a deeper appreciation of the diversity in Chinese thinking *Rival Partners* Jieh-min Wu, 2023-11-20 Taiwan has been depicted as an island facing the incessant threat of forcible unification with the People's Republic of China Why then has Taiwan spent more than three decades pouring capital and talent into China In award winning *Rival Partners* Wu Jieh-min follows the development of Taiwanese enterprises in China over twenty five years and provides fresh insights The geopolitical shift in Asia beginning in the 1970s and the global restructuring of value chains since the 1980s created strong incentives for Taiwanese entrepreneurs to rush into China despite high political risks and insecure property rights Taiwanese investment in conjunction with Hong Kong capital laid the foundation for the world's factory to flourish in the southern province of Guangdong but official Chinese narratives play down Taiwan's vital contribution It is hard to imagine the Guangdong model without Taiwanese investment and without the Guangdong model China's rise could not have occurred Going beyond the received wisdom of the China miracle and Taiwan factor Wu delineates how Taiwanese business people with the cooperation of local officials ushered global capitalism into China By partnering with its political archrival Taiwan has benefited enormously while helping to cultivate an economic superpower

that increasingly exerts its influence around the world Chinese History Endymion Porter Wilkinson,1998 A comprehensive and up to date guide to the basic problems encountered in researching traditional Chinese civilization and history with discussions of over 2 500 primary sources and reference works and a selection of 500 of the most outstanding contributions of modern scholarship **Chinese History, Volume 1** Endymion Wilkinson,2022-05-03 The sixth edition of Chinese History A New Manual revised and expanded to two volumes includes the latest developments in digital tools and the ancillary disciplines essential for work on Chinese history Volume 1 covers topics ranging from Language to Technology Volume 2 presents primary and secondary sources chronologically by period Shrines to Living Men in the Ming Political Cosmos Sarah Schneewind,2020-10-26 Shrines to Living Men in the Ming Political Cosmos the first book focusing on premortem shrines in any era of Chinese history places the institution at the intersection of politics and religion When a local official left his post grateful subjects housed an image of him in a temple requiting his grace that was the ideal model By Ming times the living shrine was legal old and justified by readings of the classics Sarah Schneewind argues that the institution could invite and pressure officials to serve local interests the policies that had earned a man commemoration were carved into stone beside the shrine Since everyone recognized that elite men might honor living officials just to further their own careers premortem shrine rhetoric stressed the role of commoners who embraced the opportunity by initiating many living shrines This legitimate institutionalized political voice for commoners expands a scholarly understanding of public opinion in late imperial China aligning it with the efficacy of deities to create a nascent political conception Schneewind calls the minor Mandate of Heaven Her exploration of premortem shrine theory and practice illuminates Ming thought and politics including the Donglin Party s battle with eunuch dictator Wei Zhongxian and Gu Yanwu s theories Lineages Embedded in Temple Networks Richard G. Wang,2023-11-20 Lineages Embedded in Temple Networks explores the key role played by elite Daoists in social and cultural life in Ming China notably by mediating between local networks biological lineages territorial communities temples and festivals and the state They did this through their organization in clerical lineages their own empire wide networks for channeling knowledge patronage and resources and by controlling central temples that were nodes of local social structures In this book the only comprehensive social history of local Daoism during the Ming largely based on literary sources and fieldwork Richard G Wang delineates the interface between local organizations such as lineages and temple networks and central state institutions The first part provides the framework for viewing Daoism as a social institution in regard to both its religious lineages and its service to the state in the bureaucratic apparatus to implement state orthodoxy The second part follows four cases to reveal the connections between clerical lineages and local networks Wang illustrates how Daoism claimed a universal ideology and civilizing force that mediated between local organizations and central state institutions which in turn brought meaning and legitimacy to both local society and the state **Structures of the Earth** D. Jonathan Felt,2022-03-07 The traditional Chinese notion of itself as the middle kingdom literally the cultural

and political center of the world remains vital to its own self perceptions and became foundational to Western understandings of China This worldview was primarily constructed during the earliest imperial unification of China during the Qin and Han dynasties 221 BCE 220 CE But the fragmentation of empire and subsequent Age of Disunion 220 589 CE that followed undermined imperial orthodoxies of unity centrality and universality In response geographical writing proliferated exploring greater spatial complexities and alternative worldviews This book is the first study of the emergent genre of geographical writing and the metageographies that structured its spatial thought during that period Early medieval geographies highlighted spatial units and structures that the Qin Han empire had intentionally sought to obscure including those of regional natural and foreign spaces Instead these postimperial metageographies reveal a polycentric China in a polycentric world Sui Tang 581 906 CE officials reasserted the imperial model as spatial orthodoxy But since that time these alternative frameworks have persisted in geographical thought continuing to illuminate spatial complexities that have been incompatible with the imperial and nationalist ideal of a monolithic China at the center of the world Du Fu Transforms Lucas Rambo Bender, 2022-03-07 Often considered China's greatest poet Du Fu 712 770 came of age at the height of the Tang dynasty in an era marked by confidence that the accumulated wisdom of the precedent cultural tradition would guarantee civilization's continued stability and prosperity When his society collapsed into civil war in 755 however he began to question contemporary assumptions about the role that tradition should play in making sense of experience and defining human flourishing In this book Lucas Bender argues that Du Fu's reconsideration of the nature and importance of tradition has played a pivotal role in the transformation of Chinese poetic understanding over the last millennium In reimagining his relationship to tradition Du Fu anticipated important philosophical transitions from the late medieval into the early modern period and laid the template for a new and perduring paradigm of poetry's relationship to ethics He also looked forward to the transformations his own poetry would undergo as it was elevated to the pinnacle of the Chinese poetic pantheon
