Migration and Activism in Europe since 1945 W. Pojmann, 2008-09-29 The political and social activism of immigrants to Europe since 1945 takes the spotlight in this volume Each chapter draws on research from international scholars offering a riveting look at a variety of migrant experiences and providing welcome comparisons of the impact of migration on different countries **Unpacking Hospitality Work Realities** Deirdre Curran, Anastasios Hadjisolomou, 2025-05-28 This volume provides evidence based insights and discussions on today's workplace realities in the hospitality industry It uses comparative perspectives and insights from international case studies to illustrate what is wrong what needs to change and how change can best be implemented to ensure fair work in hospitality Trade Unions, Immigration, and Immigrants in Europe, 1960-1993 Rinus Penninx, Judith Roosblad, 2000 Contains nine essays which discuss 1 resistance and cooperation regarding the employment of foreign workers 2 inclusion and exclusion of foreign workers within trade unions and 3 the adoption of equal treatment or special measures for foreign workers **Trade Unionism Since 1945** Craig Phelan, 2009 Overview This book offers the detailed historical background required for a holistic appreciation of current problems faced and the possibilities for revitalisation In two volumes it provides introductory overviews of trade union development since the end of World War II in 26 countries from every corner of the globe Each chapter explains the main contours of trade union growth and development in one country from the pivotal year 1945 to the present Each chapter assesses the often dynamic expansion of trade unionism in the 1950s and 1960s the role of trade unionism in the movements for national liberation in the Global South and the erection of social welfare systems in the developed North the economic shocks that resulted in membership decline and loss of political influence from the late 1970s onward the economic restructuring and growing labour market diversity of the 1980s and 1990s that undercut the traditional bases of trade union membership and the historical roots of the contemporary political and economic context in which revitalisation efforts are taking place

Migration and Domestic Work Gaye Yilmaz, Sue Ledwith, 2017-04-18 With female migrants dominating low paid and ever

expanding domestic work worldwide this book brings together the voices of 120 migrating women of 28 national identities and 10 different religious affiliations Together they tell how patriarchal and religious gender codes in the family and at work shape their new lives in London Berlin and Istanbul Through their own accounts the study explores the intersecting multiple and gendered identities women carry from their home countries and how these are reshaped challenged changed or not as they encounter different structures traditions and cultural codes in their new countries With women s propensity for collective organising whether via community social movements or trade unions as a central theme the authors also bring together issues of migration work and identity with trade union and community organizing Migration and Domestic Work is an important source for scholars and practitioners in each of these fields Liberal Workers of the World, Unite? Magaly Rodriguez Garcia,2010 The history of international free trade union organisations during the first two decades of the Cold War is an important but often neglected aspect of the development of post war labour and liberalism In this path breaking book Rodr guez Garc a fills this void in the historical literature by offering a comparative analysis of two cases the European Regional Organisation ERO and the Inter American Regional Workers Organisation ORIT which were created in the early 1950s as regional branches of the International Confederation of Free Trade Unions ICFTU The author employs the term labour liberalism to describe their wide variety of functions She argues that social democratic and reformist trade unions which made up the bulk of ICFTU members were fundamentally shaped by liberal values even while calling for the active participation of organised labour in the planning and implementation of projects promoting liberal democracy and socio economic development at home and abroad By placing international free trade unionism centre stage this book adds significantly to our understanding of post war labour and liberalism **The Future of Organised Labour** Craig Phelan,2007 This book offers analysis of the causes and extent of the movement s current malaise from a variety of vantage points It provides eight national and regional studies China Britain France the US Eastern Europe Brazil Ghana and Cameroon that detail problems face and the revitalisation strategies trade unions have pursued in response It also offers fresh scholarly perspective on a host of pressing labour issues the extent and impact of global corporate restructuring the ongoing fight to achieve core labour standards the enduring importance of gender and diversity the fortunes of the international labour movement the relationship between trade unions and NGOs the intellectual response to organised labour s present predicament and the role of labour in the global social justice movement **BACK COVER** *Development NGOs and Labor Unions* Deborah Eade,Alan Leather,2005 Contains essays from international labor lawyers trade unionists NGO campaigners corporate watchers scholars and activists Includes perspectives from diverse groups including the Development Policy Centre Nigeria the Nike Watch Campaign Union Aid Abroad Social Accountability International Women Working Worldwide PSI Research Unit War on Want Friedrich Ebert Stiftung and the Workers Educational Association Case studies from Iran the Ukraine Nigeria and the South Pacific Dvelopment NGOs and labor unions have much to gain from

collaborating in the pursuit of a social justice and rights agenda yet the two sectors have traditionally tended to operate independently of one another The another world is possible movement a continuing series of anti globalization protests and conflicting views on core labor standards corporate codes of conduct and the WTO have placed civil society organizations at the center of public debates on global governance While NGOs and unions will naturally pursue diverse strategies and tactics neither sector can afford to go it alone The essays collected in this volume elucidate some of the underlying tensions between trade unions and NGOs and illustrate the scope for constructive and respectful dialogue and potential partnership between them
