Exploitative Play in Live Poker Alexander Fitzgerald, 2018-11-19 Many poker players can make good decisions at the table with a reasonable frequency. Nevertheless, there are numerous situations where even very experienced players behave in predictable ways. These deeply ingrained habits lead them to make mistakes. The problem is that these situations won't often arise at the table by chance; you have to make them happen. **Exploitative Play in Live Poker** is a ground breaking work that teaches you how to create the circumstances where your opponents will be likely to blunder and how to exploit them when they do. To achieve this, you will need to put to one side starting hand charts, balance and GTO (Game Theory Optimal) play. Instead, you will incorporate new concepts that may well place you outside your comfort zone. However, your style will now be forcing the other players at the table outside of their comfort zone and unlike you, they won't know how to adapt. Learn how to counter the auto continuation bettor. Develop a powerful donk betting strategy. Use the overbet, the check raise and the three barrel effectively. As well as being a highly successful player, Alex Fitzgerald runs a poker consultancy that serves more than 1,000 professional poker players in 60 countries. As part of this work, he has very likely trawled through more hand history databases than anyone else. This gives him a unique insight into how players really play, especially when placed under pressure and forced into unfamiliar situations.
