Case Studies in Child and Adolescent Counseling Larry B. Golden, 1998 Its use of actual therapist client dialogue and treatment of current issues such as brief therapy provide readers with a snapshot of the real world of child counseling This practical case studies book gathers the varied case work of 16 extraordinary

counselors and therapists to bring readers face to face with actual counselors and troubled children Contemporary Case Studies in Clinical Mental Health for Children and Adolescents Jennifer N. Baggerly, Athena A. Drewes, 2024-01-05 Practicing counselors psychologists social workers and graduate students emerging into mental health professions are often faced with complex cases that do not conform neatly to theoretical textbooks It can be difficult to overcome the communication barrier and correctly interpret the awkward or shocking things children and adolescents may say in a therapeutic setting

Contemporary Case Studies in Clinical Mental Health for Children and Adolescents is a versatile case based practical treatment guide for child and adolescent therapy that provides current real world clinical examples undergirded by a theoretical approach This resource provides both a succinct discussion of diagnoses and theories as well as in depth step by step treatment guidance through contemporary case studies of diverse children and adolescents to apply and challenge typical textbook definitions Editors Baggerly and Drewes further address the dramatic changes in contemporary issues from the COVID pandemic race related events and political unrest to technological innovation and how these events might impact these demographics in a therapeutic context Mental health professionals will find this resource a handy modern guide and reference to better support diverse children and adolescents in their practice The Practice of Child Therapy Richard J. Morris, Thomas R. Kratochwill, 2008 Consistent with previous editions this book assembles in a single volume summaries of the treatment literature and treatment procedures of the most common childhood behavior disorders facing persons who practice in applied settings clinics schools counseling centers psychiatric hospitals and residential treatment centers Its 16 chapters cover the historical context of child and adolescent therapy obsessive compulsive disorders childhood depression childhood fears phobias and related anxieties attention deficit hyperactivity disorder academic problems conduct disorder somatic disorders autism spectrum disorder intellectual disabilities children medically at risk sexual and other abuse of children child and adolescent psychopharmacotherapy prevention and child therapy and the law Key features include Treatment Orientation Although some chapters include a discussion of theoretical issues the primary emphasis is on intervention techniques and strategies for changing various behavior and learning problems Case examples are often used to illustrate treatment procedures Empirical Orientation While most authors have adopted a broad based behavioral or cognitive behavioral orientation they were encouraged to review the entire treatment literature and to construct their presentations on the basis of empirically supported treatment techniques and procedures Psychopharmacotherapy Chapter The chapter on child and adolescent psychopharmacotherapy focuses on psychopharmacological interventions rather than on which drugs should be prescribed for specific behavior or learning problems Author Expertise Each chapter is written by experts who are well qualified to discuss treatment practices for the specific topic under discussion This book is intended for individuals who have entered or plan to enter the mental health profession or such related professions as counseling special education nursing and rehabilitation It is especially useful for individuals taking child and adolescent therapy and

intervention courses and practicum courses Finally it is suitable for persons who work in applied settings including clinics schools counseling centers psychiatric hospitals and residential treatment centers *Cognitive-Behavior Therapy for Children and Adolescents* Robert L. Findling, 2012 Guidance for integrating parents and families into the child s treatment is shared for every disorder covered in the book The book offers a well organized explication of innovative effective methods and tools Videos on the accompanying DVD provide an excellent companion demonstration of some of these techniques with different ages and disorders
