Michael Ivens

Contemplation And Incarnation Contemplation And Incarnation:

Contemplation and Incarnation Christophe F. Potworowski, 2001 Marie Dominique Chenu was a key figure in the revitalization of theology and renewal of the Church that culminated in the Second Vatican Council He successfully combined a return to the medieval sources of theological reflection with a new sensitivity to the present *Understanding the Spiritual Exercises* Michael Ivens, 1998 Ever since the Spiritual Exercises were first published in 1548 they have been a popular and important resource for spiritual directors and directees In this new translation Michael Ivens draws on the wealth of previously published materials as well as his extensive experience to produce a new commentary that unravels the inner workings of the Spiritual Exercises This new translation with detailed introductions to each section helps directors arrive at a firm and nuanced understanding of this classic of western spirituality *Contemplation on the Incarnation* David Michael Stanley, 1964* *The Dominican Approaches in Education* Gabrielle Kelly, Kevin Saunders, 2014-09-01 With eleven new contributions this second edition of essays on the sources and principles of Dominican values in education offers an extended sample of the many settings in which Dominican education broadly understood finds expression Cherished by all Dominicans these values are exemplified not only in the lives of well known foundational Dominicans but also in some of those many others who on every continent and across time have responded in typically Dominican ways at key moments in history Educators activists philosophers teachers preachers artists healers and theologians at many levels share their analyses and reflections on educating in many different contexts explicitly and implicitly demonstrating ideals and values common to the goals of Dominican education everywhere It is hoped that this collection offered again in this decade of Dominican Jubilee 1206 1216 to 2006 2016 will inform inspire and encourage all those engaged in the great work of educating not only youth but people of all ages towards greater life and liberty *Monastic Perspectives on Temporality* Riitta Hujanen, 2023-08-07 In this book Riitta Hujanen explores temporality in the context of Catholic enclosed contemplative traditions It investigates based on literature and other sources what enclosed contemplatives might say about temporality through their monastic journeys What makes a young person decide to dedicate their life inside a cloister Do contemplatives have a preference for eternity over temporal time How does the enclosed contemplative life impact one's concept of time How is time perceived towards the end of one's monastic journey What is seen when looking back to the years in the enclosed contemplative life What is experienced at the hour of death The answers to these questions illustrate a paradoxical dynamic in monastic journeys that cover a broad historical scope from the earliest monastic writers to contemporary sources **Humanity in the Mystery of God** Jennifer Cooper, 2009-06-30 Schillebeeckx's theology is a reflection on the nature of God who is both creator and redeemer his theology is a treatise on the God who is God for humanity This means of course that his theology is always both a reflection on the nature of God and on the meaning of humanity and hence there is a theological anthropology at the centre of his whole theological enterprise The definition of humanity is given in the relationship between the mystery

of God the God who is both transcendent and immanent and the mystery of humanity For Schillebeeckx the meaning of humanity is revealed and established in the mystery of God as a vocation to intimacy with God This intimacy is described both as a dependence upon God and as a situated freedom and hence the description of humanity which emerges from Schillebeeckx's treatise on God holds together humanity's metaphysical and moral significance At the heart of this theocentric anthropology is its christological structure Schillebeeckx develops a sacramental christology in light of his interpretation of Christ's incarnation The relation of incarnation to the death resurrection and glorification of Christ establishes a sacramental theological anthropology The meaning of humanity is given in its creative salvific sanctifying participative and personal relation to the God who is God both of creation and of covenant This book develops an interpretation of Schillebeeckx's theological anthropology by analysing his theology of revelation and grace and by examining the christological structure of his theology This christology centres on an interpretation of the incarnation in which the fully personal nature of Christ's humanity is key This christology establishes the sacramental nature of humanity and hence Schillebeeckx's description of the meaning of human nature is also a theological description of the meaning of human action

The Spiritual Exercises of Saint Ignatius of Loyola Saint Ignatius (of Loyola), 1922 *Nouvelle Théologie and Sacramental Ontology* Hans Boersma, 2009-05-08 In the decades leading up to the Second Vatican Council the movement of nouvelle théologie caused great controversy in the Catholic Church and remains a subject of vigorous scholarly debate today In Nouvelle théologie and Sacramental Ontology Hans Boersma argues that a return to mystery was the movement's deepest motivation Countering the modern intellectualism of the neo Thomist establishment the nouvelle theologians were convinced that a ressourcement of the Church Fathers and of medieval theology would point the way to a sacramental reintegration of nature and the supernatural In the context of the loss suffered by both Catholics and Protestants in the de sacramentalizing of modernity Boersma shows how the sacramental ontology of nouvelle théologie offers a solid entry point into ecumenical dialogue The volume begins by setting the historical context for nouvelle théologie with discussions of the influence of significant theologians and philosophers like M hler Blondel Mar chal and Rousselot The exposition then moves to the writings of key thinkers of the ressourcement movement including de Lubac Bouillard Balthasar Chenu Dani lou Charlier and Congar Boersma analyses the most characteristic elements of the movement its reintegration of nature and the supernatural its reintroduction of the spiritual interpretation of Scripture its approach to Tradition as organically developing in history and its communion ecclesiology that regarded the Church as sacrament of Christ In each of these areas Boersma demonstrates how the nouvelle theologians advocated a return to mystery by means of a sacramental ontology *Church as Sanctuary* Leo Guardado, 2023-12-08 Examines ancient and contemporary practices of refuge in the church *The Catholic University as Promise and Project* Michael J. Buckley, 1999-03-11 The remarkable development of the Catholic university in the United States has raised issues about its continued identity its promise and its academic constituents Michael J Buckley SJ explores

these questions especially as they have been experienced in Jesuit history and contemporary commitments The fundamental proposition that grounds the Catholic university Buckley argues is that the academic and the religious are intrinsically related Academic inquiry encourages a process of questioning that leads naturally to issues of ultimate significance while the experience of faith is towards the understanding of itself and of its relationship to every other dimension of human life This mutual involvement requires a union between faith and culture that defines the purposes of Catholic higher education In their earliest and normative documents Jesuit universities have been encouraged to achieve this integration through the central role given to theology Buckley explores two commitments that implicate contemporary Catholic universities in controversy an insistence upon open free discussion and academic pluralism to the objections of some in the Church and an education in the promotion of justice to the objections of some in the academy Finally to strengthen philosophical and theological studies Buckley suggests both a philosophical grammar that would discover and study the assumptions and methods involved in the various forms of disciplined human inquiry and a set of theological arts founded upon the more general liberal arts Entering into the contemporary discussion about the Catholic university this book offers inspiring and thought provoking ideas for those engaged in Catholic higher education
